UnitedHealthcare
A UnitedHealth Group Company

UnitedHealthcare Insurance Company of New York
New York Small Group EPO, POS, PPO and Indemnity Plans
Rates Effective January 2013 – December 2013

ACTUARIAL MEMORANDUM

I. Introduction

This rate filing addresses development of the rates effective from January 1, 2013 through December 31, 2013 for the New York Small Group EPO, POS, PPO, and Indemnity plans written by UnitedHealthcare Insurance Company of New York ("UHIC"). This rate filing is being submitted pursuant to Prior Approval. Rates effective January 1, 2012 through December 31, 2012 were filed with the Department of Financial Services ("DFS") on July 8, 2011 and modified by DFS on September 26, 2011.

II. Requested Rate Adjustments

For EPO, POS, PPO, and Indemnity products, we are requesting that the medical and pharmacy rates for 1st quarter 2013 effective dates be increased by 12.0% over the rates for the 4th quarter 2012 effective dates. This requested quarterly increase results in an annual increase of 22.4% for both medical and pharmacy plans.

We are proposing quarterly medical and pharmacy rate increases of 3.8% for each of 2nd, 3rd, and 4th quarters 2013 effective dates. These proposed quarterly increases result in average annual increases of 23.4% for 2nd quarter 2013, 24.4% for 3rd quarter 2013, and 25.4% for 4th quarter 2013 for medical, pharmacy, and on a combined basis.

The requested rate increases above include the applicable impacts of the fees and assessments associated with the Patient Protection and Affordable Care Act ("PPACA"). This is described in greater detail in Section VI of this Memorandum.

Additionally, we are requesting a correction to the area factor for Clinton and Essex Counties. The currently filed factor is 0.890, but the originally intended factor was 0.889. This error was the result of unintentional rounding. This change will result in Clinton and Essex counties having exactly the same area factors as the other counties in the same rating region. The revenue impact of this change is immaterial.

In addition to this premium rate adjustment filing, we separately submitted benefit change filings associated with state mandated autism coverage and federally mandated changes to women's preventive coverage. The requested rate impact for these coverage changes is approximately 1.8%. More detailed information about these filings can be found in DFS Supplemental Exhibit 6.

III. Source Data

We projected future claims for the EPO, POS, PPO, and Indemnity products by using claims incurred between January 1, 2011 and December 31, 2011 paid through March 31, 2012. Completion factors were applied by incurred month in order to calculate the fully incurred claims.

As required by the DFS filing checklist, we used the filed large group credibility formula for UnitedHealthcare Insurance Company of New York to test the credibility of this block of business. The formula is as follows:

A = Number of Contracts Factor = (Contracts/500) ^ 1/2, never to exceed 141.42%

The resulting credibility of this block of business and experience period exceeds 100% based upon this formula.

IV. Trend

We develop forward-looking medical expense estimates based on a number of considerations. As a general matter, we review our own recent/emerging claims experience at the state level for several broad medical expense categories (inpatient, professional, pharmacy, etc.), with utilization, unit cost, and benefit leveraging identified for each category. Future trends are developed based on a projection of each component.

Forward looking utilization levels are developed based on emerging state level data, supplemented by regional and/or national level utilization data. Macro-economic data is often used to develop assumptions regarding directional changes in national health care consumption rates.

The projected annual trend factor is 12.3%. This breaks down into the following components: 5.7% unit cost, 4.9% utilization, and 1.2% trend leveraging.

V. Rate Development

The key assumptions used in the development of the required rate change are as follows:

- **Trend**: The rate development assumes projected annual trend of 12.3% (5.7% unit cost, 4.9% utilization, and 1.2% trend leveraging).
- **Regulation 146**: We are projecting a receivable of $12.19 PMPM from Regulation 146 for calendar year 2013; the calendar year 2011 experience period reflects an actual receivable amount of $12.19 PMPM.
- **Target Loss Ratio**: The rate development assumes an 84% target loss ratio for EPO, POS, PPO and Indemnity products before the addition of PPACA fees and assessments.

Please see Exhibit I for a detailed development of the requested rate changes. We have used claims incurred between January 1, 2011 and December 31, 2011 paid through March 31, 2012 as our base experience period for the projection. The calendar year loss ratios for this experience period are 86.4% for EPO, 99.6% for POS, and 92.8% overall.

As shown in Exhibit I, the following adjustments are made to the experience period claims as part of the claims projection:

1. **Trend:** A trend factor of 1.26 is applied reflecting a 12.3% annual trend and 24 months between the endpoint of the experience period (December 31, 2011) and the endpoint of the rating period (December 31, 2013). Note that the Regulation 146 amounts from the experience period are removed before the claims are trended and prior to any of the following adjustments being made.

As aforementioned, the projected Regulation 146 amount for the rating period is a receivable of $12.19 PMPM. This amount is added to the trended and adjusted claims in order to calculate the total projected claims for the rating period.

For the premium projection shown in Exhibit II, we calculated the standardized premiums by bringing the earned premiums from the experience period to the 4th quarter 2012 rate level. Please see Exhibit II for this calculation.

The projected loss ratios of 87.4% for EPO, 100.7% for POS, and 93.9% overall for the rating period are calculated by dividing the projected claims by the standardized premium. The required 1st quarter 2013 rate increase over approved 4th quarter 2012 rates is 11.7% to target an 84% loss ratio in aggregate for EPO, POS, PPO, and Indemnity combined before the addition of PPACA fees and assessments. The inclusion of the PPACA fees and assessments described in Section VI increases the requested rate adjustment to 12.0%. For each of the 2nd, 3rd, and 4th quarters of 2013, we are proposing a trend increase of 2.9%. This percentage is calculated by taking the projected annual pricing trend of 12.3% to the ¼ power. The inclusion of the PPACA fees and assessments described in Section VI increases the requested quarterly rate adjustments to 3.8% for 2nd through 4th quarters 2013, for EPO, POS, PPO and Indemnity products.

VI. Insurer and Reinsurance Fees

The Patient Protection and Affordable Care Act (PPACA) includes several new taxes and fees which will increase health insurance costs and need to be reflected in premium. The two largest cost impacts both take effect with calendar year 2014 earned premiums:

1. Insurer Fee: This is a permanent fee that applies to fully insured coverage. This fee will fund tax credits for insurance coverage purchased on the exchanges. The total fee increases from $8B in 2014 to $14.3B in 2018 (indexed to premium for subsequent years.) Each insurance carrier's assessment will be based on earned health insurance premiums with certain exclusions. We estimate 2014 premium will need to be increased by 2.2% to cover this fee.

2. Reinsurance Fee: This is a temporary fee that applies to all commercial groups (both fully insured and self-funded) from 2014 to 2016 for the purpose of funding the reinsurance pool for high cost claimants in the individual market during this three year transitional period. The total baseline amounts to be collected to fund this pool are $12B in 2014, $8B in 2015, and $5B in 2016, and individual states can add to this baseline. Each insurance carrier will be assessed on a per capita basis. We estimate 2014 premium will need to be increased by $5.85 per member per month to cover just the baseline amount mentioned above.

Because these fees apply to all earned premiums starting in calendar year 2014, they impact only 1 month of premium associated with February 2013 rate effective dates, 2 months of premium for March, 2013 rate effective dates, … and 11 months of premium associated with December 2013 rate effective dates. As a result, the full 2014 impacts outlined above have been reduced for the 2013 rate effective dates in this filing to reflect just the amount of the policy period premium that falls into 2014**.** We have calculated the aggregate impacts by quarter in order to continue to maintain the same rates for all effective dates within each quarter.

VII. Expected Loss Ratio

The requested rate increase reflects an 84% target loss ratio before the addition of PPACA fees and assessments.

VIII. Commissions

Broker commissions are 4.0% of premium for business new and renewing in calendar year 2013.

IX. Projected Expense Components

Please see DFS Supplemental Exhibit 2 with the projected expense components for 2013. Please note that we have included the average impact the PPACA fees and assessment on line 6.5 because they vary by quarter as described in Section VI.

NEW YORK STATE DEPARTMENT OF FINANCIAL SERVICES

Instructions/Review Standards for Rate Adjustment Filings Submitted Pursuant to Section 3231(e)(1) or Section 4308(c) of the New York Insurance Law

As of 5/18/2012

Use this Checklist for all rate adjustment filings submitted pursuant to Section 3231(e)(1) or Section 4308(c) of the New York Insurance Law. One of the following two SERFF filing type codes must be used to properly denote such a filing. A rate submission with the wrong filing type code will be rejected and will need to be resubmitted with the correct filing type code.

Rate Adjustment Pursuant to Section 3231(e)(1): This filing type is used for Article 42 insurers that are submitting a rate adjustment only filing for a hospital and/or medical coverage (including Medicare Supplemental insurance) for small groups and individuals under the Section 3231(e)(1) prior approval process. This filing type cannot be used for form filings, initial rate filings, or by Article 43 Corporations or Health Maintenance Organizations (HMOs).

Rate Adjustment Pursuant to Section 4308(c): This filing type is used for Article 43 Corporations and HMOs that are submitting a rate adjustment only filing for any policy form that uses a community rating structure. This includes hospital and/or medical policy forms, or separate stand-alone dental policy forms, that are not required to be community rated but for which the corporation voluntarily community rates. "Community rating" means a rating methodology in which the premium for all persons covered by a policy or contract form is the same, based on the experience of the entire pool of risks covered by that policy or contract form without regard to age, sex, health status or occupation. This also includes the HMO portion of large group Point of Service business where an approved experience rating formula is not used. This filing code cannot be used for form filings, initial rate filings, or by commercial insurers.

A rate adjustment filing submitted pursuant to Section 3231(e)(1) or Section 4308(c) can include an expansion of an existing rate table to include new benefit options (such as rates for additional copays or deductibles) provided that: (a) the already approved contract language includes the new benefit options being added, (b) the actuarial memorandum clearly identifies the new benefit options being added and provides appropriate actuarial support for the new rates, and (c) approved contract language pages and the Department's approval letter are included with the rate filing documenting that the benefit options being added are included in the already approved contract language. No Section 3231(e)(1) or Section 4308(c) rate adjustment filing can include rates that require contract language approval where such approval has not already been received.

A change to existing rating region differentials is a rate adjustment filing pursuant to Section 3231(e)(1) or Section 4308(c). A rate adjustment filing submitted pursuant to Section 3231(e)(1) or Section 4308(c) cannot reflect an expansion to a new service area. A service area expansion, and the rate applicable to that new service area, must be submitted as a separate rate filing using the "Normal Pre-Approval" SERFF filing type code. A Section 3231(e)(1) or Section 4308(c) filing cannot be used to withdraw from a service area.

If a company wishes to eliminate some of its approved benefit options included in the current rate manual, this cannot be done pursuant to a Section 3231(e)(1) or Section 4308(c) rate adjustment application. Such elimination is to be implemented by submitting a form and rate filing using the "Normal Pre-Approval" SERFF filing type code and the filing is to include a revised statement of variables for the benefit options that are available along with revised rate manual pages reflecting the revised benefit options.

A rate adjustment filing submitted pursuant to Section 3231(e)(1) or Section 4308(c) cannot include any revision to existing contract language or include new contract language. Any rate filing in connection with a form filing (a new form or a revision to an existing form) must be a separate filing from the rate adjustment filing. Once a new rate has been approved (for a new policy form or for a revision to an existing policy form), such new rate can be incorporated into the next Section 3231(e)(1) or Section 4308(c) rate adjustment filing.

The "Normal Pre-Approval" SERFF filing type code triggers the traditional Department review (generally by the Albany Health Bureau unit) and would be used for all form and rate filings, form only filings, experience rating formula filings, or commercial insurer rate only filings other than filings submitted pursuant to Section

3231(e)(1), or Article 43 Corporation and HMO rate only filings other than filings submitted pursuant to Section 4308(c). The "Normal Pre-Approval" SERFF filing type code would also be used for old individual medical policy forms that are not community rated. Rate revisions for products subject to Section 3231(e)(1) or 4308(c) incorporated into a form and rate filing that adjusts an existing policy form for a change in benefit language can only reflect rate changes due to the benefit revision and can not reflect any adjustment for experience or trend. A "Normal Pre-Approval" SERFF type filing for a product subject to Section 3231(e)(1) or 4308(c) can not include rolling rate tables that extend beyond the period included in the most recently approved or pending Section 3231(e)(1) or Section 4308(c) rate adjustment submission (for example, the last rate adjustment submission included quarterly rolling rate tables for each calendar quarter of 2012; a benefit revision is submitted January 2012 to be effective July 1, 2012; this form and rate filing can include rolling rate tables for third and fourth quarter 2012, but not beyond fourth quarter 2012).

