Filing Fees

Fee Required?	No
Retaliatory?	No
Fee Explanation:	
Per Company:	No

COMPANY	AMOUNT	DATE PROCESSED	TRANSACTION #
MVP Health Insurance Company	$0.00		

State Specific

1. Is a parallel product being submitted for another entity of the same parent organization? Yes/No (If Yes, enter name of other entity, submission date, and SERFF Tracking Number of the parallel file.): MVPH-127319567 MVP Health Plan, Inc 7/20/11, MVPH-127319693 MVP Health Plan, Inc to be filed by 7/24/11, MVPH-127319737 MVP Health Plan, Inc to be filed by 7/24/11
2. Type of insurer? Article 43, HMO, Commercial, Municipal Coop, or Fraternal Benefit Society: Article 42
3. Is this filing for Group Remittance, Statutory Individual HMO, Statutory Individual POS, Blanket, or Healthy New York? Yes/No (If Yes, enter which one.): Group Remittance
4. Type of filing? Enter Form and Rate, Form only, Rate only (Form only should be used ONLY when the filing only contains an application, advertisement, administrative form, or is an out-of-state filing. Form submissions with no proposed rate impact are considered form and rate filings and require an actuarial memorandum.): Rate Only
5. Is this a Rate only filing? Yes/No [If Yes, enter one: Commission/Fee Schedule, "File and Use" Rate Adjustment, Prior Approval Rate Adjustment, DBL Loss Ratio Monitoring, Loss Ratio Experience Monitoring/Reporting, Medicare

Supplement Annual Filing (other than rate adjustment), Medicare Supplement Refund Calculation Filing, Timothy's Law Subsidy Filing, Sole Proprietor Rating, 4308(h) Loss Ratio Report, 3231(e) Loss Ratio Report, Experience Rating Formula, or Other with brief explanation).]: Prior Approval Rate Adjustment

6. Does this submission contain a form subject to Regulation 123? Yes/No (If Yes, provide a full explanation in the Filing Description field.: No

7. Did this insurer prefile group coverage for this group under Section 52.32 prior to this filing? Yes/No (If Yes, enter the state tracking number assigned and the effective date of coverage.): No

8. Does this submission contain any form which is subject to review by the Life Bureau, the Property Bureau or both? Yes/No (If Yes, identify the forms, the Bureau, the date submitted, and the SERFF file number.): No

9. Does this filing contain forms that replace any other previously approved forms? Yes/No (If Yes, identify the form numbers, the file number, and the date of approval of the forms being replaced in the Filing Description field.): No

NEW YORK INSURANCE DEPARTMENT

Instructions/Review Standards for Rate Adjustment Filings Submitted Pursuant to Section 3231(e)(1) or Section 4308(c) of the New York Insurance Law

As of 5/24/2011

Use this Checklist for all rate adjustment filings submitted pursuant to Section 3231(e)(1) or Section 4308(c) of the New York Insurance Law. One of the following two SERFF filing type codes must be used to properly denote such a filing. A rate submission with the wrong filing type code will be rejected and will need to be resubmitted with the correct filing type code.

Rate Adjustment Pursuant to Section 3231(e)(1): This filing type is used for Article 42 insurers that are submitting a rate adjustment only filing for a hospital and/or medical coverage (including Medicare Supplemental insurance) for small groups and individuals under the Section 3231(e)(1) prior approval process. This filing type cannot be used for form filings, initial rate filings, or by Article 43 Corporations or Health Maintenance Organizations (HMOs).

Rate Adjustment Pursuant to Section 4308(c): This filing type is used for Article 43 Corporations and HMOs that are submitting a rate adjustment only filing for any policy form that uses a community rating structure as described in Section 4317(a) of the Insurance Law. This includes hospital and/or medical policy forms, or separate stand-alone dental policy forms, that are not required to be community rated but for which the corporation voluntarily community rates as described in Section 4317(a) of the Insurance Law. This also includes the HMO portion of large group Point of Service business where an approved experience rating formula is not used. This filing code cannot be used for form filings, initial rate filings, or by commercial insurers.

A rate adjustment filing submitted pursuant to Section 3231(e)(1) or Section 4308(c) can include an expansion of an existing rate table to include new benefit options (such as rates for additional copays or deductibles) provided that: (a) the already approved contract language includes the new benefit options being added, (b) the actuarial memorandum clearly identifies the new benefit options being added and provides appropriate actuarial support for the new rates, and (c) approved contract language pages and the Department's approval letter are included with the rate filing documenting that the benefit options being added are included in the already approved contract language. No Section 3231(e)(1) or Section 4308(c) rate adjustment filing can include rates that require contract language approval where such approval has not already been received.

A change to existing rating region differentials is a rate adjustment filing pursuant to Section 3231(e)(1) or Section 4308(c). A rate adjustment filing submitted pursuant to Section 3231(e)(1) or Section 4308(c) cannot reflect an expansion to a new service area. A service area expansion, and the rate applicable to that new service area, must be submitted as a separate rate filing using the "Normal Pre-Approval" SERFF filing type code. A Section 3231(e)(1) or Section 4308(c) filing cannot be used to withdraw from a service area.

If a company wishes to eliminate some of its approved benefit options included in the current rate manual, this cannot be done pursuant to a Section 3231(e)(1) or Section 4308(c) rate adjustment application. Such elimination is to be implemented by submitting a form and rate filing using the "Normal Pre-Approval" SERFF filing type code and the filing is to include a revised statement of variables for the benefit options that are available along with revised rate manual pages reflecting the revised benefit options.

A rate adjustment filing submitted pursuant to Section 3231(e)(1) or Section 4308(c) cannot include any revision to existing contract language or include new contract language. Any rate filing in connection with a form filing (a new form or a revision to an existing form) must be a separate filing from the rate adjustment filing. Once a new rate has been approved (for a new policy form or for a revision to an existing policy form), such new rate can be incorporated into the next Section 3231(e)(1) or Section 4308(c) rate adjustment filing.

The "Normal Pre-Approval" SERFF filing type code triggers the traditional Department review (generally by the Albany Health Bureau unit) and would be used for all form and rate filings, form only filings, experience rating formula filings, or commercial insurer rate only filings other than filings submitted pursuant to Section 3231(e)(1), or Article 43 Corporation and HMO rate only filings other than filings submitted pursuant to Section 4308(c). The "Normal Pre-Approval" SERFF filing type

code would also be used for old individual medical policy forms that are not community rated. Rate revisions for products subject to Section 3231(e)(1) or 4308(c) incorporated into a form and rate filing that adjusts an existing policy form for a change in benefit language can only reflect rate changes due to the benefit revision and can not reflect any adjustment for experience or trend. A "Normal Pre-Approval" SERFF type filing for a product subject to Section 3231(e)(1) or 4308(c) can not include rolling rate tables that extend beyond the period included in the most recent approved or pending Section 3231(e)(1) or Section 4308(c) rate adjustment submission (for example, the last rate adjustment submission included quarterly rolling rate tables for each calendar quarter of 2011; a benefit revision is submitted January 2011 to be effective July 1, 2011; this form and rate filing can include rolling rate tables for third and fourth quarter 2011, but not beyond fourth quarter 2011).

New or revised commission schedules or broker fee schedules must first be placed on file using a rate filing with a "Normal Pre-Approval" SERFF filing type code. Once the new or revised schedule has been placed on file, any rate impact can be included with the next Section 3231(e)(1) or Section 4308(c) rate adjustment filing and the change and its impact on the premium rates is to be discussed in the actuarial memorandum.

It is recommended that a Section 3231(e)(1) or Section 4308(c) rate filing application be submitted at least 150 days before the proposed effective date, however, in determining how far in advance to submit such a rate filing, the company should consider: the time needed to load final rates into its computer system; produce the final rate notice, which is to be sent at least 60 days before the scheduled rate change effective date of the renewal cohort; the 60 days the Department has to review the material; and the time the clock may be stopped while the company responds to issues raised by the Department about the rate filing.

It is recommended that a rate adjustment submission not be submitted more than 180 days prior to the proposed rate effective date. It is recommended that a rate adjustment submission not be submitted less than 125 days prior to the proposed effective date since there is a high probability that a decision on such a filing will not occur in time for the company to send the required final notice to the first renewal cohort affected by the rate adjustment filing. If a company can not send the required final notice at least 60 days in advance of the rate change date for a particular renewal cohort, then the rate change implementation date for such renewal cohort will need to be deferred. Contract terms will dictate whether the rate change can be deferred to a later implementation date for that renewal cohort (e.g., for the July 2012 renewal cohort, deferring the rate change to August 2012, while retaining the next rate change date as July 2013), or deferring implementation of the newly approved rates to a later renewal cohort (e.g., assuming quarterly rolling rates are used: renewing the July 2012 renewal cohort using the previously approved second quarter 2012 rate tables, and implementing the newly approved rates with the August 2012 renewal cohort).

Each attachment to the rate adjustment application must be compatible with the following software: Microsoft Word 2003, Microsoft Excel 2003, or Adobe Acrobat 9.

REVIEW REQUIREMENT	REFERENCE	DESCRIPTION OF REVIEW STANDARDS REQUIREMENTS	LOCATION OF STANDARD IN FILING
DEFINITIONS		a. **Company** refers to the licensed entity providing the insurance coverage reflected in the rate adjustment filing. b. A company's **commercial book of business** includes all of the following: large group, small group, direct pay, Healthy New York, and Medicare Supplemental. It excludes all government programs, such as, Medicare, Medicaid, Family Health Plus, and Child Health Plus. c. **Loss ratio** refers to incurred claims divided by earned premiums for a given period of time. Incurred claims <u>includes</u> the impact of the Standard Direct Pay and Healthy New York stop loss pools, Regulation 146 (11 NYCRR 361), covered	

		lives assessments, and the HCRA surcharge. Incurred claims do not include any administrative expenses. Earned premiums do not include any adjustment for assessments or taxes. d. **Market segment** refers to large group, small group, sole proprietor, direct pay, Healthy New York, Medicare Supplemental, etc. e. **Product street name** refers to the product name as advertised to consumers, and the product name which consumers are most likely to use when communicating with the Department. f. **Rate applicability period** refers to the length of time in which the rates in a rate table are assumed to remain in effect. (i) Example 1: A non-rolling rate table is developed to be effective January 1, 2012 and is expected to be revised January 1, 2013. The rate applicability period for this table is January 1, 2012 through December 31, 2012. (ii) Example 2: A quarterly rolling rate table is developed for issues and renewals in January – March 2012 and incorporates a 12 month rate guarantee period. The rate applicability period for this table is February 15, 2012 (mid renewal date) through February 14, 2013. If all policyholders must have a first of the month effective date, then the rate applicability period would be considered as February 1, 2012 through January 31, 2013. g. **Standardized earned premium** is the earned premium for the period adjusted to assume that all premiums for the period are payable at the most current approved (or deemed approved) rate level, reflecting rate increases exclusive of rate changes due to contract language changes (i.e., excluding rate changes due to benefit revisions or members migrating to different plan designs since the impact of such changes would be automatically reflected in the earned premiums and incurred claims once such a change becomes effective). (i) Example: The rate filing is to implement quarterly rolling rate tables applicable to the 3rd and 4th quarters 2011 and 1st and 2nd quarters 2012. The 2nd quarter 2011 rates have already been approved. Therefore, the 2nd quarter 2011 rate tables are the current rate level. The earned premium for the period would be adjusted to reflect the premiums that would have been paid for that period if all the premiums had been paid at the 2nd quarter 2011 rate level. If the 2nd quarter 2011 rate table included a 2% increase due to the addition of a new benefit that is being added to all policyholders at renewal, the standardization for periods prior to April 1, 2011 would not reflect this 2% increase since the incurred claims for this earlier period did not reflect this additional benefit. (ii) Example: An insurance company uses a quarterly rolling rate structure and has been raising rates 4% each quarter as of the beginning of a new quarter. The first quarter 2010 rate for plan design A is $100, the first quarter 2011 rate is $116.99, and the second quarter 2011 rate is $121.67. These increases reflect	

		no revision to the underlying covered benefits. The second quarter 2011 rate table is the standard rate level. Contract X was paying $100 per month for January-December 2010. At renewal January 1, 2011, the premium was scheduled to increase to $116.99 but a change to plan design B occurred that reduced the premium by 5% to $111.14 for January 2011 and later. The second quarter 2011 rate for plan design A is $121.67 and the second quarter 2011 rate for plan design B is $115.58 ($121.67 x 0.95). The earned premium for this contract for each month from January through December 2010 is standardized to the second quarter 2011 level by adjusting by 121.67/100.00, and the January 2011 earned premium is standardized to the second quarter 2011 level by adjusting by 115.58/111.14.	
ROLLING RATE STRUCTURE		a. Every rate filing for a rolling rate structure must include rolling rates for at least a 6 month, and for no more than a 12 month, issue/renewal period (e.g., between 2 and 4 quarterly rolling rates, between 6 and 12 monthly rolling rates). b. Beginning with rate filings to be effective January 1, 2012 or later, all rate filings for a rolling rate structure must include rolling rates for a 12 month issue/renewal period. c. Notwithstanding the above, a large group HMO rate filing can include rolling rates for up to a 24 month period (e.g., 8 quarterly rolling rates, 24 monthly rolling rates).	
CHANGES TO PREVIOUSLY APPROVED RATE TABLES		a. Beginning with rate adjustment filings that include rate tables to be effective January 1, 2012 or later, the rate adjustment filing must include all community rated policy forms within a given market segment (such as all small group products) whether or not a premium rate adjustment is requested for a particular product or rider in that market segment. All entities within the same holding company system are to submit filings for a given market segment at the same time; the filings can be submitted under different SERFF filings, but all the applicable filings must be submitted within a total of seven calendar days. b. A company can revise a previously approved non-rolling rate table provided that: (i) The proposed effective date of the rate table is at least 12 months after the effective date of the current rate table; or (ii) The proposed effective date of the rate table is at least 6 months after the effective date of the current rate table, the contract language permits revising the rate table in accordance with such rate filing, and all policyholders that received a final 60 day notice about the approved rates from the previously approved rate adjustment filing have also received the rate change approved from the previously approved rate adjustment filing. c. A company can revise rate tables included in a previously approved rolling rate filing provided that: (i) the rate tables being revised were never implemented, (ii)	

