Princeton, N.J.

To Whom It May Concern,

I was very disturbed when I received a letter from Aetna Healthy New York about another proposed rate increase.

My rate was just increased by $65.00 in August on my anniversary date. Every year the cost go up.

I will have a difficult time paying extra every year for health insurance + may have to drop my Aetna coverage.

I have been very satisfied with my health insurance coverage, but my financial situation in these difficult economic times may not afford me to constantly endure rate increases.

Hopefully my rate will remain the same so I will be able to keep my health insurance with Aetna.

Sincerely,

[redacted]