New or revised commission schedules or broker fee schedules must first be placed on file using a rate filing with a "Normal Pre-Approval" SERFF filing type code. Once the new or revised schedule has been placed on file, any rate impact can be included with the next Section 3231(e)(1) or Section 4308(c) rate adjustment filing and the change and its impact on the premium rates is to be discussed in the actuarial memorandum.

It is recommended that a Section 3231(e)(1) or Section 4308(c) rate filing application be submitted at least 150 days before the proposed effective date, however, in determining how far in advance to submit such a rate filing, the company should consider: the time needed to load final rates into its computer system; produce the final rate notice, which is to be sent at least 60 days before the scheduled rate change effective date of the renewal cohort; the 60 days the Department has to review the material; and the time the clock may be stopped while the company responds to issues raised by the Department about the rate filing.

It is recommended that a rate adjustment submission not be submitted more than 180 days prior to the proposed rate effective date. It is recommended that a rate adjustment submission not be submitted less than 125 days prior to the proposed effective date since there is a high probability that a decision on such a filing will not occur in time for the company to send the required final notice to the first renewal cohort affected by the rate adjustment filing. If a company can not send the required final notice at least 60 days in advance of the rate change date for a particular renewal cohort, then the rate change implementation date for such renewal cohort will need to be deferred. Contract terms will dictate whether the rate change can be deferred to a later implementation date for that renewal cohort (e.g., for the July 2012 renewal cohort, deferring the rate change to August 2012, while retaining the next rate change date as July 2013), or deferring implementation of the newly approved rates to a later renewal cohort (e.g., assuming quarterly rolling rates are used: renewing the July 2012 renewal cohort using the previously approved second quarter 2012 rate tables, and implementing the newly approved rates with the August 2012 renewal cohort).

Each attachment to the rate adjustment application must be compatible with the following software: Microsoft Word 2003, Microsoft Excel 2003, or Adobe Acrobat 9.

When an attachment is submitted via SERFF as other than an Adobe Acrobat PDF file, another copy of that attachment is to also be included in Adobe Acrobat PDF file format. This can occur when one of the standard exhibits is required to be submitted as an Excel workbook, or when an appendix/attachment to the actuarial memorandum is submitted in other than PDF format. Failure to include a PDF version of each attachment will result in an objection letter being sent for the missing material and the rate submission will be tolled while waiting for the missing material to be submitted.

The rate manual and the year over year exhibit (if distinct versions are used) are to be attached to the Rate Schedule tab of an initial SERFF filing. All other attachments are to be attached to the Supporting Documentation tab of the initial SERFF filing.

An "amendment" to a SERFF filing, as described beginning on page 183 of the SERFF Industry Manual (available online via SERFF), is used when the amendment is not in response to an objection letter. For example: the filer has decided to add a schedule item; the filer has noticed an error in one of the originally submitted schedule items and is submitting a correction before the error is raised in an objection letter. If a schedule item (e.g., actuarial memorandum, standard exhibit, rate manual, year over year exhibit, etc.) needs to be amended, the entire schedule item attachment is to be resubmitted using this process and not just the pages that need to be corrected.

NEW YORK STATE DEPARTMENT OF FINANCIAL SERVICES

Instructions/Review Standards for Rate Adjustment Filings Submitted Pursuant to Section 3231(e)(1) or Section 4308(c) of the New York Insurance Law

A revision to a previously submitted schedule item made in response to an objection letter is to use the "Revising Schedule Items" process described beginning page 170 of the SERFF Industry Manual. This is the method that is to be used when any schedule item needs to be revised in response to an objection letter, including a revised rate manual to be submitted in response to the Department's decision. If a schedule item (e.g., actuarial memorandum, standard exhibit, rate manual, year over year exhibit, etc.) needs to be revised in response to an objection letter, the entire schedule item attachment is to be resubmitted using this process and not just the pages that need to be revised.

NOTE: A new section, Public Disclosure of the Rate Application, has been added at the end of the checklist. If the applicant chooses to submit a redacted version of the rate application for posting on the Department's website, see the guidance there.

NOTE: Parts I and II of the HHS Preliminary Justification are now required for all market segments and for all section 3231(e)(1) or 4308(c) rate submissions. See the section "HHS Preliminary Justification Parts I and II" below for guidance.

REVIEW REQUIREMENT	REFERENCE	DESCRIPTION OF REVIEW STANDARDS REQUIREMENTS	LOCATION OF STANDARD IN FILING
DEFINITIONS		a. **Company** refers to the licensed entity providing the insurance coverage reflected in the rate adjustment filing. b. A company's **commercial book of business** includes all of the following: large group, small group, direct pay, Healthy New York, and Medicare Supplemental. It excludes all government programs, such as, Medicare, Medicaid, Family Health Plus, and Child Health Plus. c. **Loss ratio** refers to incurred claims divided by earned premiums for a given period of time. Incurred claims <u>includes</u> the impact of the Standard Direct Pay and Healthy New York stop loss pools, Regulation 146 (11 NYCRR 361), covered lives assessments, and the HCRA surcharge. Incurred claims do not include any administrative expenses, including "quality improvement expenses" or "community benefit expenses". Earned premiums <u>do not include</u> any adjustment for assessments or taxes. d. **Market segment** refers to large group, small group, sole proprietor, direct pay, Healthy New York, Medicare Supplemental, etc. Small group is as defined in New York Insurance Law and Regulation. e. **Product street name** refers to the product name as advertised to consumers, and the product name which consumers are most likely to use when communicating with the Department. f. **Rate applicability period** refers to the length of time in which the rates in a rate table are assumed to remain in effect. (i) Example 1: A non-rolling rate table is developed to be effective January 1, 2012 and is expected to be revised January 1, 2013. The rate applicability	

period for this table is January 1, 2012 through December 31, 2012.

(ii) Example 2: A quarterly rolling rate table is developed for issues and renewals in January – March 2012 and incorporates a 12 month rate guarantee period. The rate applicability period for this table is February 15, 2012 (mid renewal date) through February 14, 2013. If all policyholders must have a first of the month effective date, then the rate applicability period would be considered as February 1, 2012 through January 31, 2013.

g. **Standardized earned premium** is the earned premium for the period adjusted to assume that all premiums for the period are payable at the most current approved (or deemed approved) rate level, reflecting rate increases exclusive of rate changes due to contract language changes (i.e., excluding rate changes due to benefit revisions or members migrating to different plan designs since the impact of such changes would be automatically reflected in the earned premiums and incurred claims once such a change becomes effective). Refunds payable pursuant to Regulation 146 or pursuant to a loss ratio report have no impact on the earned premiums or standardized earned premiums shown in Exhibit 7 or in the rate development analysis.

(i) Example: The rate filing is to implement quarterly rolling rate tables applicable to the 3rd and 4th quarters 2012 and 1st and 2nd quarters 2013. The 2nd quarter 2012 rates have already been approved. Therefore, the 2nd quarter 2012 rate tables are the current rate level. The earned premium for the period would be adjusted to reflect the premiums that would have been paid for that period if all the premiums had been paid at the 2nd quarter 2012 rate level. If the 2nd quarter 2012 rate table included a 2% increase due to the addition of a new benefit that is being added to all policyholders at renewal, the standardization for periods prior to April 1, 2012 would not reflect this 2% increase since the incurred claims for this earlier period did not reflect this additional benefit.

(ii) Example: An insurance company uses a quarterly rolling rate structure and has been raising rates 4% each quarter as of the beginning of a new quarter. The first quarter 2011 rate for plan design A is $100, the first quarter 2012 rate is $116.99, and the second quarter 2012 rate is $121.67. These increases reflect no revision to the underlying covered benefits. The second quarter 2012 rate table is the standard rate level. Contract X was paying $100 per month for January-December 2011. At renewal January 1, 2012, the premium was scheduled to increase to $116.99 but a change to plan design B occurred that reduced the premium by 5% to $111.14 for January 2012 and later. The second quarter 2012 rate for plan design A is $121.67 and the second quarter 2012 rate for plan design B is $115.58 ($121.67 x 0.95). The earned premium for this contract for each month from January through December 2011 is standardized to the second quarter 2012 level by adjusting by 121.67/100.00, and the

		January 2012 earned premium is standardized to the second quarter 2012 level by adjusting by 115.58/111.14.	
ROLLING RATE STRUCTURE		a. Every rate filing for a rolling rate structure must include rolling rates for at least a 6 month, and for no more than a 12 month, issue/renewal period (e.g., between 2 and 4 quarterly rolling rates, between 6 and 12 monthly rolling rates). b. Beginning with rate filings to be effective January 1, 2012 or later, all rate filings for a rolling rate structure must include rolling rates for a 12 month issue/renewal period. c. Notwithstanding the above, a large group HMO rate filing can include rolling rates for up to a 24 month period (e.g., 8 quarterly rolling rates, 24 monthly rolling rates).	Rate Manual
CHANGES TO PREVIOUSLY APPROVED RATE TABLES		a. Beginning with rate adjustment filings that include rate tables to be effective January 1, 2012 or later, the rate adjustment filing must include all community rated policy forms within a given market segment (such as all small group products) whether or not a premium rate adjustment is requested for a particular product or rider in that market segment. All entities within the same holding company system are to submit filings for a given market segment at the same time; the filings can be submitted under different SERFF filings, but all the applicable filings must be submitted within a total of seven calendar days. b. A company can revise a previously approved non-rolling rate table provided that: (i) The proposed effective date of the rate table is at least 12 months after the effective date of the current rate table; or (ii) The proposed effective date of the rate table is at least 6 months after the effective date of the current rate table, the contract language permits revising the rate table in accordance with such rate filing, and all policyholders that received a final 60 day notice about the approved rates from the previously approved rate adjustment filing have also received the rate change approved from the previously approved rate adjustment filing. c. A company can revise rate tables included in a previously approved rolling rate filing provided that: (i) the rate tables being revised were never implemented, (ii) the first two quarterly rate tables, or the first six monthly rate tables, included in the previously approved rate adjustment filing are not revised, and (iii) policyholders in the renewal cohort(s) affected by the change to the previously approved rate tables did not receive a final 60 day notice informing them of the approved rates from the previously approved rate adjustment filing. The revised rate adjustment filing must include a year's worth of rates as discussed in the "Rolling Rate Structure" section above. (Example: A rolling rate filing was submitted and approved that included quarterly rolling rate tables for 1st, 2nd, 3rd	

		and 4th quarter of 2012. The company can not revise the 1st and 2nd quarter 2012 rate tables, but if the indicated criteria is met, can submit a new prior approval rate filing that includes rolling rates for 3rd and 4th quarter 2012 and 1st and 2nd quarter 2013.) The Department may waive these requirements if the company can demonstrate to the Superintendent's satisfaction that the solvency of the corporation is threatened.	
STANDARD EXHIBITS 1 - 7	Introduction	Exhibits 1 through 7 must be submitted as part of each rate adjustment application. All exhibits, except Exhibit 3, must be submitted as a Microsoft Excel file and as an Adobe PDF file. For Exhibits 1-2 and 4-7 the supplied workbook must be used. Only use the first tab of each Excel workbook for data entry.	
Exhibit 1		**General information about the rate adjustment submission.** a. The format for this exhibit is fixed. Fill in the various information fields; the information being requested is indicated on the exhibit. b. Indicate the company type using the drop down list: Article 42 Accident and Health company (A&H – 42), HMO (HMO – 44), Article 42 Life company (Life – 42), Article 41 property/casualty company (P&C – 41), and Article 43 Non-Profit Medical and Dental Indemnity or Health and Hospital Service Corporations (Not for Profit – 43). c. Indicate the organization type (Org Type), for profit or not for profit, by using the drop down list. d. Item D – the "new rate effective date" must be a realistic implementation date given the review time allowed the Department and the requirement of the 60 day final rate notice. This date would usually be the first date the proposed rates would affect renewing policyholders. So a 1/1/2013 effective date would imply that the first renewal cohort affected by the rate submission would be January 2013. e. Item F.1 – a rate adjustment filing that also includes rate adjustments for unapproved contract language changes will be rejected. f. This exhibit must be submitted as an Excel file and as an Adobe PDF file.	Standard Exhibit 1
Exhibit 2		**Summary of Average Claim Trend and Administrative Expenses Included in Current and Prior Rate Adjustment Filings.** a. This exhibit must be submitted as an Excel file and as an Adobe PDF file. The format of the exhibit is fixed; insert more rows as needed. Only use the first tab for data entry. b. Use a separate row to enter information for each combination of market segment/rating pool included in this rate adjustment application. Use the drop down list to enter the market segment. Enter a description of the rating pool in the column indicated; if the rating pools vary by rating region, the rating pool identifier should include a region identifier. All market segments of Healthy New York are usually combined into one rating pool and in that case choose as market	Standard Exhibit 2