		the first two quarterly rate tables, or the first six monthly rate tables, included in the previously approved rate adjustment filing are not revised, and (iii) policyholders in the renewal cohort(s) affected by the change to the previously approved rate tables did not receive a final 60 day notice informing them of the approved rates from the previously approved rate adjustment filing. The revised rate adjustment filing must include a year's worth of rates as discussed in the "Rolling Rate Structure" section above. (Example: A rolling rate filing was submitted and approved that included quarterly rolling rate tables for 1st, 2nd, 3rd and 4th quarter of 2011. The company can not revise the 1st and 2nd quarter 2011 rate tables, but if the indicated criteria is met, can submit a new prior approval rate filing that includes rolling rates for 3rd and 4th quarter 2011 and 1st and 2nd quarter 2012.) The Department may waive these requirements if the company can demonstrate to the Superintendent's satisfaction that the solvency of the corporation is threatened.	
STANDARD EXHIBITS 1 - 7	Introduction	Exhibits 1 through 7 must be submitted as part of each rate adjustment application. For some of the exhibits the format is defined, while for other exhibits the format is illustrative and the company will need to tailor the material included for the specific rate submission.	
Exhibit 1		**General information about the rate adjustment submission.** a. The format for this exhibit is fixed. Fill in the various information fields; the information being requested is indicated on the exhibit. b. For Type of Insurer, select from the drop down list (HMO, Article 42, Article 43) or make an entry. c. For "For Profit" or "Non Profit" click on the applicable box and a check mark will appear. d. Item D – the "new rate effective date" must be a realistic implementation date given the review time allowed the Department and the requirement of the 60 day final rate notice. This date would usually be the first date the proposed rates would affect renewing policyholders. So a 1/1/2012 effective date would imply that the first renewal cohort affected by the rate submission would be January 2012. e. Item F.1 – a rate adjustment filing that also includes rate adjustments for unapproved contract language changes will be rejected. f. This exhibit may be submitted as an Adobe PDF file or as an Excel file.	
Exhibit 2		**FOIL Exemption Request.** a. A request that the Department exempt from public disclosure any information included in this rate submission, pursuant to New York Public Officers Law Section 87(2)(d) (the "Trade Secret/Competitive Injury Exemption"), must be made by completing this exhibit. b. A request that the Department apply the Trade Secret/Competitive Injury	

		Exemption to any information contained in this submission that is not included in this exhibit may not be honored by the Department. c. In light of the open government purpose underlying FOIL, the Department favors redacting portions of documents, and disclosing the balance of such documents, as opposed to withholding documents in their entirety, where such redactions will suffice to protect the exempt information. Therefore, the Company should submit to the Department both the original document and a redacted version of the original document, which omits or blocks the information it wishes to exempt from disclosure. The Department will accept the redacted version of the original document within one week after the original rate filing was submitted. d. The exhibit format is illustrative but the company must include the information indicated in sections A, B, C, D and E. The exhibit may be submitted as a Word document file, an Adobe PDF file, or an Excel file. e. Enter in section A the insurer information requested. f. Enter in section B the information requested regarding the FOIL contact person at the company. g. Enter in section C the list of documents, exhibits and attachments separately, including the file names of the computer files that are included with the application. Indicate with an asterisk (*) those documents that the company believes contains information subject to the Trade Secret/Competitive Injury Exemption. Any document without an asterisk will be deemed to be a public document. h. Enter in section D the list of all documents, exhibits, and attachments, of which a portion has been redacted, including the file names of computer files that are included with the application. The unredacted portion(s) of the redacted documents may be deemed to be public. i. Enter in section E the statement of necessity. A request that the Department apply the Trade Secret/Competitive Injury Exemption to any information included in this submission must be accompanied by a written statement of necessity that: (i) identifies the specific parts of the submission for which the Company believes the Trade Secret/Competitive Injury Exemption should be applied; (ii) specifies the reasons why the submission, or parts thereof, should be exempt from disclosure pursuant to the Trade Secret/Competitive Injury Exemption; and (iii) where applicable, indicates where redactions would suffice to protect the exempt information.	
Exhibit 3		**Narrative Summary.** a. The format of the exhibit is illustrative, but must include the required material. The	

		exhibit may be submitted as a Word document file, an Adobe PDF file, or an Excel file. b. The narrative summary is to explain the reason(s) for the proposed rate adjustment. The purpose of the narrative summary is to provide a written explanation to the company's policyholders and subscribers to help them understand why a rate increase is needed. c. The narrative summary will be a public document. d. It is suggested that once reviewed by the Department, the company post the narrative summary on its website. Any changes to the narrative summary subsequent to the posting are to be submitted to the Department. e. The narrative summary should include, but not be limited to, the following information: (i) The name of the company submitting the rate adjustment request, the NAIC code number for the company, and the SERFF number for the rate application. (ii) A summary of the proposed rate adjustments. This can be a range as long as the range is consistent with the range(s) stated in the initial notice to policyholders for the various products and rating regions. A range can be no wider than five percentage points. (iii) A description of which policyholders are affected by this rate adjustment application. The rate adjustment may only affect policyholders in a certain market segment (e.g., small group), or with certain products (indicate the "street name" of the products affected), or only a certain renewal cohort (e.g., policyholders renewing from period mm/dd/yyyy – mm/dd/yyyy). (iv) The effective date of the proposed rate adjustments and an indication of when the rate change would affect policyholders. Examples: (a) Non guaranteed rate structure: all policyholders will receive the rate adjustment on mm/dd/yyyy. (b) A rate structure with a 12 month rate guarantee: a policyholder will receive the rate adjustment on the policyholder's next anniversary on or after mm/dd/yyyy. (v) The number of policyholders and members affected by the proposed rate adjustments. This can be aggregated across all market segments and products included in the rate adjustment submission. (vi) An explanation, in plan language, as to why it is necessary to request such rate change(s). As appropriate, a separate explanation should be provided for each market segment. Where the rate increases are not the same for each product type within a market segment, the company should provide a separate explanation for each such product type. Each page of the narrative summary should be numbered (i.e., [page] of [pages]).	

Exhibit 4		**Summary of Proposed Percentage Rate Change to Existing Rate.** a. The information to be shown in this exhibit pertains to the market segments and products included in the rate adjustment submission. b. This exhibit must be submitted as an Excel file even if it is also submitted as an Adobe PDF file. The format of the exhibit is essentially fixed, but additional rows can be inserted as needed or additional tabs for several such exhibits can be added to the workbook. c. This exhibit is to summarize the proposed percentage rate changes. The percentage rate change is the percentage change from the rate the subscriber is currently paying (or currently scheduled to be paying at the next rate change date for changes already approved or deemed approved by a prior rate application and which are not being revised by the current rate application) to the proposed rate that this subscriber would be paying at the subscriber's next rate change date according to the new rate application. Example 1: the rate structure is quarterly rolling rates, has a 12 month rate guarantee period, and the rate adjustment application is for second quarter 2012 issues and renewals. The rate change would be the percentage change from the second quarter 2011 rates to proposed second quarter 2012 rates. Example 2: the rate application includes quarterly rolling rates for each quarter of calendar year 2012. The prior rate application included quarterly rolling rates for each quarter of 2011. Rates include a 12 month rate guarantee period. The current rate application is submitted July 2011 before all the third and fourth quarter 2011 renewals have taken place. The proposed percentage change for fourth quarter 2012 would be the change from the fourth quarter 2011 rates to the proposed fourth quarter 2012 rates. d. If the subscriber will need to change to a different plan design at renewal (i.e., a required change from the current plan design whether mandated by a government entity or not, but not due to the discontinuation of the current policy form or discontinuation of a particular plan design), a supplement to Exhibit 4 is to be included. The supplemental exhibit is to indicate (i) a high level summary of the difference in covered benefits and cost sharing between the current and replacement plan, and (ii) the estimated pricing percentage change due solely to the difference in the plan designs between the replacement plan and the existing plan. This supplemental exhibit may be submitted as a Word document file, an Adobe PDF file, or an Excel file. e. The weighted averages may be based on membership instead of premium volume. f. The values entered in Sections A and B should follow the organization of the rate manual. If the drug rate is included with the rates in the medical rate table, the combined result is entered in Section A. If the drug rate is a separate rate table associated with a drug rider, then the medical changes are shown in Section A and	

		the drug rider changes are shown in Section B. g. Section A summarizes the proposed changes for the base medical rate tables and excludes the impact of all optional riders. The lowest and highest values indicate for a given market segment, region, policy form, product combination the lowest percentage change that applies to a renewing subscriber/contract holder and the highest percentage change that applies to a renewing subscriber/contract holder. This difference could be due to different percentage changes proposed by rating tier or by plan design within a particular product. Example: The rate adjustment application is only for small group PPO and within this product there are only two product designs. The proposed rate changes for design A are: employee only = 10%, employee+child(ren) = 8%, employee+spouse = 13% and employee+family = 11%. The proposed rate change for design B are: employee only = 9%, employee+child(ren) = 7%, employee+spouse = 12% and employee+family = 10%. The lowest change proposed is 7% and the highest change proposed is 13%. The weighted average change would reflect the distribution of contracts by plan design and rating tier. h. Section B summarizes the proposed changes just for the traditional drug riders. Exclude minor drug related riders such as a rider to include oral contraceptives. All the drug riders available with a given base medical product can be aggregated into one row. Example 1: Drug riders D1 to D99 are available with the PPO product. The proposed changes on the drug riders vary from 10% to 16%. There would be one row for the PPO policy form/product. The lowest change proposed is 10% and the highest change proposed is 16%. The weighted average change would reflect the distribution of contracts by plan design and rating tier. Example 2: As in Example 1, but drug riders HD1-HD19 are available with the HSA high deductible PPO product. There would be another row for the high deductible PPO policy form/product indicating the lowest, highest, and weighted average changes among the HD1-HD19 drug riders. i. A separate exhibit should be completed for each market segment. If the percentage rate change for sole proprietor is different from small group, then a separate market segment of sole proprietor is to be reported. j. Where rate changes differ by rating region within a market segment, separate exhibits are to be submitted by market segment/rating region combination. k. Separate information should be submitted for each rolling rate table of a rolling rate structure. For example: if a calendar quarterly rolling rate structure is used and the rate adjustment filing includes proposed rate tables for first, second, third and fourth quarters 2012, separate information should be submitted for section A and section B for the impact of the first quarter 2012 rate changes, the impact of the second quarter 2012 rate changes, the impact of the third quarter 2012 rate	

		changes, and the impact of the fourth quarter 2012 rate changes.	
Exhibit 5		**Distribution of Contracts Affected by the Proposed Rate Adjustments.** a. This exhibit must be submitted as an Excel file even if it is also submitted as an Adobe PDF file. The format of the exhibit is essentially fixed, but the company can edit the worksheet to add more rows or tabs as needed. b. The information to be shown in this exhibit pertains to the market segments and products included in the rate adjustment submission. c. This exhibit indicates the distribution of the proposed rate changes for each market segment, rating region and product, as well as the weighted average rate change impact for that segment/region/product combination. If the same percentage rate change applies to each rating region, then a separate break out by rating region is not necessary and the results can be shown for all rating regions combined. d. The distribution basis can be by number of contracts or by number of members. The same basis is to be used for all products within a given rate adjustment submission. The company should indicate the distribution basis used (number of contracts or number of members). The weighted averages can be calculated using the distribution basis chosen instead of on premium volume. e. The percentage rate change reflects the expected change in premium rate that would apply to that subscriber/contract holder on that subscriber/contract holder's next rate change date according to the new rate application. This would reflect the percentage rate change from the rate the contract holder is currently paying (or currently scheduled to be paying at the next rate change date for changes already approved or deemed approved by a prior rate application and which is not being revised by the current rate application) to the proposed rate that this contract holder would be paying at the contract holder's next rate change date according to the new rate application The rate change reflects the impact of the base medical plans and all riders applicable to that contract. f. Enter in section A the information for the various products that do not use a rolling rate structure. g. Enter in section B the information for the various products that use a rolling rate structure. Separate exhibits are to be prepared and submitted for each rolling rate cohort. For example, if the rate submission is for quarterly rolling rate tables for first, second, third and fourth quarter 2012, then separate section B information would be entered for each of these four quarters. The distribution shown for a particular quarter would reflect only those policyholders renewing in that particular quarter.	
Exhibit 6		**Summary of Policy Form and Product Changes.** a. This exhibit summarizes all rate changes filed pursuant to sections of the New	