		segment HNY-IND or HNY-SG based on which subpopulation has the most membership. c. Information is for medical base plans and all associated riders combined. d. The average claim trend is the average annualized claim trend for that market segment/rating pool used in the applicable rate adjustment filing to project the source data forward to the applicable rate applicability period. e. The administrative expense components incorporated into the proposed rates are to be entered as a percentage of gross premium and as a per member per month amount. f. Enter the data for the rate period included in this rate adjustment filing. This refers to the various non-claim expense components included in the proposed rates and the average annualized claim trend assumed. g. Enter the data for the rate period included in the immediately prior rate adjustment filing (i.e., a section 3231(e)(1) or 4308(c) rate adjustment filing). This refers to the various non-claim expense components included in the proposed rates submitted with this prior filing and the average annualized claim trend assumed in this prior filing. If there is no immediately prior rate adjustment filing, enter the data assumed in the initial or prior form and rate filing.	
Exhibit 3		**Narrative Summary.** a. The format of the exhibit is illustrative, but must include the required material. The exhibit may be submitted as a Word document file, an Adobe PDF file, or an Excel file. If submitted as a Word or Excel file, also submit another version in PDF format. b. The narrative summary is to explain the reason(s) for the proposed rate adjustment. The purpose of the narrative summary is to provide a written explanation to the company's policyholders and subscribers to help them understand why a rate increase is needed. c. The narrative summary will be a public document. d. It is suggested that once reviewed by the Department, the company post the narrative summary to a location on its website that is publicly available, that is, a location that can be viewed without the need for entering a user ID and password. Links should be provided on key pages of the company's website so that the information may be easily located. Any change(s) to the narrative summary subsequent to the posting is to be submitted to the Department with the specific change(s) identified. Narrative summaries should remain on the company's website for at least 12 months past the proposed effective date of the rate submission. e. The narrative summary should include, but not be limited to, the following	Standard Exhibit 3

		information: (i) The name of the company submitting the rate adjustment request, the NAIC code number for the company, and the SERFF number for the rate application. (ii) A summary of the proposed rate adjustments. (iii) A description of which policyholders are affected by this rate adjustment application. The rate adjustment may only affect policyholders in a certain market segment (e.g., small group), or with certain products (indicate the "street name" of the products affected), or only a certain renewal cohort (e.g., policyholders renewing from period mm/dd/yyyy – mm/dd/yyyy). (iv) The effective date of the proposed rate adjustments and an indication of when the rate change would affect policyholders. Examples: (a) Non guaranteed rate structure: all policyholders will receive the rate adjustment on mm/dd/yyyy. (b) A rate structure with a 12 month rate guarantee: a policyholder will receive the rate adjustment on the policyholder's next anniversary on or after mm/dd/yyyy. (v) The number of policyholders and members affected by the proposed rate adjustments. This can be aggregated across all market segments and products included in the rate adjustment submission. (vi) An explanation, in plan language, as to why it is necessary to request such rate change(s). As appropriate, a separate explanation should be provided for each market segment. Where the rate increases are not the same for each product type within a market segment, the company should provide a separate explanation for each such product type. Each page of the narrative summary should be numbered (i.e., [page] of [pages]).	
Exhibit 4		**Summary of Proposed Percentage Rate Change to Existing Rate.** a. There are four different versions of this exhibit as indicated below. Not all versions may be required for a given rate filing. (i) Part A – Base Medical Plan information when a Non-Rolling Rate Structure is used. (ii) Part B – Base Medical Plan information when a Rolling Rate Structure is used. (iii) Part C – Drug Rider information when a Non Rolling Rate Structure is used. (iv) Part D – Drug Rider information when a Rolling Rate Structure is used. b. The information to be shown in this exhibit pertains to the market segments and products included in the rate adjustment filing. Use the drop down list to enter the market segment. c. This exhibit must be submitted as an Excel file and as an Adobe PDF file. The format of the exhibit is fixed, insert more rows as needed. Only use the first tab for	Standard Exhibit 4

		data entry. d. This exhibit is to summarize the proposed percentage rate changes. The percentage rate change is the percentage change from the rate the subscriber is currently paying (or currently scheduled to be paying at the next rate change date for changes already approved or deemed approved by a prior rate application and which are not being revised by the current rate application) to the proposed rate that this subscriber would be paying at the subscriber's next rate change date according to the new rate application. Example 1: the rate structure is quarterly rolling rates, has a 12 month rate guarantee period, and the rate adjustment application is for second quarter 2013 issues and renewals. The rate change would be the percentage change from the second quarter 2012 rates to proposed second quarter 2013 rates. Example 2: the rate application includes quarterly rolling rates for each quarter of calendar year 2013. The prior rate application included quarterly rolling rates for each quarter of 2012. Rates include a 12 month rate guarantee period. The current rate application is submitted July 2012 before all the third and fourth quarter 2012 renewals have taken place. The proposed percentage change for fourth quarter 2013 would be the change from the fourth quarter 2012 rates to the proposed fourth quarter 2013 rates. e. If the subscriber will need to change to a different plan design at renewal (i.e., a required change from the current plan design whether mandated by a government entity or not, but not due to the discontinuation of the current policy form or discontinuation of a particular plan design), a supplement to Exhibit 4 is to be included. The supplemental exhibit is to indicate (i) a high level summary of the difference in covered benefits and cost sharing between the current and replacement plan, and (ii) the estimated pricing percentage change due solely to the difference in the plan designs between the replacement plan and the existing plan. This supplemental exhibit may be submitted as a Word document file, an Adobe PDF file, or an Excel file; if submitted as a Word or Excel file, also submit another version in PDF format. f. The weighted averages may be based on membership or contract as used in Standard Exhibit 5 instead of premium volume. g. The values entered should follow the organization of the rate manual. If the drug rate is included with the rates in the medical rate table, the combined result is entered in Part A and/or Part B. If the drug rate is a separate rate table associated with a drug rider, then the medical changes are shown in Part A and/or Part B and the drug rider changes are shown in Part C and/or Part D. h. Parts A and B summarize the proposed changes for the base medical rate tables and excludes the impact of all optional riders. The lowest and highest values indicate for a given market segment, region, policy form, product combination the	

		lowest percentage change that applies to a renewing subscriber/contract holder and the highest percentage change that applies to a renewing subscriber/contract holder. This difference could be due to different percentage changes proposed by rating tier or by plan design within a particular product. Example: The rate adjustment application is only for small group PPO and within this product there are only two product designs. The proposed rate changes for design A are: employee only = 10%, employee+child(ren) = 8%, employee+spouse = 13% and employee+family = 11%. The proposed rate change for design B are: employee only = 9%, employee+child(ren) = 7%, employee+spouse = 12% and employee+family = 10%. The lowest change proposed is 7% and the highest change proposed is 13%. The weighted average change would reflect the distribution of contracts by plan design and rating tier. i. Parts C and D summarize the proposed changes just for the traditional drug riders. Exclude minor drug related riders such as a rider to include oral contraceptives. All the drug riders available with a given base medical product can be aggregated into one row. Example 1: Drug riders D1 to D99 are available with the PPO product. The proposed changes on the drug riders vary from 10% to 16%. There would be one row for the PPO policy form/product. The lowest change proposed is 10% and the highest change proposed is 16%. The weighted average change would reflect the distribution of contracts by plan design and rating tier. Example 2: As in Example 1, but drug riders HD1-HD19 are available with the HSA high deductible PPO product. There would be another row for the high deductible PPO policy form/product indicating the lowest, highest, and weighted average changes among the HD1-HD19 drug riders. j. A separate row should be completed for each market segment. If the percentage rate change for sole proprietor is different from small group, then a separate market segment of sole proprietor is to be reported. k. Where rate changes differ by rating region within a market segment, separate rows are to be used by market segment/rating region combination. l. Separate information should be submitted for each rolling rate table of a rolling rate structure. For example: if a calendar quarterly rolling rate structure is used and the rate adjustment filing includes proposed rate tables for first, second, third and fourth quarters 2013, separate information should be entered in Parts B and D for the impact of the first quarter 2013 rate changes, the impact of the second quarter 2013 rate changes, the impact of the third quarter 2013 rate changes, and the impact of the fourth quarter 2013 rate changes.	

Exhibit 5		**Distribution of Contracts Affected by the Proposed Rate Adjustments.** a. There are two different versions of this exhibit as indicated below. Not all versions may be required for a given rate submission. (i) Part A – for use with Non-Rolling Rate Structures. (ii) Part B – for use with Rolling Rate Structures. b. This exhibit must be submitted as an Excel file and as an Adobe PDF file. The format of the exhibit is fixed, insert more rows as needed. Only use the first tab for data entry. c. The information to be shown in this exhibit pertains to the market segments and products included in the rate adjustment submission. Use the drop down list to enter the market segment. d. This exhibit indicates the distribution of the proposed rate changes for each market segment, rating region and product, as well as the weighted average rate change impact for that segment/region/product combination. If the same percentage rate change applies to each rating region, then a separate break out by rating region is not necessary and the results can be shown for all rating regions combined. e. The distribution basis can be by number of contracts or by number of members – fill in the applicable column. The same basis is to be used for all products within a given rate adjustment submission. Enter the applicable counts in the appropriate column (members column or contracts column), and replace the "mm/dd/yyyy" placeholder with the applicable "as of" date for the counts entered. The Weighted Average % should be developed based on the distribution of contracts or members for that market segment/rating region/product. At the end of each market segment enter a Market Segment Total row indicating the member/contract counts in total and by rate change column and the Weighted Average % for all rating regions/products in that market segment combined. f. The percentage rate change reflects the expected change in premium rate that would apply to that subscriber/contract holder on that subscriber/contract holder's next rate change date according to the new rate application. This would reflect the percentage rate change from the rate the contract holder is currently paying (or currently scheduled to be paying at the next rate change date for changes already approved or deemed approved by a prior rate application and which is not being revised by the current rate application) to the proposed rate that this contract holder would be paying at the contract holder's next rate change date according to the new rate application The rate change reflects the impact of the base medical plans and all riders applicable to that contract. g. Enter in Part A the information for the various products that use a non-rolling rate structure. h. Enter in Part B the information for the various products that use a rolling rate structure. Separate rows are to be used for each rolling rate cohort. For example, if	Standard Exhibit 5

		the rate submission is for quarterly rolling rate tables for first, second, third and fourth quarter 2013, then separate rows would be used to enter information for each of these four quarters. The distribution shown for a particular quarter would reflect only those policyholders renewing in that particular quarter.	
Standard Exhibit 6		**Summary of Policy Form and Product Changes.** a. This Standard Exhibit summarizes all rate changes filed pursuant to sections of the New York Insurance Law other than Section 3231(e)(1) or Section 4308(c) that impact the policyholders affected by this rate adjustment filing and which affect the percentage changes shown on Standard Exhibits 4 or 5. b. The format of the Standard Exhibit is fixed. Insert additional rows as needed. Only use the first tab for data entry. Use the drop down list to enter the filing status. Leave the Approval Date column blank for any filing that has not yet been approved. This Standard Exhibit must be submitted as an Excel file and also as an Adobe PDF file. c. List all rate filings that have been approved since the prior Section 3231(e)(1) or Section 4308(c) rate filing that impact the percentage rate change of the policyholders affected by this rate adjustment filing. The actuarial memorandum should include a brief description of such changes, when the changes were implemented, and the impact on the rate changes in Standard Exhibits 4 and 5. d. List all rate filings currently pending with the Department that if approved would impact the percentage rate change of the policyholders affected by this rate adjustment submission. This includes any pending request to discontinue a policy	Standard Standard Exhibit 6
Standard Exhibit 7		**Historical Data by Each Policy Form Included in the Rate Adjustment Filing.** a. This Standard Exhibit must be submitted as an Excel file and as an Adobe PDF file. The format of the Standard Exhibit is fixed; insert additional rows as needed. Only use the first tab for data entry. b. Indicate the company name, the NAIC code number for that entity, and the SERFF filing number for the applicable rate filing in the spaces indicated. c. Use a separate row for each base medical policy form belonging to a rating pool (i.e., a permitted aggregation of base medical policy forms). Data is to be shown for each base medical policy form included in the rate adjustment filing even if no rate adjustment is proposed for that base medical policy form. Then add another row for the rating pool total and indicate an appropriate rating pool identifier in the first column. Skip a line and then enter similar data for the next rating pool. d. Indicate the form number for each base medical policy form, the product name as in the rate manual, the street product name, and the rating pool identifier (the rating	Standard Standard Exhibit 7