		York Insurance Law other than Section 3231(e)(1) or Section 4308(c) that impact the policyholders affected by this rate adjustment submission and which affect the percentage changes shown on Exhibits 4 or 5. b. The format of the exhibit is essentially fixed. Extend the worksheet to add more rows as needed. This exhibit must be submitted as a Word document file or an Excel file, even if it is submitted as an Adobe PDF file. c. In section A, list all rate filings that have been approved since the prior Section 3231(e)(1) or Section 4308(c) rate filing that impact the percentage rate change of the policyholders affected by this rate adjustment submission. The actuarial memorandum should include a brief description of such changes, when the changes were implemented, and the impact on the rate changes in Exhibits 4 and 5. d. In section B, list all rate filings currently pending with the Department that if approved would impact the percentage rate change of the policyholders affected by this rate adjustment submission. This includes any pending request to discontinue a policy form, product, or plan design option. e. In section C, list any "file and use" rate submissions which impact the rate tables in this filing. If the current rates were implemented by a file and use rate filing, and these current rates are being revised with this Section 3231(e)(1) or Section 4308(c) rate filing, or if the percentage changes reported in Exhibits 4 or 5 are impacted by a file and use filing, then list the applicable file and use rate filing(s).	
Exhibit 7		**Historical Data by Each Policy Form Included in the Rate Adjustment Filing (formerly the Summary Template).** a. This exhibit must be submitted as an Excel file even if it is also submitted as an Adobe PDF file. The format of the exhibit is fixed; add more columns to the right as needed; copy to additional tabs in the Excel workbook as needed to create additional exhibits. b. A separate exhibit is to be submitted for each rating pool (i.e., permitted aggregation of base medical policy forms). Create additional tabs as needed. Data is to be submitted for each base medical policy form included in the rate adjustment filing even if no rate adjustment is proposed for that base medical policy form. c. Indicate the company name, the NAIC code number for that entity, and the SERFF filing number for the applicable rate filing in the spaces indicated. d. Indicate for each base medical policy form the form number, the product name as in the rate manual, and the street product name. Also indicate the other base medical policy forms this form is aggregated with for rate setting. Add additional columns as needed. Add a rightmost column with aggregate values for the entire rating pool (for the appropriate rows). Refer to Section 360.11(a)-(b) of Regulation 145 (11 NYCRR 360) for the requirements to aggregate substantially similar	

		policy forms for small group policy forms and for individual policy forms. e. Indicate for each base medical policy form if the policy form aggregation has changed from the previous rate filing. If yes, the actuarial memorandum must include an explanation of the change, the rationale for the change, and the percentage rate impact this change has on this policy form and on the policy forms previously aggregated with this policy form. f. The effective date of rate change refers to the proposed effective date of the non-rolling rate table, and/or the proposed effective date of the first rolling rate period of a rolling rate structure. g. The rate guarantee period refers to a non-rolling rate table and/or to the first rate table of a rolling rate structure. (If the rate guarantee period for the rolling rate structure is not the same for each rolling rate period, the actuarial memorandum must discuss this and explain why the length of the rate guarantee periods are not the same.) h. The weighted average rate change percentage proposed (from the rate currently charged the policyholder [or currently scheduled to be charged at the next rate change date for changes already approved or deemed approved by a prior rate application and which is not being revised by the current rate application] to the proposed rate to be charged to that same cohort of policyholders) for the indicated base medical policy form, including all associated riders. The weighting should be based on members. For a rolling rate structure, enter the result for the first rate table in the rolling rate structure. (Example: a quarterly rolling rate filing was submitted that includes rolling rate tables for the 1st, 2nd, 3rd, and 4th quarters of 2012. Rates are for a 12 month period. Indicate the average rate change percentage from the 1st quarter of 2011 rate tables to the 1st quarter 2012 rate tables.) i. For the number of policyholders affected and the number of covered lives affected, indicate the effect of all the rate tables of a rolling rate structure included in the rate filing (but not more than 12 months of issues and renewals if more than 12 months of rolling rate tables are included in the rate filing). For group business, “policyholders” is referring to the number of groups, not the number of subscribers or contracts. j. The expected loss ratio is the loss ratio incorporated into the proposed rate tables for each base medical policy form (and the entire rating pool) and includes the impact of associated riders and reflects the impact of the proposed rate changes. Loss ratio is calculated on a New York statewide basis. For a rolling rate structure, enter the expected loss ratio incorporated into the rate tables of the first rolling rate period of the rolling rate structure. k. The experience entered for the two indicated experience periods is the New York statewide experience for the indicated base medical policy form plus all associated riders.	

		(i) Each experience period is to be for 12 months (or shorter if a new form). (ii) The ending date of the recent experience period cannot be earlier than 12 months before the proposed effective date of the earliest rate table included in the rate filing. (Example: The rate filing is for a non-rolling rate table to be effective July 1, 2012. The recent experience period cannot have an ending date earlier than June 30, 2011, i.e., 12 months prior to July 1, 2012.). (iii) The prior period is the immediately prior 12 month experience period (or shorter period if a new form). (iv) The incurred claims for each of the two experience periods must be based on at least 3 months of claims run-out beyond the end of the experience period. The actuarial memorandum is to provide a clear description of how these incurred claims were developed for each experience period and how many months of claim run-out were reflected in the development of the incurred claims. l. Enter the annual composite medical trend assumption used for each base medical policy form (including impact of associated riders). Enter the annual utilization and unit cost trend components included in the composite trend factor shown. m. The actuarial memorandum is to include a clear description of how the standardized earned premiums for each experience period were developed from the earned premiums for the applicable experience period, and include documentation and supporting exhibits showing how the standardized premiums were developed for each experience period. A numerical example illustrating the development methodology is to be included as part of the actuarial memorandum. The same standard rate level is used for both of the experience periods. n. If the rating differential between the New York rating regions is being revised with this rate filing, separate versions of Exhibit 7 are to be included for each rating region, each permitted aggregation of rating regions, and for all rating regions combined.	
ACTUARIAL MEMORANDUM	11NYCRR 52.40(a)(1)	Actuarial qualifications: a. Member of the Society of Actuaries or member of the American Academy of Actuaries; and b. Meets the "Qualification Standards of Actuarial Opinion" as adopted by the American Academy of Actuaries.	All of the requested information described in this checklist is included in either the actuarial memorandum itself, the
Justification of Rates	§3231(e) §4308(c) 11NYCRR 52.40 11NYCRR 52.42 (HMOs) 11NYCRR 52.45 11NYCRR 59.5(b)	a. Description of proposed changes in rates, including the following: (i) The member weighted average proposed percentage change over the current rates charged to each renewal cohort of policyholders for each base medical policy form, including the impact of all associated riders available to that policy form (or currently scheduled to be charged at the next rate change date for changes already approved or deemed approved by a prior rate application and which is not being revised by the current rate application). This is to be	

	11NYCRR 360.11	shown for each non-rolling rate table and/or each rolling rate table included in the rate filing. (The percentage change is comparable to the percentage change developed for Exhibit 5.) Include comparable information for percentage rate changes implemented during the prior 24 months. (ii) For a rolling rate structure, the percentage change to the first rate table of the rolling rate structure included in the rate filing, from the immediately preceding implemented rolling rate table not included in the rate filing. Indicate the rolling rate periods of the rate tables used to develop this percentage change. If the percentage change between two corresponding rate tables is not uniform, indicate the minimum, maximum and average percentage change between those two rate tables. This comparison is to be done for each first table of a rolling rate structure included in the rate filing. (Example: The rate filing includes four quarterly rolling rate tables beginning 3rd quarter 2011. The change from each of the 2nd quarter 2011 rolling rate tables to the corresponding 3rd quarter 2011 rolling rate table is to be indicated.) The proposed percentage change between each succeeding rolling rate table is also to be indicated. (iii) For the 24 month period prior to the effective date of the earliest rate table included in the rate adjustment submission, indicate the aggregate (medical plus riders) percentage change between the successive non-rolling rate tables. For a rolling rate structure, indicate the aggregate (medical plus riders) percentage change between each of the successive rolling rate tables (e.g., for a quarterly rolling rate structure, the percentage change between each of the successive quarterly rate tables). (iv) The percentage change due to any change in the expected loss ratio incorporated into the proposed rate tables from the prior rate filing for such base medical policy form or rider. Indicate the expected loss ratio incorporated into the current rate tables, the expected loss ratio incorporated into the proposed rate tables, the impact on the percentage change in items (i) and (ii) above due to this revision in the expected loss ratio, and the reason(s) and justification for the change in the pricing expected loss ratio. (v) The percentage change due to any change to the tier structure relationships included in this rate filing and the impact of such change on the percentage changes in items (i) and (ii) above. Include justification for such changes. (vi) The percentage change due to any change to the factor used to convert per member per month results to per single employee results included in this rate filing, and the impact of such change on the percentage changes in items (i) and (ii) above. Include justification for such changes. (vii) The percentage change due to variance in the prior incurred claim cost per member per month estimate and the impact of such variance on the percentage	

		changes in items (i) and (ii) above. Discuss the reasons contributing to this variance and include an exhibit showing how this variance and the percentage impact of this variance were developed. (viii) Changes to any of the rating differentials between the various rating regions included in this rate filing. If the rating differential between the rating regions was changed, include (a) a listing of the composition of each rating region, (b) the percentage change impact on each such rating region, and (c) justification for each such change between the rating region differentials. If the composition of any rating region is being changed with this filing, indicate (a) the current and proposed composition of the affected rating regions, (b) the percentage change impact on each of the affected rating regions, and (c) justification for the proposed change in the rating region composition. b. If new benefit options are being added to an existing rate table (such as additional copays or deductibles): (a) clearly indicate the additions being made, (b) include in the actuarial memorandum, a statement that the already approved contract language includes the new benefit options being added, (c) provide appropriate actuarial justification for the additional rating factors, and (d) submit a copy of the approved contract language pages and a copy of the Department's approval letter and clearly indicate how the approved contract language covers the new benefit options being added to the existing rate table. c. Include the following: (i) For each non-rolling rate table: the current rate for each rating tier, the proposed rate for each rating tier, and the dollar and percentage change from the current rate to the proposed rate for each rate table, rating tier, and benefit option for each policy form and rider form included in the rate submission. (ii) For each rolling rate table: the current rate for each rating tier, the proposed rate for each rating tier, and the dollar and percentage change for each renewal cohort from the current rate to the proposed rate for each rate table, rating tier, and benefit option for each policy form and rider form included in the rate submission. (Example: the rate submission includes new rate tables for third and fourth quarter 2011 and first and second quarter 2012. Rates are for 12 month periods. Show the rates for the third quarter 2010, the proposed rates for the third quarter 2011, and the dollar and percentage change from third quarter 2010 to the proposed third quarter 2011 rates. Show a similar table for the proposed fourth quarter 2011, and first and second quarter 2012 rates as well.) d. Discuss the standard premium development used in Exhibit 7. See discussion above on Exhibit 7. e. Discuss the source data used to develop the projected incurred claims for the renewal rate applicability period. (i) If the source data is actual claims experience, the experience period is to be at	

		least 12 months long, and the unpaid claim reserve is to be based on at least 3 months of claims run-out beyond the end of the experience period. (ii) If the source data is other than the actual claims experience, indicate the source of this data (e.g., from what publication, prepared by what organization), and the applicability of this source data. (iii) Discuss the credibility of such source data. Since the NAIC and HHS have adopted for the federal MLR rebate calculation 75,000 life years (900,000 member months) as required for full credibility and less than 1,000 life years (12,000 member months) as non credible, the credibility of the source data should be discussed consistent with these parameters. (iv) Include an exhibit showing the source data and indicate all adjustments made to this source data to develop the projected incurred claims for the renewal rate applicability period. Provide this detail for each non-rolling rate table included in the rate filing, and/or for the first rate table of each rolling rate structure included in the rate filing (for base medical rate tables and for rider rate tables) for each permitted aggregation of policy forms (i.e., rating pool). Provide justification for each such adjustment. f. Indicate the assumed annualized claim trend projection factors used to project the source data to the renewal rate applicability period (for the non-rolling rate tables and/or the first rate tables of a rolling rate structure) for each product within each permitted policy form aggregation (i.e., rating pool). (i) Indicate the assumed annualized composite trend factors used for each base medical policy form (or permitted aggregation) and separately for the utilization and unit cost components of the composite trend. Indicate the assumed composite annual trend factors used for each rider form (or permitted aggregation) and separately for the utilization and unit cost components of the composite trend. (ii) Provide justification for the assumed utilization, unit cost and composite annual trend factors. Discuss the impact and provide justification for any case mix change, intensity of service change, population/demographic change, adverse selection, or deductible leveraging component incorporated into the utilization and/or unit cost trend factor components. (iii) Clearly discuss how the annualized trend factors were applied to the source data to develop the projected data for the renewal rate applicability period. g. Provide an actuarial justification of the proposed rate changes for each base medical policy form and each rider form, or permitted aggregation, included in the rate submission. (i) Clearly show how the percentage change from the current rate table was developed, or how the revised premium rate was developed, for the non-rolling rate tables and/or the first rate tables of a rolling rate structure. (Example: for	

		a rolling rate structure, how the percentage change from the existing 2nd quarter 2011 rate table to the proposed 3rd quarter 2011 rate table was developed for each rating element in the proposed rate table.) This demonstration must clearly show how the proposed rate change was developed from the projected source data, current rate level, and expected loss ratio. Provide justification for the percentage change proposed. (ii) For each subsequent rate table of a rolling rate structure, show how the change between each of the successive rate tables was developed (e.g., the change from the 3rd quarter 2011 rate table to the 4th quarter 2011 rate table). Provide justification for these changes between the rolling rate tables. (iii) Clearly show how the proposed rate development, as applicable, reflects recoveries from the standard direct pay and Healthy New York stop loss pools (New York Insurance Law Sections 4321-a, 4322-a, and 4327), and discuss how the recovery amounts used were developed. (iv) Clearly show how the proposed rate development, as applicable, reflects payments to, or receipts from, the Department Regulation 146 (11 NYCRR 361) and New York Insurance Law Section 3233 marketing stabilization pool. Clearly discuss how the corporation has been complying with 11 NYCRR 361 (Regulation 146), Section 361.6(g), and include in the rate application any new plan pursuant to Section 361.6(g)(2)(i). Such discussion should include an exhibit showing how all monies received from the Regulation 146 pool from calendar years 2007 to date have been used to benefit consumers pursuant to the requirements of Section 361.6(g). h. If the percentage rate change by benefit option differs within a particular policy form (or rider form), include an actuarial demonstration that the rate changes were developed assuming the same insured population selects each of the available benefit options, and that the differences in the percentage rate changes are not due to differences in the age, sex, health status, or industry distributions of the members selecting a particular benefit option. Any assumed variation in utilization by benefit option within a particular policy form (or rider form) must be based solely on the benefit differential, must assume that the same population of insureds selects each benefit option within the policy form, and cannot be based on differences due to age, sex, health status or industry among the members selecting the different benefit options. i. If the percentage rate change by policy form differs within a permitted aggregation of policy forms, include an actuarial demonstration that the rate changes were developed assuming the same insured population selects each of the available benefit options among the aggregated policy forms, and that the differences in the percentage rate changes are not due to differences in the age, sex, health status, or industry distributions of the members selecting a particular benefit option within	

		the aggregated policy forms. Any assumed variation in utilization between policy forms within a permitted aggregation of policy forms must be based solely on the benefit differential, must assume that the same population of insureds selects each benefit option within the permitted aggregation of policy forms, and cannot be based on differences due to age, sex, health status or industry among the members selecting a particular benefit option within the aggregated policy forms. j. If the percentage rate change by rating region differs, the default assumption is that the rating regions are not aggregated for rate setting purposes. In order for a company to claim that certain rating regions are aggregated for rate setting purposes, it is necessary to include an actuarial demonstration that the rate changes were developed assuming the same insured population in each of the aggregated rating regions, and that the differences in the percentage rate changes are not due to differences in the age, sex, health status, or industry distributions of the members in each of the aggregated rating regions. k. Indicate for each permitted policy form aggregation, within each rating region aggregation, the non-claim expense components incorporated into the current premium rates and into the proposed premium rates as a percentage of gross premiums and as $pmpm. This is to be shown for the non-rolling rate tables and/or the first rate table of each rolling rate structure. Include the following components: (i) Regulatory authority licenses and fees, including New York State 332 assessment expenses; (ii) Administrative expenses for activities that improve health care quality as defined in the NAIC Annual Statement Supplemental Health Care Exhibit; (iii) Commissions and broker fees; (iv) Premium taxes; (v) Other administrative expenses; (vi) After-tax underwriting margin (profit/contribution to surplus); (vii) State income taxes (and applicable state income tax rate); (viii) Federal income taxes (and applicable federal income tax rate); (ix) Reduction for net investment income, if any; and (x) Net of the above. Discuss how administrative expenses are allocated to the various market segments and product lines.	
Minimum Loss Ratio Requirements	§3231(e)(1)(B) §4308(c)(3) 11NYCRR52.45(i) 11NYCRR59.5(b)	a. The minimum loss ratio for community rated products, other than the official Medicare Supplemental products, is as specified in Section 3231(e)(1)(B) or 4308(c)(3)(A) of the New York Insurance Law, as amended by Chapter 107 of the Laws of 2010. b. The minimum loss ratio for the official Medicare Supplemental products is: (i) Article 43 companies: as specified in Section 4308(c)(3)(B) of the Insurance	

		Law, as amended by Chapter 107 of the Laws of 2010; and (ii) Article 42 companies: as specified in Section 52.45(i) of Regulation 62 (11 NYCRR 52).	
Actuarial Certification	11NYCRR 52.40(a)(1)	a. The filing is in compliance with all applicable laws and regulations of the State of New York. b. The filing is in compliance with Actuarial Standard of Practice No. 8 "Regulatory Filings for Rates and Financial Projections for Health Plans". c. The expected loss ratio incorporated into the proposed rate tables meets the minimum requirement of the State of New York by permitted aggregation of policy forms within each permitted aggregation of rating regions. Specify the expected loss ratio incorporated into the proposed rate tables for each permitted aggregation of policy forms within each permitted aggregation of rating regions. d. The benefits are reasonable in relation to the premiums charged. e. The rates are not unfairly discriminatory.	
REVISED RATE MANUAL PAGES	11NYCRR 52.40(e)(2) 11NYCRR 52.45(f) 11NYCRR 59.5(b)	**Rate Manual.** a. Table of contents. b. Rate pages, including a page indicating the composition of each rating region. c. Insurer/corporation name on each consecutively numbered rate page. d. Identification by form number of each policy, rider, or endorsement to which the rates apply. e. Brief description of benefits, types of coverage, limitations, exclusions, and issue limits. f. Description of revised rating classes, factors and discounts, as applicable. g. Examples of rate calculations, i.e., how the rate tables and formulas included in the rate manual are used to calculate the final rate for a given benefit design. h. Commission schedule(s) and fees. i. Underwriting guidelines and/or underwriting manual, to the extent applicable. j. Expected loss ratio(s).	
NOTICES TO POLICYHOLDERS **Initial & Final** Circular Letter No. XX (2011) Pending	§3231(e)(1)(A) §4308(c)(2)	a. A sample copy of the initial written notice sent to policyholders and subscribers/contract holders of the proposed rate adjustment submitted to the Insurance Department. (i) Section 3231(e)(1) and Section 4308(c) of the New York Insurance Law require that the initial notice be sent on or before the date the rate application is submitted to the Insurance Department. (ii) A range can be used to indicate the rate change provided that the range is no wider than 5 percentage points. (iii) If different notices are used for different products or different rating regions, submit a sample for each such product and/or each such rating region.	

		b. A sample copy of the final written notice to be sent to policyholders after the proposed rates are finalized.	
RATE FILINGS THAT ARE SUBJECT TO REVIEW	PPACA §1003	HHS has defined a "rate filing that is subject to review" as any rate filing where the rate increase over the prior 12 months equals or exceeds a stated threshold. For rate filings that HHS has defined to be a "rate filing that is subject to review", submit a copy of all documentation required to be submitted to HHS for such rate filing.	

MVP Health Insurance Company
Actuarial Memorandum

This memorandum supports the Medical Rate Filings submitted pursuant to Section 3231(e)(1) of the Insurance Law for policies with effective dates between 1/1/2012 through 12/31/2012. MVP requests that this actuarial memorandum and all noted supporting exhibits included in the filing be treated as confidential pursuant to article 6 of the New York Public Officers Law (FOIL).

The information included in this memorandum attempts to provide all the requested information outlined in the Justification of Rates section of the NYS DOI Instructions and Review Standards for Rate Adjustment filings.

A Description of Proposed Rate Changes

As illustrated in Exhibit 5, the average aggregate rate change for MVP's HMO products is as follows for each renewal cohort and market segment:

Market Segment/renewal cohort	Average Annual Change 2012
Small First Quarter	16.9%
Small Second Quarter	15.2%
Small Third Quarter	15.5%
Small Fourth Quarter	15.3%

Note beginning in October 2010, MVP Health Insurance Company began reducing the number of small group product options so to better manage this block of business. To the extent groups still remain (as of 6/15/11) in some of these products until their next renewal date, they are not included in the above calculation of the average 2012 rate change because there is no 2012 rate being filed for these plans. There are a total of 2758 such subscribers renewing after 7/1.

A summary of the Quarterly rate changes for the base medical policies is as follows:

Market Segment	Average Quarterly Change	Minimum quarterly change	Maximum quarterly change
Small 1Q12/4Q11	9.2%	0.4%	27.4%
Small 2Q12/1Q12	2.25%	2.25%	2.25%
Small 3Q12/2Q12	2.25%	2.25%	2.25%
Small 4Q12/3Q12	2.25%	2.25%	2.25%

These averages are based on a weighted average of membership as of 6/15/11.

Average quarterly rate changes for the prior 8 rolling rate tables is as follows:

	Qrtly Change
4Q09/1Q10	21.3%
2Q10/1Q210	2.2%
3Q10/2Q10	2.9%
4Q10/3Q10	2.2%
1Q11/4Q11	7.6%
2Q11/1Q11	2.2%
3Q11/2Q11	2.9%
4Q11/3Q11	2.3%

These averages were derived from the database used to compute standardized premiums for Exhibit 7 and are based on average subscribers in force during 2010. Subscribers enrolled in plans that were retired between 10/1/10 and 12/1/11 are included in these averages assuming the quarterly changes that would have been in place had the plans not been retired.

Reasons for Rate Changes

The expected loss ratio incorporated in the existing 2011 rate table was 82.25%. The expected loss rate incorporated into the proposed 2012 rate tables is 82%. This change impacted the proposed rate changes by approximately +0.3%. The pricing loss ratio was reduced to the minimum permissible by the New York Department of Insurance and the allocation of the components of the non claim expense loads was changed from last year to better align actual expenses with the loads. The general administrative load changed from 9.0% of premium to 9.5% of premium, the broker load changed from 4% to 4.25% and the profit charged was reduced to reflect the balancing item. An increase in the administrative load was necessary to more adequately fund MVP's administrative budget given membership losses, and benefit buy downs experienced by groups and the broker expense was increased slightly to reflect more business in the higher commissioned high deductible products and a general underfunding of the broker expense in the premium rates.

No changes were made to MVP's premium load ratios. The Single Conversion Factor used to convert the per member revenue requirement into per contract rates is updated each year based on the underlying census behind the experience data used for rating. This SCF increased by 0.7%. This change however, does not directly translate to higher premium rates. The purpose of the SCF is to remain neutral with respect to total revenue generated regardless of whether you charge per member premiums or per contract premiums. The SCF will change based on the mix of membership in the experience period. In theory, if the SCF increased, there was a corresponding decrease in the average per member revenue requirement.

The rate increases being proposed reflect both the adequacy of the existing rate tables as well anticipated changes in the cost and use of care and changes in non claim expenses as discussed above. The adequacy of the existing rate table (or the variance in the 2011 estimated pmpm incurred claim cost) can be estimated based on analyzing emerging 2011 claim data (but has it's limitations early in the year) or by essentially re-pricing 2011 rates using the most current pricing cost data. MVP used the 2012 rating data and pricing model to project what the rate increases would be if we were developing 2011 premium rates instead of 2012 premium rates. This was accomplished by simply trending the experience period claims only 12 months instead of the full 24. Comparing the average rate increase from this scenario with the proposed average rate increases for 2012 is a good approximation of the portion of the 2012 requested increases resulting from 'variance in 2011 estimated pmpm incurred claim costs". This exercise demonstrates that, on average across all the rating regions and products, about 8% of the 2012 proposed rate increase is due to a 'correction' of the 2011 estimated pmpm incurred claim costs. However, recall that the New York Department of Insurance reduced MVP's 2011 proposed rate increases by 7% across the board and also imposed a maximum increase of 24% for any given benefit schedule. So, essentially, the estimate of the 2011 total incurred claim costs was not materially understated and if MVP had been granted the requested 2011 rate increases, increases requested for this year would be closer to trend.

Included in this rate increase proposal is a change in the Rochester premium relativity compared to the rest of MVPs rating regions. MVP still maintains that our premium rate setting is based on community rating the entire New York State service area; however, changes in the cost of providing services within each rating region may require adjustments to the regional relativities. MVP compares allowed cost data by rate region for the entire New York commercial insured population as a proxy for underlying cost differences by region. Regional average pmpm allowed claim data net of high cost claims (claims over $20,000) is compared to the average pmpm for all the rate regions to evaluate the appropriateness of the regional premium relativities. Claim amounts over $20,000 per member are tossed out of each region in order to remove the underlying demographic and morbidity differences that may exist between the regions. The $20,000 threshold is consistent with that of the Specialized Medical Conditions Pool.