		Refer to Section 360.11(a)-(b) of Regulation 145 (11 NYCRR 360) for the requirements to aggregate substantially similar policy forms for small group policy forms and for individual policy forms. e. Indicate for each base medical policy form if the policy form aggregation has changed from the previous rate filing. If yes, the actuarial memorandum must include an explanation of the change, the rationale for the change, and the percentage rate impact this change has on this policy form and on the policy forms previously aggregated with this policy form. f. The effective date of rate change refers to the proposed effective date of the non-rolling rate table, and/or the proposed effective date of the earliest rolling rate period of a rolling rate structure. g. The rate guarantee period refers to a non-rolling rate table and/or to the first rate table of a rolling rate structure. (If the rate guarantee period for the rolling rate structure is not the same for each rolling rate period, the actuarial memorandum must discuss this and explain why the length of the rate guarantee periods are not the same.) h. The weighted average rate change percentage proposed (from the rate currently charged the policyholder [or currently scheduled to be charged at the next rate change date for changes already approved or deemed approved by a prior rate application and which is not being revised by the current rate application] to the proposed rate to be charged to that same cohort of policyholders) for the indicated base medical policy form, including all associated riders. The weighting should be consistent with how the average changes were calculated in Standard Standard Exhibit 5 (i.e., based on members or contracts). For a rolling rate structure, enter the result for the first rate table in the rolling rate structure. (Example: a quarterly rolling rate filing was submitted that includes rolling rate tables for the 1st, 2nd, 3rd, and 4th quarters of 2013. Rates are for a 12 month period. Indicate the average rate change percentage from the 1st quarter of 2012 rate tables to the 1st quarter 2013 rate tables.) i. For the number of policyholders affected and the number of covered lives affected by this rate filing, indicate the effect of all the rate tables of a rolling rate structure included in the rate filing (but not more than 12 months of issues and renewals if more than 12 months of rolling rate tables are included in the rate filing). For group business, “policyholders” is referring to the number of groups, not the number of subscribers or contracts. j. The expected loss ratio is the loss ratio incorporated into the proposed rate tables for each base medical policy form (and the entire rating pool) and includes the impact of associated riders and reflects the impact of the proposed rate changes. Loss ratio is calculated on a New York statewide basis. For a rolling rate structure,	

		period of the rolling rate structure. k. The experience entered for the three indicated experience periods is the New York statewide experience for the indicated base medical policy form plus all associated riders. (i) Each experience period is to be for 12 months (or shorter if a new form). (ii) The ending date of the recent experience period cannot be earlier than 12 months before the proposed effective date of the earliest rate table included in the rate filing. (Example: The rate filing is for a non-rolling rate table to be effective July 1, 2013. The recent experience period cannot have an ending date earlier than June 30, 2012, i.e., 12 months prior to July 1, 2013.). (iii) The first prior period is the immediately prior 12 month experience period (or shorter period if a new form). The second prior period is the immediately prior 12 month experience period (or shorter if a new form) prior to the first prior period. (iv) The incurred claims for each of the three experience periods must be based on at least 3 months of claims run-out beyond the end of the experience period. The actuarial memorandum is to provide a clear description of how these incurred claims were developed for each experience period and how many months of claim run-out were reflected in the development of the incurred claims. (v) Loss ratio report refunds or refunds pursuant to Regulation 146 are to have no impact on the earned premiums or standardized premiums shown. Such refunds do not reduce the earned premiums or resultant standardized earned premiums. l. Enter the average annual composite medical trend assumption used in the proposed rate development for each base medical policy form (including impact of associated riders). Enter the annual utilization and unit cost trend components included in the composite trend factor shown, as well as any other component such as for case mix or intensity (identify and discuss and justify any such other component in the actuarial memorandum along with the utilization component and unit cost component). m. The actuarial memorandum is to include a clear description of how the standardized earned premiums for each experience period were developed from the earned premiums for the applicable experience period, and include documentation and supporting Standard Exhibits showing how the standardized premiums were developed for each experience period. A numerical example illustrating the development methodology for one non-rolling rate product and one rolling rate product included in the rate filing is to be included as part of the actuarial memorandum, as applicable. The same standard rate level is used for all of the experience periods.	

		this rate filing, separate rows are to be included for each rating region, each permitted aggregation of rating regions, and for all rating regions combined, and the rating pool identifier is to include a rating region identifier.	
ACTUARIAL MEMORANDUM	11NYCRR 52.40(a)(1)	Actuarial qualifications: a. Member of the Society of Actuaries or member of the American Academy of Actuaries; and b. Meets the "Qualification Standards of Actuarial Opinion" as adopted by the American Academy of Actuaries.	Actuarial Memorandum
Justification of Rates	§3231(e) §4308(c) 11NYCRR 52.40 11NYCRR 52.42 (HMOs) 11NYCRR 52.45 11NYCRR 59.5(b) 11NYCRR 360.11	a. Description of proposed changes in rates, including the following: (i) The member (or contract) weighted average proposed percentage change over the current rates charged to each renewal cohort of policyholders for each base medical policy form, including the impact of all associated riders available to that policy form (or currently scheduled to be charged at the next rate change date for changes already approved or deemed approved by a prior rate application and which is not being revised by the current rate application). This is to be shown for each non-rolling rate table and/or each rolling rate table included in the rate filing. (The percentage change is comparable to the percentage change developed for Standard Standard Exhibit 5.) Include comparable information for percentage rate changes implemented during the prior 24 months. (ii) For a rolling rate structure, the percentage change to the first rate table of the rolling rate structure included in the rate filing, from the immediately preceding implemented rolling rate table not included in the rate filing. Indicate the rolling rate periods of the rate tables used to develop this percentage change. If the percentage change between two corresponding rate tables is not uniform, indicate the minimum, maximum and average percentage change between those two rate tables. This comparison is to be done for each first table of a rolling rate structure included in the rate filing. (Example: The rate filing includes four quarterly rolling rate tables beginning 3rd quarter 2013. The change from each of the 2nd quarter 2013 rolling rate tables to the corresponding 3rd quarter 2013 rolling rate table is to be indicated.) The proposed percentage change between each succeeding rolling rate table is also to be indicated. (iii) For the 24 month period prior to the effective date of the earliest rate table included in the rate adjustment fililng, indicate the aggregate (medical plus riders) percentage change between the successive non-rolling rate tables. For a rolling rate structure, indicate the aggregate (medical plus riders) percentage change between each of the successive rolling rate tables (e.g., for a quarterly rolling rate structure, the percentage change between each of the successive	Rate Manual, Actuarial Memorandum, & Exhibit I – Rate Development

		quarterly rate tables). (iv) The percentage change due to any change in the expected loss ratio incorporated into the proposed rate tables from the prior rate filing for such base medical policy form or rider. Indicate the expected loss ratio incorporated into the current rate tables, the expected loss ratio incorporated into the proposed rate tables, the impact on the percentage change in items (i) and (ii) above due to this revision in the expected loss ratio, and the reason(s) and justification for the change in the pricing expected loss ratio. (v) The percentage change due to any change to the tier structure relationships included in this rate filing and the impact of such change on the percentage changes in items (i) and (ii) above. Include justification for such changes. (vi) The percentage change due to any change to the factor used to convert per member per month results to per single employee results included in this rate filing, and the impact of such change on the percentage changes in items (i) and (ii) above. Include justification for such changes. (vii) The percentage change due to variance in the prior incurred claim cost per member per month estimate and the impact of such variance on the percentage changes in items (i) and (ii) above. Discuss the reasons contributing to this variance and include an Standard Exhibit showing how this variance and the percentage impact of this variance were developed. (viii) Changes to any of the rating differentials between the various rating regions included in this rate filing. If the rating differential between the rating regions was changed, include (a) a listing of the composition of each rating region, (b) the percentage change impact on each such rating region, and (c) justification for each such change between the rating region differentials. If the composition of any rating region is being changed with this filing, indicate (a) the current and proposed composition of the affected rating regions, (b) the percentage change impact on each of the affected rating regions, and (c) justification for the proposed change in the rating region composition. b. If new benefit options are being added to an existing rate table (such as additional copays or deductibles): (a) clearly indicate the additions being made, (b) include in the actuarial memorandum, a statement that the already approved contract language includes the new benefit options being added, (c) provide appropriate actuarial justification for the additional rating factors, and (d) submit a copy of the approved contract language pages and a copy of the Department's approval letter and clearly indicate how the approved contract language covers the new benefit options being added to the existing rate table. c. Include the following (year over year Standard Exhibit): (i) For each non-rolling rate table: the current rate for each rating tier, the proposed rate for each rating tier, and the dollar and percentage change from	

		the current rate to the proposed rate for each rate table, rating tier, and benefit option for each policy form and rider form included in the rate submission. (ii) For each rolling rate table: the current rate for each rating tier, the proposed rate for each rating tier, and the dollar and percentage change for each renewal cohort from the current rate to the proposed rate for each rate table, rating tier, and benefit option for each policy form and rider form included in the rate submission. (Example: the rate submission includes new rate tables for third and fourth quarter 2013 and first and second quarter 2014. Rates are for 12 month periods. Show the rates for the third quarter 2012, the proposed rates for the third quarter 2013, and the dollar and percentage change from third quarter 2012 to the proposed third quarter 2013 rates. Show a similar table for the proposed fourth quarter 2013, and first and second quarter 2014 rates as well.) d. Discuss the standard premium development used in Standard Standard Exhibit 7. See discussion above on Standard Standard Exhibit 7. e. Discuss the source data used to develop the projected incurred claims for the renewal rate applicability period. (i) If the source data is actual claims experience, the experience period is to be at least 12 months long, and the unpaid claim reserve is to be based on at least 3 months of claims run-out beyond the end of the experience period. (ii) If the source data is other than the actual claims experience, indicate the source of this data (e.g., from what publication, prepared by what organization), and the applicability of this source data. (iii) Discuss the credibility of such source data. (iv) Include an Standard Exhibit showing the source data and indicate all adjustments made to this source data to develop the projected incurred claims for the renewal rate applicability period. Provide this detail for each non-rolling rate table included in the rate filing, and/or for the first rate table of each rolling rate structure included in the rate filing (for base medical rate tables and for rider rate tables) for each permitted aggregation of policy forms (i.e., rating pool). Provide justification for each such adjustment. f. Indicate the assumed annualized claim trend projection factors used to project the source data to the renewal rate applicability period (for the non-rolling rate tables and/or the first rate tables of a rolling rate structure) for each product within each permitted policy form aggregation (i.e., rating pool). (i) Indicate the assumed annualized composite trend factors used for each base medical policy form (or permitted aggregation) and separately for the utilization and unit cost components of the composite trend. Indicate the assumed composite annual trend factors used for each rider form (or permitted aggregation) and separately for the utilization and unit cost components of the	

		(ii) Provide justification for the assumed utilization, unit cost and composite annual trend factors. Discuss the impact and provide justification for any case mix change, intensity of service change, population/demographic change, adverse selection, or deductible leveraging component incorporated into the utilization and/or unit cost trend factor components. (iii) Clearly discuss how the annualized trend factors were applied to the source data to develop the projected data for the renewal rate applicability period. g. Provide an actuarial justification of the proposed rate changes for each base medical policy form and each rider form, or permitted aggregation, included in the rate submission. (i) Clearly show how the percentage change from the current rate table was developed, or how the revised premium rate was developed, for the non-rolling rate tables and/or the first rate tables of a rolling rate structure. (Example: for a rolling rate structure, how the percentage change from the existing 2nd quarter 2013 rate table to the proposed 3rd quarter 2013 rate table was developed for each rating element in the proposed rate table.) This demonstration must clearly show how the proposed rate change was developed from the projected source data, current rate level, and expected loss ratio. Provide justification for the percentage change proposed. (ii) For each subsequent rate table of a rolling rate structure, show how the change between each of the successive rate tables was developed (e.g., the change from the 3rd quarter 2013 rate table to the 4th quarter 2013 rate table). Provide justification for these changes between the rolling rate tables. (iii) Clearly show how the proposed rate development, as applicable, reflects recoveries from the standard direct pay and Healthy New York stop loss pools (New York Insurance Law Sections 4321-a, 4322-a, and 4327), and discuss how the recovery amounts used were developed. (iv) Clearly show how the proposed rate development, as applicable, reflects payments to, or receipts from, the Department Regulation 146 (11 NYCRR 361) and New York Insurance Law Section 3233 marketing stabilization pool. Clearly discuss how the corporation has been complying with 11 NYCRR 361 (Regulation 146), Section 361.6(g), and include in the rate application any new plan pursuant to Section 361.6(g)(2)(i). Such discussion should include an Standard Exhibit showing how all monies received from the Regulation 146 pool from calendar years 2007 to date have been used to benefit consumers pursuant to the requirements of Section 361.6(g). (v) Discuss if the source data includes any very large claims on an individual, how such large claims have been handled, and any internal mechanism to pool large claims across more than the rating pool that contained the large claim. Clearly	

		for pooling large claims. h. If the percentage rate change by benefit option differs within a particular policy form (or rider form), include an actuarial demonstration that the rate changes were developed assuming the same insured population selects each of the available benefit options, and that the differences in the percentage rate changes are not due to differences in the age, sex, health status, or industry distributions of the members selecting a particular benefit option. Any assumed variation in utilization by benefit option within a particular policy form (or rider form) must be based solely on the benefit differential, must assume that the same population of insureds selects each benefit option within the policy form, and cannot be based on differences due to age, sex, health status or industry among the members selecting the different benefit options. i. If the percentage rate change by policy form differs within a permitted aggregation of policy forms, include an actuarial demonstration that the rate changes were developed assuming the same insured population selects each of the available benefit options among the aggregated policy forms, and that the differences in the percentage rate changes are not due to differences in the age, sex, health status, or industry distributions of the members selecting a particular benefit option within the aggregated policy forms. Any assumed variation in utilization between policy forms within a permitted aggregation of policy forms must be based solely on the benefit differential, must assume that the same population of insureds selects each benefit option within the permitted aggregation of policy forms, and cannot be based on differences due to age, sex, health status or industry among the members selecting a particular benefit option within the aggregated policy forms. j. If the percentage rate change by rating region differs, the default assumption is that the rating regions are not aggregated for rate setting purposes. In order for a company to claim that certain rating regions are aggregated for rate setting purposes, it is necessary to include an actuarial demonstration that the rate changes were developed assuming the same insured population in each of the aggregated rating regions, and that the differences in the percentage rate changes are not due to differences in the age, sex, health status, or industry distributions of the members in each of the aggregated rating regions. k. Discuss any significant change in the non claim expense components indicated on Standard Standard Exhibit 2 between the prior rate adjustment filing and this rate adjustment filing, including any item where the $pmpm value exceeds $1and where the $pmpm value changed by more than 10% between the prior filing and the current filing. Discuss the source for the non-claim expense components indicated on Standard Standard Exhibit 2 for the current rate filing and, for the percentage of gross premium values, how the proposed rate change was reflected in the	

		percentage of premium should decrease for an expense that is not directly tied to premium). Discuss any revision to the expense allocation basis that has occurred since the last rate adjustment filing.	
Minimum Loss Ratio Requirements	§3231(e)(1)(B) §4308(c)(3) 11NYCRR52.45(i) 11NYCRR59.5(b)	a. The minimum loss ratio for community rated products, other than the official Medicare Supplemental products, is as specified in Section 3231(e)(1)(B) or 4308(c)(3)(A) of the New York Insurance Law, as amended by Chapter 107 of the Laws of 2010. b. The minimum loss ratio for the official Medicare Supplemental products is: (i) Article 43 companies: as specified in Section 4308(c)(3)(B) of the Insurance Law, as amended by Chapter 107 of the Laws of 2010; and (ii) Article 42 companies: as specified in Section 52.45(i) of Regulation 62 (11 NYCRR 52). NOTICES TO POLICYHOLDERS Initial & Final	§3231(e)(1)(A) §4308(c)(2) Circular Letter No. 12 (2011)	a. As indicated in Circular Letter No. 12 (2011), a draft of the initial notice should be submitted for review by the Department prior to the rate adjustment submission. This draft should be submitted via SERFF using the "Prior Approval Prefiling" filing type code. (It is strongly recommended that the company also include a draft of the Narrative Summary in this prefiling submission.) b. Include with the rate adjustment filing a sample copy of the initial written notice sent to policyholders and subscribers/contract holders of the proposed rate adjustment submitted to the Department of Financial Services. (i) Section 3231(e)(1) and Section 4308(c) of the New York Insurance Law require that the initial notice be sent on or before the date the rate application is submitted to the Department. (ii) If different notices are used for different products or different rating regions, submit a sample for each such product and/or each such rating region. c. Include with the rate adjustment filing a sample copy of the final written notice to be sent to policyholders after the proposed rates are finalized.	Initial Notification Letters, Second Notification Letters
HHS PRELIMINARY JUSTIFICATION PARTS I AND II	PPACA §1003	a. For every rate submission pursuant to section 3231(e)(1) or section 4308(c) of the New York Insurance Law, the insurer is to submit Parts I and II of the U.S. Department of Health and Human Services (HHS) Preliminary Justification, whether or not such justification material is required to be submitted to HHS. b. This requirement applies to large group community rated products as well as to small group and individual products, and to non-grandfathered and grandfathered products, but this requirement does not apply to a product type that would never require such justification material to be submitted to HHS (for example: Medicare Supplemental products, stand-alone dental products). c. The justification material is to be prepared using the template and instructions provided by HHS.	2013 HHS Part I, 2013 HHS Part II
PUBLIC DISCLOSURE OF THE RATE APPLICATION		**Posting a Redacted Version of the Rate Adjustment Application to the Department's Website.** a. A redacted version of this rate application will be posted to the Department's website to aid consumers' understanding of the reason(s) for the requested rate change(s). b. The Department will accept redaction of only the following information in the rate application: (i) personally identifiable information, including names and contact information of actuaries or other individuals, including those who work for the health plan, a consulting firm, or the Department, that are contained in the application; and (ii) information that identifies in reasonably precise terms specific provider	Cover Letter REDACTED, Certification REDACTED, Standard Exhibit 1 REDACTED

		reimbursement rates contained in contracts between the health plan and a particular provider or formally affiliated provider group. Information that discloses trend, even specific trend, will *not* qualify for redaction. For example, if an insurer has a single pharmacy benefit manager (PBM), information about generic, brand and specialty drug costs per member will be disclosed. However, information about per unit dispensing fees paid to the PBM, or the level of rebates received, may be redacted. c. In order to expedite the posting of the redacted application to the Department's website, the company is to attach within SERFF as a PDF file the redacted version of each document submitted with the application, including the completed checklist, all of the standard Standard Exhibits, the actuarial memorandum plus any attachments or appendices, the rate manuals and year over year Standard Exhibits, as well as any other documentation submitted. A redacted attachment/file should be clearly labeled as a redacted version. d. The redacted version of the application that will be posted to the Department's website will be constructed by the Department and will not be submitted to the insurer for prior review. *Where a document is attached to SERFF without a clearly labeled redacted version in PDF format, it will be assumed that no redactions are requested and the unredacted version of the document will be posted to the website as filed.*

Notice of Premium Rate Adjustment Filing
THIS IS NOT A BILL

Dear _____:

Thank you for choosing UnitedHealthcare to serve your health benefit plan needs.

In New York, proposed premium rates for small group plans are filed with the New York State Department of Financial Services (DFS) annually.[1] Our annual proposed premium rate adjustment filings are typically filed in June for the next year's renewal rates.

We're writing to let you know that UnitedHealthcare Insurance Company of New York is filing a premium rate adjustment request for the UnitedHealthcare small group EPO product on June 15, 2012. We are sending this notice to you and your group's employees to inform you of our rate adjustment request and give you the opportunity to provide comments to DFS or ask us or DFS for additional information. Requests for information and comments must be submitted within 30 days from the date of our rate filing.

What we are requesting

The chart below shows the percentage increases we are requesting for medical and pharmacy premiums.

Renewal Date	Estimated Increase Over 2012 Medical Premium (%)	Estimated Increase Over 2012 Pharmacy Premium (%)	Estimated Increase Over 2012 Total Premium (Medical and Pharmacy) (%)
1/1/2013 – 3/31/2013	22.4%	22.4%	22.4%

What you need to know

An approved rate change will affect 2013 renewal rates. ***You do not need to take any action or change your payments at this time.***

You will receive a second notice about your 2013 renewal rates after the Superintendent of Financial Services makes a decision on our rate adjustment request. The second notice will be sent at least 60 days before the rate change effective date and may be included in your renewal package (rather than a separate letter).

[1] In rare instances, rate applications may be submitted more than once a year.

Please be aware that your group's final renewal rate increase for 2013 *may be different* than the percentages listed above. The Superintendent of Financial Services may approve (as requested), modify or deny the proposed rate adjustment. Your final rate will be based on 1) the rates approved by DFS, 2) adjustments to the rate (increases or decreases) due to benefit changes, 3) plan design changes you make at renewal and 4) your group's census at renewal.[2]

Where to find more information or make a comment

Rising medical expenses are the main reason for the requested increase. A number of factors contribute to these rising costs, including increases in the cost of medical services, increases in the amount of services used, and changes to the population enrolled in the product. We have prepared a narrative summary that provides a more detailed explanation of the reasons why we are seeking a premium rate adjustment. This summary will be posted both on our website and DFS's website for at least 30 days from the date of our rate filing. Our rate application will be posted on DFS's website and additional information will be available on companyprofiles.healthcare.gov.

You may contact us or DFS to request additional information or submit written comments to DFS. Requests for information and comments must be made **within 30 days from the date of our rate filing. This time period starts on June 15 and ends on July 15, 2012.** If you are making comments, you must note that your inquiry is regarding UnitedHealthcare Insurance Company of New York and the UnitedHealthcare small group EPO product. DFS will post your written comments on its website with personal identifying information removed.

Requests for information or comments to DFS must be submitted to:

Health Bureau – Premium Rate Adjustments

Thank you for your business. We look forward to continuing our service to you.

Sincerely,

Howard C. Margolies
Vice President Small Business, New York

[2] In addition to the premium rate adjustment filing, we separately submitted benefit change filings associated with state mandated autism coverage and federally mandated changes to women's preventive coverage. Until these filings are approved we will not know the rate impact but the requested rate impact is approximately 1.8 %. The rates ultimately approved by DFS for these benefits will impact your final rate. In the event that other benefit changes (e.g., benefit mandate) are made prior to your renewal, those changes may impact your final premium rate as well.

You will receive a second notice about your 2013 renewal rates after the Superintendent of Financial Services makes a decision on our rate adjustment request. The second notice will be sent at least 60 days before the rate change effective date and may be included in your renewal package (rather than a separate letter).

[1] In rare instances, rate applications may be submitted more than once a year.