Calendar year 2010 allowed cost data by rate region was trended 24 months to the 2012 rating period using regionally specific trend factors. The regional unit cost trends are based on both known and anticipated contract changes within each region. Average utilization increases across all rate regions are used. Projected 2012 pmpm costs by rate region are the basis for the decision to make a change to the Rochester relativity. The Rochester region was the only region that suggested a material change was needed. The impact of this change on the proposed rate increases is the Rochester increases are approximately 2.2% higher than the rest of the rate regions. As a result, the relationship amongst the other regions was not changed with one exception.

Within the Central Rate region for MVPHIC, the region is subdivided into 3 distinct rate regions: Central I, Central II and Central III. For the past couple of years, MVP has not differentiated the premium rates charged in these 3 Central rate regions however, there are justifiable differences in the cost of providing medical services (ie. provider contracting) between these regions. For 2012, MVP would like to once again reflect these differences in the premium rates charged. The cost of care in Central I is expected to be equal to the average of the 3 Central regions while Central II is expected to be 3% less expensive and Central III 5% more expensive. The derivation of the Central I, II and III factors as well the rest of the regions is illustrated in Attachment A. Currently MVPHIC has only 660 small group members enrolled in Groups rated in the Central III region.

The methodology illustrated in Attachment A is outlined below:

Step 1. The projected 2012 average pmpm cost by rate region was used to calculate regional cost factors for each rating pool relative to the average pmpm in each rating pool with the exception of the 4 smallest rate regions (with respect to member month exposure). For these regions, the cost factors suggested by the data were replaced with cost factors computed such that the premium relationship in these regions was maintained from 2011 with another specific rate region. North and Buffalo were relative to East and New York Metro, Long Island and NYC regions were relative to Mid Hudson. This was necessary due to the small amount of membership in these rate regions and the large fluctuation in the average costs that results.
Step 2. These cost factors were normalized for each rating pool based on the distribution of membership by rate region in each pool.
Step 3. Actual 2011 regional cost relativities were adjusted such that they normalize to a 1.0 using the 2010 distribution of membership by rating pool.
Step 4. Proposed 2012 regional cost relativities are presented based on the decision to maintain the regional relativities in all but the Rochester rating region.
Step 5. The proposed 2012 regional cost relativities are adjusted such that they normalize to a 1.0 using the 2010 distribution of membership by rating pool.
Step 6. Regional cost relativities for the 3 rating regions within the Central rate region were derived based on comparing each Central region projected 2012 average pmpm to the Central average overall. Cost relativities were rounded to 2 decimal places and regional area factors were derived based on these cost relativities compared to the aggregate area factor derived for the Central region as a whole.

Source Data for Claim Projections

Actual historical allowed claims for calendar year 2010 dates of service with 3 months of paid claim run-out and completed using June 2011 INBR estimates is the basis for the rate development. The small group policies are rated together as one community pool based on the historical claims experience specific to those policies. This small group block was assumed to be fully credible for rating. The total member months of exposure in the 2010 experience period was approximately 980,000. This is considered fully credible by the NAIC and HHS. No adjustments have been made to the experience period data other than the application of trend to project to the rating period. Included in the attachments to this filing are exhibits illustrating the actual historical claims as well as the projection of these claims to the rating period for the first rolling rate table. Included in these exhibits are the associated unit cost and utilization trends assumed in this projection. The unit cost and utilization trends reflect the average of these trends across all rating regions combined. The detailed trends by rating region are illustrated in Attachment A. The unit cost

trends by rating region are based on both known and anticipated contract negotiations with our provider base. The utilization trends reflect anticipated overall average trends for the commercial block of business.

Derivation of Premium Rates

Net Required Revenue (NRR) requirements were derived for each unique benefit offering using MVPs internally developed benefit relativity model. The NRR includes fee for service claim cost projections for each benefit schedule as well other medical expenses such as capitation payments, NYS HCRA and CLA taxes, reinsurance expense, expected SMC pool liabilities (small group only), MVP wellness member incentive payments, and Provider Incentive payments. The HCRA surcharge and SMC expenses were added to the NRR for each benefit schedule as a % of the FFS claim expense. The other expenses were added on as a flat per member expense. This is a change from last year's premium development where HCRA and SMC liabilities were added to each plan as a flat per member expense. The change to a % of claims load better aligns the expected cost by benefit schedule as both of these liabilities are paid claim based. The assumed liability for the 2012 SMC pool result is 1.5% of medical expenses. This is approximately the amount of expense incurred for the 2010 pool results for all of MVP Health Care small group policies combined. The 2010 liability was the lowest one for MVP small group since the Pools inception so this is an aggressive assumption for this unknown future expense. The total flat expense load added to each benefit schedule is equal to $16.16 pmpm.

MVP significantly improved the 2011 version of the Benefit Relativity Pricing Model for 2012 rate setting. Two specific improvements that made a material change in the premium relativities by benefit plan include:

1) change from a specific service based approach to applying utilization adjustments to a top down aggregate 'slope' approach. The 'slope' approach looks at each benefit schedule's total net/allowed ratio in determining the utilization adjustments. Previously, the pricing model compared the member cost sharing for each specific service (examples: Inpatient, Outpatient surgery, ER, Office Visit) to determine utilization adjustments. This approach can lead to pricing results that aren't aligned well with the overall value of each unique benefit offering. The slope method ensures that the projected NRR for every unique benefit schedule is rational in relation to the others.

2) determination of the appropriate copay revenue to assume for a given service when copays are paid by members was refined based on a study of actual member encounter frequency by service category. In the previous model, the amount of copay revenue assumed to be collected was based on looking at the ratio of the actual copays collected relative to the quantity of services captured. This was a reasonable approach when the product portfolio was typical HMO style benefit plans. However, with the growth of products that utilize deductible/coinsurance cost sharing methods, the method failed to give enough value to copay revenue. The split copay (lower PCP vs. SCP copays) products in MVP's HMO portfolio require more cost sharing for certain physician services compared to the non split copay products. These products require both a physician and facility copay for specific services. The 2011 model was not appropriately capturing the value of this additional copay revenue for these plans and hence the rate increases for these benefit schedules are suppressed a bit for 2012.

The result of the new changes described above is that MVP once again has rate increases that vary considerably by benefit plan. MVP anticipates that this will be the last year that a material 'realignment' of our premium rate relativities will be necessary. Also contributing to the varied increases between the benefit plans is the fact many of the benefit plans did not receive the desired rate increases in 2011 due to the limitation of a maximum permissible increase on any one benefit plan be 24% by the Department of Insurance.

Net required revenue projections for optional prescription drug riders were similarly derived using historical allowed claim cost data for the period May 2010 through April 2011. Pharmacy claims are assumed to be complete so no IBNR is added. The historical claims are trended to the 1Q2012 rolling rate period using assumed unit cost and utilization trends. The trend assumptions reflect input from MVPs pharmacy vendor as well as renegotiated contract terms with the vendor. Expected net pmpm claim costs are calculated using MVP's internally developed pharmacy benefit relativity pricing model. Actual

historical and projected allowed claim costs as well as an example of the calculation of the projected net paid claim cost are included in the attached exhibits.

First quarter 2012 premium rates were developed starting with the 2012 projected NRRs by benefit plan for both the based medical plans and the prescription drug riders. NRR's were multiplied by the derived regional premium relativity factors (based medical rates only) and then non claim expense loads were added to cover costs associated with administration, broker expense, surplus contribution, premium taxes (if applicable) and bad debt. The gross required revenues per member per month were then converted to per contract premium rates using the calculated single conversion factors and load ratios. These assumptions, the derivation of the single conversion factors, the application of the area factors and the calculation of the premium rates by tier are all illustrated in the rate filing exhibits. Second, third and fourth quarter premium rates were derived by applying a quarterly trend equal to 2.25%. This quarterly trend is consistent with the increases to the rolling rate tables in 2011 and reflects approximately 3 months of the projected annual trend rate. A summary of these non claim expense loads is included in the rate filing Exhibit S. The loads are expressed both as a percent of gross premium and as an average pmpm relative to the current average premium. Regional pmpm equivalents can be derived by multiplying the average pmpm by the regional area factors illustrated in Attachment A. The General Administrative load equal to 9.5% of gross premium includes approximately 1% for administrative expenses associated with activities that improve health care quality as defined in the NAIC Annual Statement Supplemental Health Care Exhibit. In addition, the 9.5% is intended to cover the expenses associated with regulatory authority licenses and fees, including the New York State 332 assessment. In 2010, the 332 assessment was approximately 0.43% of the gross premiums collected.

Standardized Premium Computation

The Standardized Premiums reported in Exhibit 7 were computed for both calendar year 2009 and 2010 earned premiums using a database of earned premiums by renewal quarter and rate region for each benefit schedule offered during the experience periods of 2009 and 2010. The actual earned premiums for each benefit schedule/renewal quarter/rate region were adjusted to reflect the rate increases that have been filed and approved over the period beginning in 2008 through 4Q2011. For benefit schedules that have been retired during this time period, the rate increases that would have been filed had the schedules not been retired were used.

Benefit Schedules Retired Since 2011 Prior approval rate filing

The following list of benefit specific policy forms are being retired prior to 1/1/12 and therefore aren't included in the rate tables in this rate adjustment filing:

E0014S	E0296S	P0213S
E0015S	E0300S	EA013
E0017S	P0016S	EA015
E0021S	P0028S	PA001
E0025S	P0040S	PA013
E0027S	P0052S	PA015
E0029S	P0064S	NEHD-09S
E0033S	P0076S	NPHD-09S
		E0305S

Actuarial Certification

This filing is in compliance with all applicable laws and regulations of the State of New York. It is in compliance with ASOP No. 8. The expected loss ratio incorporated into the proposed rate tables meets the minimum requirement of the State of New York by permitted aggregation of policy forms within each permitted aggregation of rating regions. The benefits are reasonable in relation to the premiums charged and the rates are not unfairly discriminatory. The expected loss ratio incorporated into these rate tables is 82%.

Date

EXHIBIT 1: GENERAL INFORMATION ABOUT THE RATE ADJUSTMENT SUBMISSION

A. Insurer Information:

MVP Health Insurance, Co	Article 42	✓ For Profit ☐ Non Profit	11125
Company submitting the rate adjustment request	Type of insurer		Company NAIC Code

625 State Street, Schenectady, NY 12305

Company mailing address

B. Contact Person: [redacted] | [redacted] Contact phone number | [redacted] Contact Email address

C. Actuarial Contact (If different from above): [redacted] Actuary name, title | [redacted] Actuary phone number | [redacted] Actuary Email address

D. New Rate Information (See Note #1):

Groups renewing between Jan 1 - Dec 31, 2012	1/1/2012	MVPH-127319750
New rate applicability period	New rate effective date	SERFF Tracking Number

E. Market segments included in filing (e.g., Large Group, Small Group, Sole Proprietors, Individual, Healthy NY, Medicare Supplement): Small Group, Sole Proprietors

F. Provide responses for the following questions:

	Response
1. Does this filing include any revision to contract language that is not yet approved? See note (2).	No
2. Are there any rate filings submitted and not yet approved that if approved would affect the rate tables included in this rate filing?	No
3. Have the initial notices already been sent to all policyholders and contract holders affected by this rate submission? Indicate what cohort of policyholders received the initial notice and the mailing date when the initial notice was sent. See note (3).	Yes. Notices were mailed to all small/sole proprietor employer groups with Article 42 products included in this in rate application on 7/14/2011
4. Have all the required exhibits been submitted with this rate application? If any exhibit is not applicable, has an explanation been provided why such exhibit is not applicable?	Yes.

Notes:

(1) It is recommended that a rate filing application subject to §3231(e)(1) or §4308(c) of the New York Insurance Law be submitted at least 150 days before the proposed effective date.
It is recommended that a rate adjustment application not be submitted more than 180 days prior to the proposed effective date.
It is recommended that a rate adjustment application not be submitted less than 125 days prior to the proposed effective date since there is a high probability that a decision on such a filing will not occur in time for the company to send the required final notice to the first renewal cohort affected by the rate adjustment filing.

(2) A rate adjustment filing submitted pursuant to §3231(e)(1) or §4308(c) of the New York Insurance Law should **not** include any revision to existing contract language or include new contract language. Any rate filing in connection with a form filing, a new form or a revision to an existing form, must be a separate filing from the rate adjustment filing.

Use the following SERFF filing types for rate adjustment filings:

* For a rate adjustment filing pursuant to §3231(e)(1): Rate Adjustment pursuant to §3231(e)(1)
* For a rate adjustment filing pursuant to §4308(c): Rate Adjustment pursuant to §4308(c)
* For all other prior approval filings: Normal Pre-Approval

(3) §3231(e)(1) and §4308(c) of the New York Insurance Law require that the initial notice to policyholders/subscribers/contract holders be sent on or before the date the rate adjustment application is submitted to the Insurance Department.