Please be aware that your group's final renewal rate increase for 2013 *may be different* than the percentages listed above. The Superintendent of Financial Services may approve (as requested), modify or deny the proposed rate adjustment. Your final rate will be based on 1) the rates approved by DFS, 2) adjustments to the rate (increases or decreases) due to benefit changes, 3) plan design changes you make at renewal and 4) your group's census at renewal.[2]

Where to find more information or make a comment

Rising medical expenses are the main reason for the requested increase. A number of factors contribute to these rising costs, including increases in the cost of medical services, increases in the amount of services used, and changes to the population enrolled in the product. We have prepared a narrative summary that provides a more detailed explanation of the reasons why we are seeking a premium rate adjustment. This summary will be posted both on our website and DFS's website for at least 30 days from the date of our rate filing. Our rate application will be posted on DFS's website and additional information will be available on companyprofiles.healthcare.gov.

You may contact us or DFS to request additional information or submit written comments to DFS. Requests for information and comments must be made **within 30 days from the date of our rate filing. This time period starts on June 15 and ends on July 15, 2012.** If you are making comments, you must note that your inquiry is regarding UnitedHealthcare Insurance Company of New York and the UnitedHealthcare small group EPO product. DFS will post your written comments on its website with personal identifying information removed.

[2] In addition to the premium rate adjustment filing, we separately submitted benefit change filings associated with state mandated autism coverage and federally mandated changes to women's preventive coverage. Until these filings are approved we will not know the rate impact but the requested rate impact is approximately 1.8 %. The rates ultimately approved by DFS for these benefits will impact your final rate. In the event that other benefit changes (e.g., benefit mandate) are made prior to your renewal, those changes may impact your final premium rate as well.

Notice of Premium Rate Adjustment Filing
THIS IS NOT A BILL

Dear _____:

Thank you for choosing UnitedHealthcare to serve your health benefit plan needs.

In New York, proposed premium rates for small group plans are filed with the New York State Department of Financial Services (DFS) annually.[1] Our annual proposed premium rate adjustment filings are typically filed in June for the next year's renewal rates.

We're writing to let you know that UnitedHealthcare Insurance Company of New York is filing a premium rate adjustment request for the UnitedHealthcare small group EPO product on June 15, 2012. We are sending this notice to you and your group's employees to inform you of our rate adjustment request and give you the opportunity to provide comments to DFS or ask us or DFS for additional information. Requests for information and comments must be submitted within 30 days from the date of our rate filing.

What we are requesting

The chart below shows the percentage increases we are requesting for medical and pharmacy premiums.

Renewal Date	Estimated Increase Over 2012 Medical Premium (%)	Estimated Increase Over 2012 Pharmacy Premium (%)	Estimated Increase Over 2012 Total Premium (Medical and Pharmacy) (%)
10/1/2013 – 12/31/2013	25.4%	25.4%	25.4%

What you need to know

An approved rate change will affect 2013 renewal rates. ***You do not need to take any action or change your payments at this time.***

You will receive a second notice about your 2013 renewal rates after the Superintendent of Financial Services makes a decision on our rate adjustment request. The second notice will be sent at least 60 days before the rate change effective date and may be included in your renewal package (rather than a separate letter).

[1] In rare instances, rate applications may be submitted more than once a year.

Please be aware that your group's final renewal rate increase for 2013 *may be different* than the percentages listed above. The Superintendent of Financial Services may approve (as requested), modify or deny the proposed rate adjustment. Your final rate will be based on 1) the rates approved by DFS, 2) adjustments to the rate (increases or decreases) due to benefit changes, 3) plan design changes you make at renewal and 4) your group's census at renewal.[2]

4/1/2013 – 6/30/2013	23.4%	23.4%	23.4%

What you need to know

An approved rate change will affect 2013 renewal rates. ***Your group does not need to take any action or change payments at this time.***

You will receive a second notice about your 2013 renewal rates after the Superintendent of Financial Services makes a decision on our rate adjustment request. The second notice will be sent at least 60 days before the rate change effective date.

[1] In rare instances, rate applications may be submitted more than once a year.

Please be aware that your group's final renewal rate increase for 2013 *may be different* than the percentages listed above. The Superintendent of Financial Services may approve (as requested), modify or deny the proposed rate adjustment. The group's final rate will be based on 1) the rates approved by DFS, 2) adjustments to the rate (increases or decreases) due to benefit changes, 3) the plan design chosen by the group and 4) the group's census at renewal.[2]

Where to find more information or make a comment

Rising medical expenses are the main reason for the requested increase. A number of factors contribute to these rising costs, including increases in the cost of medical services, increases in the amount of services used, and changes to the population enrolled in the product. We have prepared a narrative summary that provides a more detailed explanation of the reasons why we are seeking a premium rate adjustment. This summary will be posted both on our website and DFS's website for at least 30 days from the date of our rate filing. Our rate application will be posted on DFS's website and additional information will be available on companyprofiles.healthcare.gov.

You may contact us or DFS to request additional information or submit written comments to DFS. Requests for information and comments must be made **within 30 days from the date of our rate filing. This time period starts on June 15 and ends on July 15, 2012.** If you are making comments, you must note that your inquiry is regarding UnitedHealthcare Insurance Company of New York and the UnitedHealthcare small group EPO product. DFS will post your written comments on its website with personal identifying information removed.

[2] In addition to the premium rate adjustment filing, we separately submitted benefit change filings associated with state mandated autism coverage and federally mandated changes to women's preventive coverage. Until these filings are approved we will not know the rate impact but the requested rate impact is approximately 1.8 %. The rates ultimately approved by DFS for these benefits will impact your final rate. Notice of Premium Rate Adjustment Filing
THIS IS NOT A BILL

Dear _____:

Thank you for allowing UnitedHealthcare to serve your health benefit plan needs.

In New York, proposed premium rates for small group plans are filed with the New York State Department of Financial Services (DFS) annually.[1] Our annual proposed premium rate adjustment filings are typically filed in June for the next year's renewal rates.

We're writing to let you know that UnitedHealthcare Insurance Company of New York is filing a premium rate adjustment request for the UnitedHealthcare small group EPO product on June 15, 2012. We are sending this notice to you (and your group) to inform you of our rate adjustment request and give you the opportunity to provide comments to DFS or ask us or DFS for additional information. Requests for information and comments must be submitted within 30 days from the date of our rate filing.

What we are requesting

The chart below shows the percentage increases we are requesting for medical and pharmacy premiums.

Renewal Date	Estimated Increase Over 2012 Medical Premium (%)	Estimated Increase Over 2012 Pharmacy Premium (%)	Estimated Increase Over 2012 Total Premium (Medical and Pharmacy) (%)
7/1/2013 – 9/30/2013	24.4%	24.4%	24.4%

What you need to know

An approved rate change will affect 2013 renewal rates. ***Your group does not need to take any action or change payments at this time.***

Notes:

(1) It is recommended that a rate filing application subject to §3231(e)(1) or §4308(c) of the New York Insurance Law be submitted at least 150 days before the proposed effective date.
It is recommended that a rate adjustment application not be submitted more than 180 days prior to the proposed effective date.
It is recommended that a rate adjustment application not be submitted less than 125 days prior to the proposed effective date since there is a high probability that a decision on such a filing will not occur in time for the company to send the required final notice to the first renewal cohort affected by the rate adjustment filing.

(2) A rate adjustment filing submitted pursuant to §3231(e)(1) or §4308(c) of the New York Insurance Law should **not** include any revision to existing contract language or include new contract language. Any rate filing in connection with a form filing, a new form or a revision to an existing form, must be a separate filing from the rate adjustment filing.

Use the following SERFF filing types for rate adjustment filings:

* For a rate adjustment filing pursuant to §3231(e)(1): Rate Adjustment pursuant to §3231(e)(1)
* For a rate adjustment filing pursuant to §4308(c): Rate Adjustment pursuant to §4308(c)
* For all other prior approval filings: Normal Pre-Approval

(3) §3231(e)(1) and §4308(c) of the New York Insurance Law require that the initial notice to policyholders/subscribers/contract holders be sent on or before the date the rate adjustment application is submitted to the Insurance Department.

EXHIBIT 2: SUMMARY OF AVERAGE CLAIM TREND AND ADMINISTRATIVE EXPENSES INCLUDED IN CURRENT AND PRIOR RATE ADJUSTMENT FILINGS

Company Name: UnitedHealthcare Insurance Company of New York
NAIC Code: 60093
SERFF Number: UHLC-128372379

A. Complete a separate ROW for each market segment/rating pool combination included in the current rate adjustment filing:
- Information should be for medical base plans and associated riders combined.
- Indicate the market segment the rating pool belongs to by using the drop down list. Market segment refers to Individual (IND), Small Group (SG), Sole Proprietor (SP), Large Group (LG), Individual Healthy NY (HNY-IND), Small Group Healthy NY (HNY-SG), Individual Medicare Supplement (MS-IND), Small Group Medicare Supplement (MS-SG), and Large Group Medicare Supplement (MS-LG). If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor (SP) is to be reported; otherwise, use small group.
- Enter a description of the rating pool within the indicated market segment. If the rating pools vary by rating region, the rating pool description should include a region identifier (eg., SG HMO Downstate, SG HMO Upstate).
- Use a separate row for each market segment/rating pool combination included in the current rate adjustment filing.
- Append additional rows to the end of the existing rows as needed. Only use the first tab for data entry.

B. The average claim trend is the average annualized claim trend for that market segment/rating pool used in the applicable rate adjustment filing to project the source data forward to the applicable rating period (eg 10.0%).

C. Enter the required information for the new rate period included in this rate adjustment filing. This refers to the various expense components included in the proposed rates and the average annual claim trend assumed.

D. Enter the corresponding information requested for the immediately prior rate adjustment filing. This refers to the various expense components included in the proposed rates submitted with the immediately prior rate adjustment filing and the average claim trend assumed. If there is no immediately prior rate adjustment filing, enter the data from the initial form and rate filing.

E. This form must be submitted as an Excel file and as a PDF file.

Narrative Summary of Requested Rate Changes – Effective 1st quarter 2013

We have prepared this Narrative Summary as further explanation of the letter you recently received from us outlining our annual proposed premium rate adjustment filing(s) with the New York State Department of Financial Services (DFS). This Narrative Summary will remain posted here, on our website, for a minimum of 30 calendar days from the date of our letter to you, our policyholder or subscriber. Please review this information carefully and contact us or DFS, as indicated in our letter, with questions within 30 days.

Rate Component Overview

The main components of an insurer's annual premium are the medical costs and administrative expenses we incur for providing health care benefits coverage. A small percentage of the premium is also projected to be profit, which helps us to sustain and grow our business. Medical costs are the main portion of the premium and are accounted for in the minimum loss ratio (MLR)—the percentage of the premiums paid toward medical costs. Under New York state law, the MLR must be at least 82% of the premium charged for the product during the calendar year. This means that at least 82 cents of each premium dollar is to be paid toward medical costs.

Medical costs include items that are typically thought of as medical costs, such as physician office visits, inpatient and outpatient care, covered prescription drugs and new mandated benefits. Medical costs also include taxes and assessments associated with medical services. These items are sometimes referred to as "HCRA" or "GME." HCRA stands for the Health Care Reform Act and is a surcharge on hospital-related services. GME stands for Graduate Medical Expense and is also known as the "covered lives assessment." This is an annual surcharge/tax on every person who has insurance coverage in the state. Certain administrative expenses are reclassified as medical costs when calculating the MLR. Such costs include activities that improve health care; for example, wellness programs.

Some of the key administrative expenses are:

- Taxes and fees not associated with medical costs such as the Section 332 assessment and premium tax;
- maintenance and upgrading of systems to comply with legal requirements (e.g., HIPAA, federal health care reform mandates);
- costs for consumer education and decision support tools/processes, promotion of wellness, programs for managing chronic and complex medical conditions, maintaining the provider network as well as measuring quality and efficiency of providers, and operating costs of consumer, employer, broker and provider web portals; and
- employee costs for items such as processing requests for services, claims, correspondence and appeals, conducting medical reviews, and providing customer service.

Additionally, there are fees and assessments associated with the Patient Protection and Affordable Care Act (PPACA). These include the Insurer's Fee and Reinsurance Assessment. The Insurer's Fee is a permanent fee that applies to fully insured coverage. The Reinsurance Assessment is a temporary fee that applies to all commercial groups (both fully insured and self-funded) from 2014 to 2016.

Current Rate Increase Components

When deciding whether to seek a premium increase or decrease, we review claims data and expenses to determine what the expected costs and expenses will be for a future period.