EXHIBIT 2: FOIL EXEMPTION REQUEST

Instructions:

1. **A request that the New York State Insurance Department ("Department") exempt from public disclosure any information included in this submission, pursuant to New York Public Officers Law § 87(2)(d) (the "Trade Secret/Competitive Injury Exemption"), must be made by completing this exhibit.**
2. **A request that the Department apply the Trade Secret/Competitive Injury Exemption to any information contained in this submission that is not included in this exhibit may not be honored by the Department.**
3. **A request that the Department apply the Trade Secret/Competitive Injury Exemption to any information included in this submission must be accompanied by a written statement of necessity that:**
   - **(a) identifies the specific parts of the submission for which the Company believes the Trade Secret/Competitive Injury Exemption should be applied;**
   - **(b) specifies the reasons why the submission, or parts thereof, should be exempt from disclosure pursuant to the Trade Secret/Competitive Injury Exemption; and**
   - **(c) where applicable, indicates where redactions would suffice to protect the exempt information.**
4. **In light of the open government purpose underlying FOIL, the Department favors redacting portions of documents, and disclosing the balance of such documents, as opposed to withholding documents in their entirety, where such redactions will suffice to protect the exempt information. Therefore, the Company should submit to the Department both the original document and a redacted version of the original document, which omits or blocks the information it wishes to exempt from disclosure. (The Department will accept the redacted version of the original document within one week after original filing was submitted.)**

Statement of Necessity

MVP requests that the Department apply the Trade Secret/Competitive Injury exemption to the following documents ("MVP Confidential Rate Filing Data") which are contained in this MVP rate filing:

- Plan Designs and Base Required Net PMPM
- Conversion Factor Calculator
- Retention Items and Quarterly Trends
- Claim Projections
- Pricing Example
- Pharmacy Rider Designs and Base Required Net PMPM
- Pharmacy Projection
- Actuarial Memorandum
- Attachment A – Development of the rate region premium relativities
- Required NYS rate filing Exhibits 1,2, 4-7
- Broker Payment Schedule
- Any future SERFF correspondence involving questions and answers to the rate submissions
- Any required SERFF checklist responses

As an initial matter, components of the MVP rate filing, specifically the MVP Confidential Rate Filing Data listed above, are exempt from disclosure pursuant to New York Public Officers Law § 87(2)(d), which provides that an agency:

> may deny access to records or portions thereof that …are trade secrets or are submitted to an agency by a commercial enterprise or derived from information obtained from a commercial enterprise and which if disclosed would cause substantial injury to the competitive position of the subject enterprise.

N.Y.Pub.Off.Law §87(2)(d). Each of the listed items falls within this exemption and should not be disclosed by the Department. The MVP Confidential Rate Filing Data constitutes trade secrets which if disclosed would cause substantial competitive injury to MVP, and accordingly, is exempt from disclosure in its entirety.

All of the proprietary information in the rate filing constitutes trade secrets and is exempt from disclosure pursuant to New York Public Officers Law § 87(2)(d). As referenced above, New York Public Officers Law § 87(2)(d) provides that an agency "may deny access to records or portions thereof that … are trade secrets or are submitted to an agency by a commercial enterprise or derived from

information obtained from a commercial enterprise and which if disclosed would cause substantial injury to the competitive position of the subject enterprise." For purposes of FOIL, a trade secret is defined as "any formula, pattern, process … or compilation of information that is not published or divulged and which gives an advantage over competitors who do not … have access to such data." 6 N.Y.C.R.R. § 616.7(c)(2)(v) (quoted in Sunset Energy Fleet, LLC v. Dep't of Envtl Conservation, 255 A.D.2d. 865, 867 (3d Dep't 2001). Courts have held that insurer's documents are exempt from disclosure under FOIL if the materials contain proprietary information developed at the expense of the insurer, kept confidential by the insurer, and of substantial commercial value to the insurer. See, e.g. Newman v. Dinallo, 22 Misc. 3d 1134(A), 881 N.Y.S.2d 365 (Table), 2009 WL 637697, at *3(Sup. Ct. Nassau County, Feb. 10, 2009). As discussed in detail below, all of the listed pages meet this definition of a "trade secret," and thus, they are exempt from disclosure pursuant to New York Public Officers Law § 87(2)(d).

First, the MVP Confidential Rate Filing Data includes pricing methodologies and models, product benefit characteristics and designs, claims projections and other source data. This information is competitively important and is considered confidential by MVP. MVP works diligently to protect the confidential nature of this data and this unique combination of different categories of data collectively is not currently available to competitors or consumers. MVP relies upon this data collectively when developing its product offerings and benefit designs. Releasing the MVP Confidential Rate Filing Data would expose MVP's product strategies and analysis that drive its product offerings and innovations.

Second, the MVP Confidential Rate Filing data is of substantial commercial value to MVP. Disclosure of any of this valuable proprietary information to the requestor and the public would cause substantial injury to MVP's competitive position. Significantly, to justify a FOIL exemption, the Department is not required to establish actual competitive harm in relying on the exemption, but rather it only needs show actual competition and the likelihood of substantial injury. See *Encore College Bookstores, Inc.*, 87 N.Y.2d at 421. MVP operates in a competitive marketplace and the likelihood of harm to MVP can be demonstrated where there will be an "economic windfall conferred upon the requestor" by receiving the requested information "at the mere cost of FOIL fees." *Id.* Furthermore, competitive damage can be shown where disclosure is the sole means by which competitors can obtain the requested information. *Id.* at 420. In this case, the likelihood of substantial injury to MVP is evident by MVP's investment in, and the economic value of, the otherwise confidential information that would be available if the MVP Confidential Rate Filing Data is released to a requestor and ultimately to the public.

The MVP Confidential Rate Filing Data constitutes confidential information which provides an advantage over competitors who do not have access to such data. They also contain proprietary information developed at MVP's expense, kept

confidential by MVP and which carries substantial commercial value to MVP. Therefore, MVP Confidential Rate Filing Data meets the definition of a "trade secret" as prescribed by 6 N.Y.C.R.R. § 616.7(c)(2)(v) (quoted in Sunset Energy Fleet, LLC v. Dep't of Envtl Conservation, 255 A.D.2d. 865, 867 (3d Dep't 2001) and Newman v. Dinallo, 22 Misc. 3d 1134(A), 881 N.Y.S.2d 365 (Table), 2009 WL 637697, at *3 (Sup. Ct. Nassau County, Feb. 10, 2009) and they clearly warrant protection from disclosure under FOIL.

The MVP Confidential Rate Filing Data contains proprietary information that is not available outside of MVP and the Department and, if released, would cause MVP to suffer a severe competitive disadvantage. Furthermore, MVP considers its product benefit designs a competitive advantage in the marketplace. MVP developed its current suite of products based on over thirty years of experience as a regional not-for-profit insurer. MVP's products are based on regional differences related to demographics, historical price range tolerance, benefit preferences, utilization and region-specific competitive offerings. Each product's combination of different benefits and cost-sharing is therefore unique to MVP and these products differentiate MVP within its service area. The disclosure of the MVP Confidential Rate Filing Data will weaken MVP's ability to differentiate itself in the market allowing competitors to take advantage of MVP's prior experience and investments. This will allow MVP's current competitors, as well as insurers without a presence or understanding of the market purchasing characteristics in these regions, to use this information to effectively compete with MVP without investing the same resources in development.

Additionally, MVP's annual marketing campaigns are released during the fall open enrollment season. The disclosure of the MVP Confidential Rate Filing Data will allow other competitors the ability to review and analyze MVP's rates and benefits prior to the fall open enrollment season. For example, the combination of the benefit and rating data will provide insight into how MVP prices its products. This will allow competitors to more accurately predict profitable benefits and rates for the coming year and gain an unfair advantage over MVP. This could directly impact MVP's profits and enrollment, as competitors will be in a position to replicate MVP's products and prices prior to its selling season. The underlying methodology that MVP utilizes in setting its rates if disclosed would provide competitors with insight into MVP's pricing strategy. The disclosure of the underlying pricing methodology is not relevant or helpful to consumers in evaluating coverage options and for the aforementioned reasons is harmful to the competitive position of MVP.

Not only is the MVP Confidential Rate Filing Data collectively and independently confidential, but when combined with other information available in the marketplace it could cause additional harm to MVP. For example, minimum loss ratio ("MLR") information is or will be available at the federal or state level and when combined with the Confidential Source Data could be used by competitors to estimate MVP's profits or expenses for any given product. MVP's profit and

administrative expenses are highly confidential and if available to competitors would be harmful to MVP.

Finally, and as important, the Department's disclosure of any of the MVP Confidential Rate Filing Data would be contrary to the very purpose of FOIL. "The purpose of FOIL . . . is to shed light on government decision making, which in turn both permits the electorate to make informed choices regarding governmental activities and facilitates exposure of waste, negligence and abuse." *See, Encore Coll. Bookstores, Inc. v. Auxiliary Serv. Corp. of State Univ. of N.Y. at Farmingdale* 87 N.Y.2d 410, 663 N.E.2d 302, 639 N.Y.2d 990 (1995). Likewise, the purpose of the disclosure exception contained in New York Public Officers Law § 87(2)(d) is "to protect businesses from the deleterious consequences of disclosing confidential commercial information, so as to further the State's economic development efforts and attract business to New York." *Id.* at 420. Here, disclosure of the MVP Confidential Rate Filing Data would in no way advance the purpose of shedding light on government decision-making for the benefit of the electorate. Instead, such disclosure would significantly compromise MVP's ability to effectively compete in the current market thereby threatening New York State's economic development efforts. Not only would disclosure of the MVP Confidential Rate Filing Data compromise MVP's future business opportunities and severely jeopardize MVP's ability to maintain its existing business.

For the reasons set forth above, MVP requests that the MVP Confidential Rate Filing Data set forth above and designated as "FOIL Exempt" in the rate filing, be withheld from disclosure. In the event the Department disagrees with MVP's analysis or any portion of it, MVP would like an opportunity to discuss the issue with Department representatives. In addition, if the Department concludes that any pages of the rate filing are not exempt from disclosure, MVP respectfully requests notification of this decision immediately to allow adequate time for MVP to redact portions of those pages, which will take time and resources.

Exhibit #3
Narrative Summary

Company Name: MVP Health Insurance Company
NAIC Code: 11125
SERFF Tracking #: MVPH-127319750

MVP Health Insurance Company offers a full range of EPO and PPO products to Small employer groups and Sole Proprietors. MVP has filed with the NYS Insurance Department a request to change the current premium rates it charges to groups for policy effective dates between 1/1/2012 and 12/1/12. The requested increases for the Base Medical plan offerings are summarized in the table on page 2.

The total number of covered members affected by this rate adjustment filing is approximately 70,000.

Premium rate increases in general are necessary due to increases in the total cost of medical services provided to MVP's insured members. The increasing cost of health care is the primary reason for MVP's proposed rate increases.

Several factors are responsible for these increased health care costs including, but not limited to, increases in the use of medical services, increases in provider (hospital and physician) charges for covered services, increased usage and cost of covered prescription drugs and increases in the cost of other covered medical services.

Increases in the use of care can be attributed to an aging population, a withdrawal of healthy individuals from the insurance marketplace, and an overall decline in the health status of the insured population.

The increases outlined above are intended to match as closely as possible MVP's expected cost by product with the premium received by product.

Other factors contributing to the total cost of health insurance:
While not a component of our proposed rate increases, several other factors contribute to the total cost of health insurance. These include, state taxes, surcharges and assessments paid by health insurers, state coverage mandates and expansion of coverage and benefits due to the Federal health care reform law. A sustainable health insurance system requires health care cost containment, reform of the health care delivery system and recognition of the impact that benefit expansions and taxes have on the overall cost of health benefits.

Exhibit #3
Narrative Summary

Summary of Proposed Rate Adjustments by Rate Region/Product Category

		Rating Region	
Product Type	Annual Deductible	Central II	Central III
EPO/PPO	none	8.8% - 12.7%	17.8% - 22.0%

Company NAIC Code

MVPH-127319750
SERFF tracking number

=> Use this Exhibit for the policy forms/products included in the rate adjustment submission.

=> Submit separate exhibits by market segment such as Large Group, Small Group, Sole Proprietor, Individual, etc. If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported.

Submit separate exhibits by rating region if the rate changes differ by rating region.

Submit separate exhibits for each rolling rate table of a rolling rate structure.

=> This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> If one policy form is used for more than one products, then a separate row should be entered for each policy form/product name/product street name combination.

=> The format of this exhibit is discussed below and should be tailored to the specific rate filing submission. Extend the worksheet to add more rows or tabs as needed.

A. BASE MEDICAL PLAN

Market Segment: **Small Group**

Rating Region: **Central I**

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.

- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

=> Use this Exhibit for the policy forms/products included in the rate adjustment submission.

=> Submit separate exhibits by market segment such as Large Group, Small Group, Sole Proprietor, Individual, etc. If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported.
Submit separate exhibits by rating region if the rate changes differ by rating region.
Submit separate exhibits for each rolling rate table of a rolling rate structure.

=> This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> If one policy form is used for more than one products, then a separate row should be entered for each policy form/product name/product street name combination.

=> The format of this exhibit is discussed below and should be tailored to the specific rate filing submission. Extend the worksheet to add more rows or tabs as needed.

A. BASE MEDICAL PLAN

Market Segment: **Small Group**

Rating Region: **Central I**

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.
- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

=> Use this Exhibit for the policy forms/products included in the rate adjustment submission.

=> Submit separate exhibits by market segment such as Large Group, Small Group, Sole Proprietor, Individual, etc. If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported.
Submit separate exhibits by rating region if the rate changes differ by rating region.
Submit separate exhibits for each rolling rate table of a rolling rate structure.