Following this review process, we are requesting premium increases related to medical cost trends for the health benefits products that appear in Chart 1. If approved, the increases will be added to the 2012 premium. Chart 1 shows the requested increases by product. The new premiums will apply to all groups that renew or enroll during the first quarter of 2013. Below Chart 1 is an overview of the reasons for the increase.

CHART 1: Impact of Premium Request

Product	Renewal Date	Number of Impacted Subscribers	Requested Estimated Medical Increase Over 2012 Medical Premium (%)	Requested Estimated Pharmacy Increase Over 2012 Pharmacy Premium (%)	Estimated Total Trend Increase (Medical and Pharmacy) Over 2012 Premium (%)
EPO	January 2013 - March 2013	718	22.4%	22.4%	22.4%
POS	January 2013 - March 2013	591	22.4%	22.4%	22.4%

- The rate filing we have made is seeking an increase mainly related to rising medical costs. As previously mentioned, medical costs are the single largest component of the premium dollar and a component that has been rising significantly year over year. There are many different medical, or health care, cost trends that contribute to increases in the overall U.S. health care spending each year. These trend factors affect health insurance premiums, which will mean a premium increase to cover costs. Some of the key health care cost trends that have affected this year's rate actions include:

    - **Increasing Cost of Medical Services** – Annual increases in reimbursement rates to health care providers, such as hospitals, doctors and pharmaceutical companies. We estimate that this component increases costs by approximately 5.7% per year.
    - **Increased Utilization** – The number of office visits and other services continues to grow. We estimate that this component increases costs by approximately 4.9% per year.
    - **Higher Costs from Deductible Leveraging** – Health care costs continue to rise every year, while the pricing for the products is based on deductibles and copayments that generally remain the same. As a result, when groups continue with the same member cost shares, a greater percentage of health care costs need to be covered by health insurance premiums each year. We estimate that this component increases costs by approximately 1.2% per year.
    - **Cost shifting from the public to the private sector** – Reimbursements from the Center for Medicare and Medicaid Services (CMS) to hospitals is no longer covering all the cost of care. The cost difference is being shifted to private health plans. Additionally, Medicare and Medicaid rates to hospitals are expected to decline due to the impact of PPACA on

We reserve the right to correct typographical errors.

Medicare and the affect of the recession on Medicaid. A rate increase paid by Medicaid to hospitals is often below the actual cost increase hospitals will experience. The cost impact for this component is included in the estimate for increasing cost of medical services shown above.

- **Impact of New Technology** - Improvements to medical technology and clinical practice require use of more expensive services, leading to increased health care spending and utilization. The cost impact for this component is included in the estimates for increasing cost of medical services and increased utilization shown above.

- The medical cost component may also be impacted by changes to the population covered under the product.
  - **Regulation 146 -** A part of the medical costs include a pooling technique established under New York Insurance Regulation 146, which attempts to equalize risk within the New York small group and individual markets. This requires carriers with fewer high-cost claimants to pay into the pool, while carriers with more high-cost claimants receive funds from the pool. We are projecting no change in our Regulation 146 amount for UnitedHealthcare Insurance Company of New York's small group products in 2013.
- As noted above, there are also fees and assessment related to PPACA. These amounts apply to all business starting January 1, 2014. The requested premium increases for 2013 include portions of these full amounts depending upon the number of contract months extending into 2014. These fees and assessments account for 0.3% of the overall requested rate increase.
- The table below summarizes the drivers of the requested rate increase.

CHART 2: Drivers of Requested Rate Increase

Type of Cost:	Percentage Assumed in Current (2012) Rate	Per Member Per Month Increase	Portion of Increase	Percentage Assumed in Renewal (2013) Rate
Medical Services* - Cost of providing healthcare services to policyholders	93.2%	$ 36.63	41.8%	83.8%
Administrative Expenses - Marketing, claims processing, taxes, assessments, and other costs to the company	12.4%	$ 14.40	16.4%	13.1%
Pre-Tax Underwriting Gain/Loss - Amount the company keeps after paying claims and administrative expenses**	-5.6%	$ 36.61	41.8%	3.1%
Total	100.0%	$87.64	100.0%	100.0%

* 43.6% of the Medical Services cost increases are due to how many people use the services and how often they use them and 56.4% is due to the cost per service (unit cost).

** The driver of the change in Pre-Tax Underwriting Gain/Loss of the requested rate increase is a result of the modifications made by DFS to our requested rates for effective dates in 2012 (current rates). As shown in Chart 2 (above), the rates for 2012 effective dates result in a policy period loss based upon our cost projections.

We reserve the right to correct typographical errors.

Additional Benefit Changes for 2013 Plans

We have also submitted benefit change filings to the New York State DFS associated with state mandated autism coverage and federal reform changes to women's preventive coverage. Premium increases approved by DFS for these items will impact your final premium, in addition to the requested premium increases listed in Chart 1. In the event that additional benefit changes (e.g., benefit mandate or change) are made to our EPO and POS products prior to your 2013 renewal, those changes may also impact your final premium.

Final Rate Increase

Please be aware that your group's final renewal premium increase for 2013 may be different than the percentages listed in Chart 1. The Superintendent of Financial Services may approve (as requested), modify or deny the proposed rate adjustment. Your final premium will account for the rate adjustment approved by the New York State DFS, as well as any changes resulting from the benefit plan design chosen and your group's census upon renewal. If you are a subscriber of a group plan, please contact your employer for information about how this information affects your premium contribution.

Additional Benefit Changes for 2013 Plans

We have also submitted benefit change filings to the New York State DFS associated with state mandated autism coverage and federal reform changes to women's preventive coverage. Premium increases approved by DFS for these items will impact your final premium, in addition to the requested premium increases listed in Chart 1. In the event that additional benefit changes (e.g., benefit mandate or change) are made to our EPO and POS products prior to your 2013 renewal, those changes may also impact your final premium.

Final Rate Increase

Please be aware that your group's final renewal premium increase for 2013 may be different than the percentages listed in Chart 1. The Superintendent of Financial Services may approve (as requested), modify or deny the proposed rate adjustment. Your final premium will account for the rate adjustment approved by the New York State DFS, as well as any changes resulting from the benefit plan design chosen and your group's census upon renewal. The main components of an insurer's annual premium are the medical costs and administrative expenses we incur for providing health care benefits coverage. A small percentage of the premium is also projected to be profit, which helps us to sustain and grow our business. Medical costs are the main portion of the premium and are accounted for in the minimum loss ratio (MLR)—the percentage of the premiums paid toward medical costs. Under New York state law, the MLR must be at least 82% of the premium charged for the product during the calendar year. This means that at least 82 cents of each premium dollar is to be paid toward medical costs.

Medical costs include items that are typically thought of as medical costs, such as physician office visits, inpatient and outpatient care, covered prescription drugs and new mandated benefits. Medical costs also include taxes and assessments associated with medical services. These items are sometimes referred to as "HCRA" or "GME." HCRA stands for the Health Care Reform Act and is a surcharge on hospital-related services. GME stands for Graduate Medical Expense and is also known as the "covered lives assessment." This is an annual surcharge/tax on every person who has insurance coverage in the state. Certain administrative expenses are reclassified as medical costs when calculating the MLR. Such costs include activities that improve health care; for example, wellness programs.

Some of the key administrative expenses are:

- Taxes and fees not associated with medical costs such as the Section 332 assessment and premium tax;
- maintenance and upgrading of systems to comply with legal requirements (e.g., HIPAA, federal health care reform mandates);
- costs for consumer education and decision support tools/processes, promotion of wellness, programs for managing chronic and complex medical conditions, maintaining the provider network as well as measuring quality and efficiency of providers, and operating costs of consumer, employer, broker and provider web portals; and
- employee costs for items such as processing requests for services, claims, correspondence and appeals, conducting medical reviews, and providing customer service.

Additionally, there are fees and assessments associated with the Patient Protection and Affordable Care Act (PPACA). These include the Insurer's Fee and Reinsurance Assessment. The Insurer's Fee is a permanent fee that applies to fully insured coverage. The Reinsurance Assessment is a temporary fee that applies to all commercial groups (both fully insured and self-funded) from 2014 to 2016.

Current Rate Increase Components

When deciding whether to seek a premium increase or decrease, we review claims data and expenses to determine what the expected costs and expenses will be for a future period.

Following this review process, we are requesting premium increases related to medical cost trends for the health benefits products that appear in Chart 1. If approved, the increases will be added to the 2012 premium. Chart 1 shows the requested increases by product. The new premiums will apply to all groups that renew or enroll during the fourth quarter of 2013. Below Chart 1 is an overview of the reasons for the increase.

CHART 1: Impact of Premium Request

Product	Renewal Date	Number of Impacted Subscribers	Requested Estimated Medical Increase Over 2012 Medical Premium (%)	Requested Estimated Pharmacy Increase Over 2012 Pharmacy Premium (%)	Estimated Total Trend Increase (Medical and Pharmacy) Over 2012 Premium (%)
EPO	October 2013 – December 2013	83	25.4%	25.4%	25.4%
POS	October 2013 – December 2013	132	25.4%	25.4%	25.4%

- The rate filing we have made is seeking an increase mainly related to rising medical costs. As previously mentioned, medical costs are the single largest component of the premium dollar and a component that has been rising significantly year over year. There are many different medical, or health care, cost trends that contribute to increases in the overall U.S. health care spending each year. These trend factors affect health insurance premiums, which will mean a premium increase to cover costs. Some of the key health care cost trends that have affected this year's rate actions include:

    - **Increasing Cost of Medical Services** – Annual increases in reimbursement rates to health care providers, such as hospitals, doctors and pharmaceutical companies. We estimate that this component increases costs by approximately 5.7% per year.
    - **Increased Utilization** – The number of office visits and other services continues to grow. We estimate that this component increases costs by approximately 4.9% per year.
    - **Higher Costs from Deductible Leveraging** – Health care costs continue to rise every year, while the pricing for the products is based on deductibles and copayments that generally remain the same. As a result, when groups continue with the same member cost shares, a greater percentage of health care costs need to be covered by health insurance premiums each year. We estimate that this component increases costs by approximately 1.2% per year.
    - **Cost shifting from the public to the private sector** – Reimbursements from the Center for Medicare and Medicaid Services (CMS) to hospitals is no longer covering all the cost of care. The cost difference is being shifted to private health

plans. Additionally, Medicare and Medicaid rates to hospitals are expected to decline due to the impact of PPACA on Medicare and the affect of the recession on Medicaid. A rate increase paid by Medicaid to hospitals is often below the actual cost increase hospitals will experience. The cost impact for this component is included in the estimate for increasing cost of medical services shown above.

- **Impact of New Technology** - Improvements to medical technology and clinical practice require use of more expensive services, leading to increased health care spending and utilization. The cost impact for this component is included in the estimates for increasing cost of medical services and increased utilization shown above.

- The medical cost component may also be impacted by changes to the population covered under the product.
  - **Regulation 146 -** A part of the medical costs include a pooling technique established under New York Insurance Regulation 146, which attempts to equalize risk within the New York small group and individual markets. This requires carriers with fewer high-cost claimants to pay into the pool, while carriers with more high-cost claimants receive funds from the pool. We are projecting no change in our Regulation 146 amount for UnitedHealthcare Insurance Company of New York's small group products in 2013.
- As noted above, there are also fees and assessment related to PPACA. These amounts apply to all business starting January 1, 2014. The requested premium increases for 2013 include portions of these full amounts depending upon the number of contract months extending into 2014. These fees and assessments account for 3.0% of the overall requested rate increase.
- The table below summarizes the drivers of the requested rate increase.

We reserve the right to correct typographical errors.

CHART 2: Drivers of Requested Rate Increase

Type of Cost:	Percentage Assumed in Current (2012) Rate	Per Member Per Month Increase	Portion of Increase	Percentage Assumed in Renewal (2013) Rate
Medical Services* - Cost of providing healthcare services to policyholders	93.2%	$ 38.76	35.8%	81.6%
Administrative Expenses - Marketing, claims processing, taxes, assessments, and other costs to the company	12.4%	$ 29.97	27.7%	15.5%
Pre-Tax Underwriting Gain/Loss - Amount the company keeps after paying claims and administrative expenses**	-5.6%	$ 39.55	36.5%	2.9%
Total	100.0%	$108.27	100.0%	100.0%

* 43.6% of the Medical Services cost increases are due to how many people use the services and how often they use them and 56.4% is due to the cost per service (unit cost).