=> This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> If one policy form is used for more than one products, then a separate row should be entered for each policy form/product name/product street name combination.

=> The format of this exhibit is discussed below and should be tailored to the specific rate filing submission. Extend the worksheet to add more rows or tabs as needed.

A. BASE MEDICAL PLAN

Market Segment: **Small Group**

Rating Region: **Central II**

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.
- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

Non Rolling Rate Product

* The effective period of a new rolling rate may vary depending on the rolling structure (e.g., "January - March 2012" for a quarterly rolling rate structure.)

B. DRUG RIDERS

Market Segment: **Small Group**

Rating Region: **Central II**

=> Provide a list of proposed rate changes for drug riders available with base medical products.

=> The "proposed percentage rate change" is just for the drug riders available with the indicated base medical product and excludes the impact of the base medical plan rates and non-drug riders.

The lowest, highest, and weighted average are just among the drug riders available to the indicated base medical product.

=> This is for the traditional drug riders, but not for minor drug related riders such as, the inclusion of oral contraceptives.

=> Use this Exhibit for the policy forms/products included in the rate adjustment submission.

=> Submit separate exhibits by market segment such as Large Group, Small Group, Sole Proprietor, Individual, etc. If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported.
Submit separate exhibits by rating region if the rate changes differ by rating region.
Submit separate exhibits for each rolling rate table of a rolling rate structure.

=> This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> If one policy form is used for more than one products, then a separate row should be entered for each policy form/product name/product street name combination.

=> The format of this exhibit is discussed below and should be tailored to the specific rate filing submission. Extend the worksheet to add more rows or tabs as needed.

A. BASE MEDICAL PLAN

Market Segment: **Small Group**

Rating Region: **Central Ill**

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.
- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

Non Rolling Rate Product

* The effective period of a new rolling rate may vary depending on the rolling structure (e.g., "January - March 2012" for a quarterly rolling rate structure.)

B. DRUG RIDERS

Market Segment: **Small Group**

Rating Region: **Central III**

=> Provide a list of proposed rate changes for drug riders available with base medical products.

=> The "proposed percentage rate change" is just for the drug riders available with the indicated base medical product and excludes the impact of the base medical plan rates and non-drug riders.

The lowest, highest, and weighted average are just among the drug riders available to the indicated base medical product.

=> This is for the traditional drug riders, but not for minor drug related riders such as, the inclusion of oral contraceptives.

SERFF tracking number

=> Use this Exhibit for the policy forms/products included in the rate adjustment submission.

=> Submit separate exhibits by market segment such as Large Group, Small Group, Sole Proprietor, Individual, etc. If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported.
Submit separate exhibits by rating region if the rate changes differ by rating region.
Submit separate exhibits for each rolling rate table of a rolling rate structure.

=> This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> If one policy form is used for more than one products, then a separate row should be entered for each policy form/product name/product street name combination.

=> The format of this exhibit is discussed below and should be tailored to the specific rate filing submission. Extend the worksheet to add more rows or tabs as needed.

A. BASE MEDICAL PLAN

Market Segment: **Small Group**

Rating Region: **Buffalo**

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.
- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

Non Rolling Rate Product

* The effective period of a new rolling rate may vary depending on the rolling structure (e.g., "January - March 2012" for a quarterly rolling rate structure.)

B. DRUG RIDERS

Market Segment: **Small Group**

Rating Region: **Buffalo**

=> Provide a list of proposed rate changes for drug riders available with base medical products.

=> The "proposed percentage rate change" is just for the drug riders available with the indicated base medical product and excludes the impact of the base medical plan rates and non-drug riders.

The lowest, highest, and weighted average are just among the drug riders available to the indicated base medical product.

=> This is for the traditional drug riders, but not for minor drug related riders such as, the inclusion of oral contraceptives.

=> Use this Exhibit for the policy forms/products included in the rate adjustment submission.

=> Submit separate exhibits by market segment such as Large Group, Small Group, Sole Proprietor, Individual, etc. If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported.
Submit separate exhibits by rating region if the rate changes differ by rating region.
Submit separate exhibits for each rolling rate table of a rolling rate structure.

=> This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> If one policy form is used for more than one products, then a separate row should be entered for each policy form/product name/product street name combination.

=> The format of this exhibit is discussed below and should be tailored to the specific rate filing submission. Extend the worksheet to add more rows or tabs as needed.

A. BASE MEDICAL PLAN

Market Segment: **Small Group**

Rating Region: **Rochester**

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.
- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

* The effective period of a new rolling rate may vary depending on the rolling structure (e.g., "January - March 2012" for a quarterly rolling rate structure.)

B. DRUG RIDERS

Market Segment: **Small Group**

Rating Region: **Rochester**

=> Provide a list of proposed rate changes for drug riders available with base medical products.

=> The "proposed percentage rate change" is just for the drug riders available with the indicated base medical product and excludes the impact of the base medical plan rates and non-drug riders.

The lowest, highest, and weighted average are just among the drug riders available to the indicated base medical product.

=> This is for the traditional drug riders, but not for minor drug related riders such as, the inclusion of oral contraceptives.

=> Use this Exhibit for the policy forms/products included in the rate adjustment submission.

=> Submit separate exhibits by market segment such as Large Group, Small Group, Sole Proprietor, Individual, etc. If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported.
Submit separate exhibits by rating region if the rate changes differ by rating region.
Submit separate exhibits for each rolling rate table of a rolling rate structure.

=> This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> If one policy form is used for more than one products, then a separate row should be entered for each policy form/product name/product street name combination.

=> The format of this exhibit is discussed below and should be tailored to the specific rate filing submission. Extend the worksheet to add more rows or tabs as needed.

A. BASE MEDICAL PLAN

Market Segment: **Small Group**

Rating Region: **Western NY**

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.
- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

=> Use this Exhibit for the policy forms/products included in the rate adjustment submission.

=> Submit separate exhibits by market segment such as Large Group, Small Group, Sole Proprietor, Individual, etc. If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported.
Submit separate exhibits by rating region if the rate changes differ by rating region.
Submit separate exhibits for each rolling rate table of a rolling rate structure.

=> This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> If one policy form is used for more than one products, then a separate row should be entered for each policy form/product name/product street name combination.

=> The format of this exhibit is discussed below and should be tailored to the specific rate filing submission. Extend the worksheet to add more rows or tabs as needed.

A. BASE MEDICAL PLAN

Market Segment: **Small Group**

Rating Region: **Midhudson**

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.
- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

Non Rolling Rate Product

Policy Form #	Product Name	Product Street Name	Effective Date of New Rate	Proposed Percentage Rate Change		
				Lowest	Highest	Weighted Avg

Rolling Rate Product

* The effective period of a new rolling rate may vary depending on the rolling structure (e.g., "January - March 2012" for a quarterly rolling rate structure.)

B. DRUG RIDERS

Market Segment: **Small Group**

Rating Region: **Midhudson**

=> Provide a list of proposed rate changes for drug riders available with base medical products.

=> The "proposed percentage rate change" is just for the drug riders available with the indicated base medical product and excludes the impact of the base medical plan rates and non-drug riders.

The lowest, highest, and weighted average are just among the drug riders available to the indicated base medical product.

=> This is for the traditional drug riders, but not for minor drug related riders such as, the inclusion of oral contraceptives.

=> Use this Exhibit for the policy forms/products included in the rate adjustment submission.

=> Submit separate exhibits by market segment such as Large Group, Small Group, Sole Proprietor, Individual, etc. If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported.
Submit separate exhibits by rating region if the rate changes differ by rating region.
Submit separate exhibits for each rolling rate table of a rolling rate structure.

=> This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> If one policy form is used for more than one products, then a separate row should be entered for each policy form/product name/product street name combination.

=> The format of this exhibit is discussed below and should be tailored to the specific rate filing submission. Extend the worksheet to add more rows or tabs as needed.

A. BASE MEDICAL PLAN

Market Segment: **Small Group**

Rating Region: **Long Island**

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.
- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

=> Use this Exhibit for the policy forms/products included in the rate adjustment submission.

=> Submit separate exhibits by market segment such as Large Group, Small Group, Sole Proprietor, Individual, etc. If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported.
Submit separate exhibits by rating region if the rate changes differ by rating region.
Submit separate exhibits for each rolling rate table of a rolling rate structure.

=> This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> If one policy form is used for more than one products, then a separate row should be entered for each policy form/product name/product street name combination.

=> The format of this exhibit is discussed below and should be tailored to the specific rate filing submission. Extend the worksheet to add more rows or tabs as needed.

A. BASE MEDICAL PLAN

Market Segment: **Small Group**

Rating Region: **NYC**

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.
- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

SERFF tracking number

=> Use this Exhibit for the policy forms/products included in the rate adjustment submission.

=> Submit separate exhibits by market segment such as Large Group, Small Group, Sole Proprietor, Individual, etc. If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported.
Submit separate exhibits by rating region if the rate changes differ by rating region.
Submit separate exhibits for each rolling rate table of a rolling rate structure.

=> This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> If one policy form is used for more than one products, then a separate row should be entered for each policy form/product name/product street name combination.

=> The format of this exhibit is discussed below and should be tailored to the specific rate filing submission. Extend the worksheet to add more rows or tabs as needed.

A. BASE MEDICAL PLAN

Market Segment: **Small Group**

Rating Region: **North Country**

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.
- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

Non Rolling Rate Product

* The effective period of a new rolling rate may vary depending on the rolling structure (e.g., "January - March 2012" for a quarterly rolling rate structure.)

B. DRUG RIDERS

Market Segment: **Small Group**

Rating Region: **North Country**

=> Provide a list of proposed rate changes for drug riders available with base medical products.

=> The "proposed percentage rate change" is just for the drug riders available with the indicated base medical product and excludes the impact of the base medical plan rates and non-drug riders.

The lowest, highest, and weighted average are just among the drug riders available to the indicated base medical product.

=> This is for the traditional drug riders, but not for minor drug related riders such as, the inclusion of oral contraceptives.

EXHIBIT 4: SUMMARY OF PROPOSED PERCENTAGE RATE CHANGE TO EXISTING RATE

MVP Health Insurance, Co
Company submitting the rate adjustment request

11125
Company NAIC Code

MVPH-127319750
SERFF tracking number

=> Use this Exhibit for the policy forms/products included in the rate adjustment submission.

=> Submit separate exhibits by market segment such as Large Group, Small Group, Sole Proprietor, Individual, etc. If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported.
Submit separate exhibits by rating region if the rate changes differ by rating region.
Submit separate exhibits for each rolling rate table of a rolling rate structure.

=> This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> If one policy form is used for more than one products, then a separate row should be entered for each policy form/product name/product street name combination.

=> The format of this exhibit is discussed below and should be tailored to the specific rate filing submission. Extend the worksheet to add more rows or tabs as needed.

A. BASE MEDICAL PLAN

Market Segment: **Small Group**

Rating Region: **North Country**

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.
- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

EXHIBIT 5: DISTRIBUTION OF CONTRACTS AFFECTED BY PROPOSED RATE ADJUSTMENTS

Company Name: MVP Health Insurance Co
NAIC Code: 11125
SERFF Tracking #: MVPH-127319750

Instructions:

1) The percentage rate change reported in Sections A and B reflect the impact of all riders that apply to the contracts. The percentage rate change reflects the expected change in premium that would apply to the contract holder on that contract holder's next rate change date.
2) The distribution is by number of contracts or number of members . The Company should indicate which basis, either number of contracts or number of members, is used in this Exhibit.
3) The Weighted Average Percentage should be developed based on the distribution of contracts or members for that market segment/product and for the market segment in total.
4) The distribution table should be grouped by market segment (e.g., Large Group, Small Group, Individual, Sole Proprietor, Healthy NY). If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole
5) Under each market segment, the table should provide the distribution by broad product type (e.g., HMO, POS, EPO, PPO, Indemnity, High Deductible/Consumer Driven, Medicare Supplement, etc.).
6) In Section A, provide the distribution of contracts or members affected by proposed rate change for all non-rolling rate contracts by market segment/product.
7) In Section B, provide distribution information for each rolling rate cohort of a rolling rate structure contract affected by this rate submission (e.g., by quarter of renewal for a quarterly rolling rate structure).
8) Edit the worksheet to add more rows as needed.
9) This exhibit must be submitted as an Excel file, even if a version is submitted as a PDF file.

*** The effective period of a new rolling rate may vary depending on the rolling structure (e.g., "01/01/2012 - 03/31/2012" for a quarterly rolling rate structure.)**
Use the same format to provide the same information for each rolling rate cohort under each market segment.