** The driver of the change in Pre-Tax Underwriting Gain/Loss of the requested rate increase is a result of the modifications made by DFS to our requested rates for effective dates in 2012 (current rates). As shown in Chart 2 (above), the rates for 2012 effective dates result in a policy period loss based upon our cost projections.

We reserve the right to correct typographical errors.

Additional Benefit Changes for 2013 Plans

We have also submitted benefit change filings to the New York State DFS associated with state mandated autism coverage and federal reform changes to women's preventive coverage. Premium increases approved by DFS for these items will impact your final premium, in addition to the requested premium increases listed in Chart 1. In the event that additional benefit changes (e.g., benefit mandate or change) are made to our EPO and POS products prior to your 2013 renewal, those changes may also impact your final premium.

Final Rate Increase

Please be aware that your group's final renewal premium increase for 2013 may be different than the percentages listed in Chart 1. The Superintendent of Financial Services may approve (as requested), modify or deny the proposed rate adjustment. Your final premium will account for the rate adjustment approved by the New York State DFS, as well as any changes resulting from the benefit plan design chosen and your group's census upon renewal. If you are a subscriber of a group plan, please contact your employer for information about how this information affects your premium contribution.

EXHIBIT 3: NARRATIVE SUMMARY

Company Name: UnitedHealthcare Insurance Company of New York
NAIC Code: 60093
SERFF Tracking #: UHLC-128372379

Submit a Narrative Summary explaining the reason(s) for the proposed rate adjustment. The purpose of this Narrative Summary is to provide a written explanation to the company's policyholders to help them to understand the reason(s) why a rate increase is needed.

- The Narrative Summary will be a public document and will be posted on the Department's website and furnished by the Department to the public upon request.
- It is strongly encouraged that the company submit the Narrative Summary to the Department ten (10) days before submitting a rate adjustment application. It is recommended that the company include a draft of the narrative summary with a draft of the initial notice in a "Prior Approval Prefiling" submitted to the Department through SERFF.
- It is suggested that once reviewed by the Department, the company post the Narrative Summary to a location on its website that is publicly available, that is, a location that can be viewed without the need for a user ID and password. Links should be provided on key pages of the company's website so that the information may be easily located.

  Any change(s) made to the Narrative Summary subsequent to the posting is to be submitted to the Department with the specific change(s) identified.
- The Narrative Summary should include, but not be limited to, the following information:
  1) The name of the company submitting the rate adjustment request.
  2) A summary of the proposed rate adjustments.
  3) A description of which policyholders are affected by this rate adjustment application. The rate adjustment may only affect certain policyholders in a market segment (e.g., Small Group), or with certain products (indicate the "street name" of the products affected), or only a certain renewal cohort (e.g., policyholders renewing mm/dd/yyyy – mm/dd/yyyy).
  4) The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).
  5) The effective date of the proposed rate adjustments and an indication of when the rate change would affect policyholders.
     For example:
     (a) For a non-guaranteed rate structure: All policyholders will receive the rate adjustment on mm/dd/yyyy.
     (b) For a rate structure with a 12 month rate guarantee: A policyholder will receive the rate adjustment on the policyholder's next anniversary on or after mm/dd/yyyy.
  6) The number of policyholders/members affected by the proposed rate adjustment(s); aggregated across all market segments and products affected by the rate adjustments submission.
  7) An explanation, in plain-language, as to why it is necessary to request such rate changes. As appropriate, a separate explanation should be provided for each market segment. Where the rate increases are not the same for each product type within a market segment, the company should provide a separate explanation for each such product type.
- Each page of the Narrative Summary should be numbered (i.e., [page] of [pages]).

EXHIBIT 4 - PART A: SUMMARY OF PROPOSED PERCENTAGE RATE CHANGE TO EXISTING RATE

-- for Base Medical Plan with NON ROLLING Rate Structure

UnitedHealthcare Insurance Company of New York	60093	UHLC-128372379
Company submitting the rate adjustment request	**Company NAIC Code**	**SERFF tracking number**

=> Use this Exhibit for the base medical plan type policy forms/products with NON ROLLING rate structure that are included in the rate adjustment submission.

=> This form must be submitted as an Excel file and as a PDF file.

=> The format of this exhibit is discussed below. Add more rows as needed. Only use the first tab for data entry.

=> Market segment refers to Individual (IND), Small Group (SG), Sole Proprietor (SP), Large Group (LG), Individual Healthy NY (HNY-IND), Small Group Healthy NY (HNY-SG), Individual Medicare Supplement (MS-INS), Small Group Medicare Supplement (MS-SG), and Large Group Medicare Supplement (MS-LG). If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor (SP) is to be reported; otherwise, use small group. Use the drop down list to enter the market segment.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name. If one policy form is used for more than one product, then a separate row should be entered for each policy form/product name/product street name combination.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.
- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

EXHIBIT 5 - PART A: DISTRIBUTION OF CONTRACTS AFFECTED BY PROPOSED RATE ADJUSTMENTS for NON ROLLING Rate Structured Products

Company Name: UnitedHealthcare Insurance Company of New York
NAIC Code: 60093
SERFF Tracking #: UHLC-128372379

Instructions:

1) The percentage rate change reflects the impact of all riders that apply to the contracts. The percentage rate change reflects the expected change in premium that would apply to the contract holder on that contract holder's next rate change date.
2) The distribution is by number of members or number of contracts . The Company should fill in the appropriate column below (members or contracts) and replace the mm/dd/yy placeholder with the applicable as of date.
3) The Weighted Average Percentage should be developed based on the distribution of contracts or members for that market segment/product and for the market segment in total.
4) Market segment refers to Individual (IND), Small Group (SG), Sole Proprietor (SP), Large Group (LG), Individual Healthy NY (HNY-IND), Small Group Healthy NY (HNY-SG), Individual Medicare Supplement (MS-INS), Small Group Medicare Supplement (MS-SG), and Large Group Medicare Supplement (MS-LG). If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor (SP) is to be reported; otherwise, use small group. Use the drop down list to enter the market segment.
5) Under each market segment, the table should provide the distribution by broad product type (e.g., HMO, POS, EPO, PPO, Indemnity, High Deductible/Consumer Driven, Medicare Supplement, etc.).
6) Provide the distribution of contracts or members affected by proposed rate change for all non-rolling rate contracts by effective date/market segment/product.
7) Edit the worksheet to add more rows as needed. Only use the first tab for data entry.
8) After each market segment there should be a market segment total row. Enter Total in the "Product" column, the sum of the counts in the various columns, and the market segment weighted avg %.
9) This exhibit must be submitted as an Excel file and a PDF file.

EXHIBIT 7: HISTORICAL DATA BY EACH POLICY FORM INCLUDED IN RATE ADJUSTMENT FILING

Company Name: UnitedHealthcare Insurance Company of New York
NAIC Code: 60093
SERFF Number: UHLC-128372379

A. Complete a separate ROW for each base medical policy form included in the rate adjustment filing, even if no rate adjustment is proposed for that base medical policy form.
- Information requested applies to New York State business only.
- Include riders that may be available with that policy form in each policy form response.
- Insert additional rows as needed to include all base medical policy forms included in a particular rating pool.
- Add a row with the aggregate values for that entire rating pool and enter an appropriate identifier in column 1a. Skip a row between the different rating pools.

B. In Column 2 enter a Rating Pool Identifier for the rating pool the policy form belongs to, such as SG HMO, or SG HMO Upstate if rating pools vary by rating region.

C. Market segment refers to Individual (IND), Small Group (SG), Sole Proprietor (SP), Large Group (LG), Individual Healthy NY (HNY-IND), Small Group Healthy NY (HNY-SG), Individual Medicare Supplement (MS-IND), Small Group Medicare Supplement (MS-SG), and Large Group Medicare Supplement (MS-LG). If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor (SP) is to be reported; otherwise, use small group. Use the drop down list to enter the market segment.

D. Product type is HMO, HMO based POS, POS-OON, EPO, PPO, Comprehensive Major Medical, Non-HMO based POS, Consumer Health Plans, Hospital Only, Medical Only, Base+Supplemental, Supplementary Major Medical, Other Limited Benefit, Medicare Supplement (A, B, C, D, E, F Basic, F High, G, H, I, J Basic, J High, K, L, M, N, or Other - indicate appropriate designation for policy form), etc.

E. The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department). Include a region identifier in this column if needed.

F. Note that many cells include a drop down list. Use the drop down list for entries.

G. If members, covered lives or member months are not known, use reasonable estimates (note methodology used in the actuarial memorandum).

H. This form must be submitted as an Excel file and as a PDF file. Only use the first tab for data entry.

EXHIBIT 7: HISTORICAL DATA BY EACH POLICY FORM INCLUDED IN RATE ADJUSTMENT FILING

Company Name: UnitedHealthcare Insurance Company of New York
NAIC Code: 60093
SERFF Number: UHLC-128372379

A. Complete a separate ROW for each base medical policy form included in the rate adjustment filing, even if no rate adjustment is proposed for that base medical policy form.
- Information requested applies to New York State business only.
- Include riders that may be available with that policy form in each policy form response.
- Insert additional rows as needed to include all base medical policy forms included in a particular rating pool.
- Add a row with the aggregate values for that entire rating pool and enter an appropriate identifier in column 1a. Skip a row between the different rating pools.

B. In Column 2 enter a Rating Pool Identifier for the rating pool the policy form belongs to, such as SG HMO, or SG HMO Upstate if rating pools vary by rating region.

C. Market segment refers to Individual (IND), Small Group (SG), Sole Proprietor (SP), Large Group (LG), Individual Healthy NY (HNY-IND), Small Group Healthy NY (HNY-SG), Individual Medicare Supplement (MS-IND), Small Group Medicare Supplement (MS-SG), and Large Group Medicare Supplement (MS-LG). If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor (SP) is to be reported; otherwise, use small group. Use the drop down list to enter the market segment.

D. Product type is HMO, HMO based POS, POS-OON, EPO, PPO, Comprehensive Major Medical, Non-HMO based POS, Consumer Health Plans, Hospital Only, Medical Only, Base+Supplemental, Supplementary Major Medical, Other Limited Benefit, Medicare Supplement (A, B, C, D, E, F Basic, F High, G, H, I, J Basic, J High, K, L, M, N, or Other - indicate appropriate designation for policy form), etc.

E. The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department). Include a region identifier in this column if needed.

F. Note that many cells include a drop down list. Use the drop down list for entries.

G. If members, covered lives or member months are not known, use reasonable estimates (note methodology used in the actuarial memorandum).

H. This form must be submitted as an Excel file and as a PDF file. Only use the first tab for data entry.

Notes:

(1) It is recommended that a rate filing application subject to §3231(e)(1) or §4308(c) of the New York Insurance Law be submitted at least 150 days before the proposed effective date.
It is recommended that a rate adjustment application not be submitted more than 180 days prior to the proposed effective date.
It is recommended that a rate adjustment application not be submitted less than 125 days prior to the proposed effective date since there is a high probability that a decision on such a filing will not occur in time for the company to send the required final notice to the first renewal cohort affected by the rate adjustment filing.

(2) A rate adjustment filing submitted pursuant to §3231(e)(1) or §4308(c) of the New York Insurance Law should **not** include any revision to existing contract language or include new contract language. Any rate filing in connection with a form filing, a new form or a revision to an existing form, must be a separate filing from the rate adjustment filing.

Use the following SERFF filing types for rate adjustment filings:

* For a rate adjustment filing pursuant to §3231(e)(1): Rate Adjustment pursuant to §3231(e)(1)
* For a rate adjustment filing pursuant to §4308(c): Rate Adjustment pursuant to §4308(c)
* For all other prior approval filings: Normal Pre-Approval

(3) §3231(e)(1) and §4308(c) of the New York Insurance Law require that the initial notice to policyholders/subscribers/contract holders be sent on or before the date the rate adjustment application is submitted to the Insurance Department.

1. "N/A" implies that physician office visits are subject to deductible and coinsurance. A single dollar amount means that the same copay is charged for PCP and specialist services. Split copay services are in the format PCP copay/SCP copay.
2. An "NA" means that ER visits are subject to deductible and coinsurance.
3. "NA" means that IP visits are subject to deductible and coinsurance.