(*) Indicate weighted average base used: Contracts or Members

EXHIBIT 5: DISTRIBUTION OF CONTRACTS AFFECTED BY PROPOSED RATE ADJUSTMENTS

Company Name: MVP Health Insurance Co
NAIC Code: 11125
SERFF Tracking #: MVPH-127319750

Instructions:

1) The percentage rate change reported in Sections A and B reflect the impact of all riders that apply to the contracts. The percentage rate change reflects the expected change in premium that would apply to the contract holder on that contract holder's next rate change date.
2) The distribution is by number of contracts or number of members . The Company should indicate which basis, either number of contracts or number of members, is used in this Exhibit.
3) The Weighted Average Percentage should be developed based on the distribution of contracts or members for that market segment/product and for the market segment in total.
4) The distribution table should be grouped by market segment (e.g., Large Group, Small Group, Individual, Sole Proprietor, Healthy NY). If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported. Use the drop down list for entries of Market Segment or make your own entry.
5) Under each market segment, the table should provide the distribution by broad product type (e.g., HMO, POS, EPO, PPO, Indemnity, High Deductible/Consumer Driven, Medicare Supplement, etc.).
6) In Section A, provide the distribution of contracts or members affected by proposed rate change for all non-rolling rate contracts by market segment/product.
7) In Section B, provide distribution information for each rolling rate cohort of a rolling rate structure contract affected by this rate submission (e.g., by quarter of renewal for a quarterly rolling rate structure).
8) Edit the worksheet to add more rows as needed.
9) This exhibit must be submitted as an Excel file, even if a version is submitted as a PDF file.

*** The effective period of a new rolling rate may vary depending on the rolling structure (e.g., "01/01/2012 - 03/31/2012" for a quarterly rolling rate structure.)**
Use the same format to provide the same information for each rolling rate cohort under each market segment.

(*) Indicate weighted average base used: Contracts or Members

EXHIBIT 5: DISTRIBUTION OF CONTRACTS AFFECTED BY PROPOSED RATE ADJUSTMENTS

Company Name: MVP Health Insurance Co
NAIC Code: 11125
SERFF Tracking #: MVPH-127319750

Instructions:

1) The percentage rate change reported in Sections A and B reflect the impact of all riders that apply to the contracts. The percentage rate change reflects the expected change in premium that would apply to the contract holder on that contract holder's next rate change date.
2) The distribution is by number of contracts or number of members . The Company should indicate which basis, either number of contracts or number of members, is used in this Exhibit.
3) The Weighted Average Percentage should be developed based on the distribution of contracts or members for that market segment/product and for the market segment in total.
4) The distribution table should be grouped by market segment (e.g., Large Group, Small Group, Individual, Sole Proprietor, Healthy NY). If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported. Use the drop down list for entries of Market Segment or make your own entry.
5) Under each market segment, the table should provide the distribution by broad product type (e.g., HMO, POS, EPO, PPO, Indemnity, High Deductible/Consumer Driven, Medicare Supplement, etc.).
6) In Section A, provide the distribution of contracts or members affected by proposed rate change for all non-rolling rate contracts by market segment/product.
7) In Section B, provide distribution information for each rolling rate cohort of a rolling rate structure contract affected by this rate submission (e.g., by quarter of renewal for a quarterly rolling rate structure).
8) Edit the worksheet to add more rows as needed.
9) This exhibit must be submitted as an Excel file, even if a version is submitted as a PDF file.

A. FOR A NON-ROLLING RATE STRUCTURE -- Distribution of Non Rolling Rate Contracts by Proposed Rate Adjustment

#	Market Segment	Rating Region	Product	Weighted Avg %	Total # of (*) as of mm/dd/yyyy	Number of (*) with Proposed Percentage Rate Change at Renewal										
						Decrease	No Change	0.1% - 4.9%	5.0% - 9.9%	10.0% - 14.9%	15.0% - 19.9%	20.0% - 24.9%	25.0% - 29.9%	30.0% - 39.9%	40.0% - 49.9%	50.0% or higher

EXHIBIT 6: SUMMARY OF POLICY FORM AND PRODUCT CHANGES

Company Name: MVP Health Insurance Co

NAIC Code: 11125

SERFF Number: MVPH-127319750

Instructions:

- This Exhibit summarizes all benefit/rate changes filed with the Health Bureau's Albany office that impact the rate tables in this filing.
- The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).
- Extend the worksheet to add more rows as needed.

A. List of rate filings that have been approved since the prior §3231(e)(1) or §4308(c) rate filing, which impact the rate tables in this filing.

EXHIBIT 7: HISTORICAL DATA BY EACH POLICY FORM INCLUDED IN RATE ADJUSTMENT FILING

Company Name: MVP Health Insurance Co
NAIC Code: 11125
SERFF Number: MVPH-127319750

A. Complete a separate response for each base medical policy form included in the rate adjustment filing.
- Information requested applies to New York State business only.
- Include riders that may be available with that policy form in each policy form response.
- Submit a separate exhibit for each rating pool. Create additional tabs for each rating pool as needed.
- Append additional columns to right of the existing columns (as needed) to include all base medical policy forms included in that rating pool.

B. Product type is HMO, HMO based POS, POS-OON, EPO, PPO, Comprehensive Major Medical, Non-HMO based POS, Consumer Driven Health Plans, Hospital Only, Medical Only, Base+Supplemental, Supplementary Major Medical, Other Limited Benefit, Medicare Supplement (A, B, C, D, E, F Basic, F High, G, H, I, J Basic, J High, K, L, M, N, or Other - indicate appropriate designation for policy form), etc.

C. The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

D. Note that many cells include a drop down list. Use the drop down list or enter applicable items.

E. If members, covered lives or member months are not known, use reasonable estimates (note methodology used).

F. This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

Re: Notice of Rate Filing

Dear <<Employer Contact First Name>> <<Employer Contact Last Name>>:

Thank you for allowing us to provide high-quality health benefit plans that enable you and your employees to "take on life and live well."

New York Insurance Law requires that all community-rated plans receive prior approval of premium rates by the New York State Insurance Department ("Department"). Enclosed with this letter is a formal notice of the proposed rate increase that we will be filing with the Department for your MVP Health Insurance Company (MVP) plan(s).

The Department will review and approve them, or advise MVP of changes to our proposed rates later this year.

When the Department issues approved rates later this year, we will send you a renewal letter 60 days in advance of your **2012** rate renewal date, including the approved rate for your plan(s). That letter will also include suggestions for other, more cost-effective MVP plans you might wish to consider.

We appreciate the commitment you have made to provide your employees with high-quality health benefits, and we stand ready to assist you in continuing to keep that commitment through the most innovative health benefit plans available.

Notice of Premium Rate Change Filing

In order to comply with the prior approval notification requirements for community-rated plans pursuant to the New York State Insurance Law, MVP Health Insurance Company (MVP) is sending you notification of our proposed premium rate change for 2012. The Department must approve these rates before they take effect. This letter is giving you notice that MVP is filing rates with the Department for the plan(s) listed below. If you offer multiple plans, you should see a separate listing for each product.

Please note that the premium rate change listed below is for your current base medical plan coverage for **2012**. It does not include the premium rate change for prescription drug coverage or any other riders that your employer group may currently have.

If your group's rate anniversary date is during October, November or December 2011, please note that the proposed increases shown below are for October, November and December **2012**. Groups with renewal dates in October, November and December 2011 will receive a separate notification for your 2011 renewal rate shortly.

(over)

Product Schedule Number	Type Of Product	Region	2012 Proposed Premium Increase for Individual or Two-Adult Coverage	2012 Proposed Premium Increase for Family Coverage - policies with dependent child(ren)*

Another notice will be sent to you with approved rates, along with any applicable riders for your specific benefit plan. The notice will be sent to you approximately 60 days prior to the effective date of the premium change.

If you would like to submit questions, comments or ask for additional information about this Notice, you may contact either the New York State Insurance Department or your MVP Account Representative within 30 days.

All certificate holders (covered employees/retirees) must receive written notice of the proposed rate change described above. It could be confusing for certificate holders to receive the proposed rate adjustment without additional information. For example, the above information does not explain how the rate adjustment could affect employee contribution levels. Because employers determine the employee contribution levels, MVP is delegating the sending of the proposed change notice to you. When sending the notice, you agree to include the proposed rate change as listed above, along with the above contact information for both the New York State Insurance Department and the member contact information for MVP. If you do not agree to this delegation, please notify us within three (3) business days by e-mailing us at **nysratefilingnotice@mvphealthcare.com** so that we may notify your employees directly. Please be sure to include your group name, MVP group billing number and contact information within the e-mail message so we may do so.

We appreciate your business and look forward to serving you in the future.

Re: Notice of Rate Filing

Dear <<Subscriber/Policy Holder First Name>> <<Subscriber/Policyholder contact last Name>>,

Thank you for allowing us to provide you with a high-quality health benefit plan that enables you to "take on life and live well."

New York Insurance Law requires that all community-rated health insurance plans receive prior approval of premium rates by the New York State Insurance Department ("Department"). Enclosed with this letter is a formal notice of the proposed rate increase that we have filed with the New York State Department of Insurance for your MVP Health Insurance Company (MVP) plan. We are required to send you this notice.

The Department will review the MVP rate filing and approve, or advise us of changes to our proposed rates. When the Department issues approved rates later this year, we will send your employer a renewal letter 60 days in advance of your group's **2012** rate renewal date. This letter will include the approved rate for your group health plan and alternative coverage options for your employer to consider.

Notice of Premium Rate Change Filing

In order to comply with the prior approval notification requirements for community-rated products pursuant to the New York State Insurance Law, MVP Health Insurance Company (MVP) is sending you notification of our proposed premium rate change for 2012. The Department must approve these rates before they take effect. This letter is giving you notice that MVP is filing rates with the Department for the plan listed below.

(over)

Please note that the premium rate change listed below is for your current base medical plan coverage for **2012**. It does not include the premium rate change for prescription drug coverage or any other riders that your employer group may currently have.

Re: Renewal Notice and Premium Rates for <<year>> for Group #<<GroupNum>>

Dear <<Employer Contact First Name>> <<Employer contact last Name>>,

A new law in New York State requires the New York State Department of Insurance to approve health plan premium rates.

This letter is to inform you that the enclosed premium rates were approved by the State's Department of Insurance, and will be effective as of <<RenewalDate>>.

CoPlan: <<*Coplan*>>

Please communicate this information to the individual subscribers who receive coverage through this group policy.

If you have any questions about your benefits, please call <<marketingrepname>>, <<phone>>.

[redacted]

Additional Information Regarding your Upcoming Renewal

Thank you for choosing MVP Health Care to serve you and your employees. Your health benefit plan is up for renewal, and we want you to know that we're working hard to make sure we continue to give you the most for your health care dollar.

Your plan is just one of the many available from MVP Health Care. MVP offers a full range of plans – from high deductible options to EPO and PPO solutions (including TriVantage). Please feel free to contact me to discuss your options further. MVP requires all groups to confirm certain information at renewal. Please complete the enclosed recertification sheet and return it to me with your most recent NYS-45 wage and tax report, or similar documentation.

The Patient Protection and Affordable Care Act ("PPACA") includes provisions for the grandfathering of existing health insurance plans which allows groups the opportunity to maintain their existing coverage without being subject to certain provisions of PPACA. A grandfathered plan generally is an existing group health plan or health insurance coverage which was in effect on March 23, 2010, as long as the plan has not been changed since that date. Your group health benefit plan might be considered a grandfathered plan. If your plan is a grandfathered plan, changes to the plan could cause it to lose its grandfather status. Please consult your broker or professional counsel (for example attorney or tax advisor) for additional information on whether your health benefit plan is a grandfathered plan, and if so, how changes to your plan could affect your grandfather status.

Under New York state law, you have the option to purchase Extended Mental Health Care Benefits for the diagnosis and treatment of biologically-based mental illnesses and coverage for children under age 18 who have Serious Emotional Disturbances.

Thank you for your continued confidence in MVP Health Care. We appreciate the opportunity to help you and your employees take on life and live well! I look forwarding to hearing from you.

MVP HEALTH CARE

2011 Quarters Two – Four Broker Commission Schedule
Effective April – December 2011

Base Program

New York

EPO/PPO Preferred		• $1 - $750,000 in premium	5%
		• $750,001 and above	2.5%
	OR	• $30M in annualized premium for all product lines paid at	.5%
HMO/POS		• $1 - $750,000 in annual premium	4%
		• $750,001 and above	2.5%
	OR	• $30M in annualized premium for all product lines paid at	.5%
HDHP Preferred		• $1 - $750,000 in annual premium	6%
		• $750,001 and above	2.5%
	OR	• $30M in annualized premium for all product lines paid at	.5%

Notes:

1. Graduated premium commission runs on a calendar year and re-sets every January.
2. Hybrids are considered EPO/PPO.
3. For groups with less than $30M in annual premium across all lines commission is paid by line of business.

Special Bonus

New groups with annualized premium over $15M will receive a one time bonus of .25% of annualized premium based off of average premium for the first quarter of enrolled membership. Bonus paid in Q3 of 1st year. This does not apply to HMO.

Preferred Gold (IF APPLICABLE)

Medicare Advantage	$12.50 per contract per month
RXCare Stand Alone PDP	$3.50 per contract per month

Notes:

1. Contract must be in force for 3 months before payment is made, i.e. commission for contracts written in January will be paid in April.
2. Pursuant to the CMS Medicare Guidelines, in the event that a Medicare enrollee disenrolls within less than ninety (90) days after enrollment, any payment paid or accrued to broker will be returned to or withheld by MVP.

Dental

(Fully Insured)	All years
Small group 2 – 50	10%
Large group 51+	Negotiated

MVP reserves the right, in it's sole discretion, to alter or void the compensation programs at any time in response to issues and conditions that affect the corporation, business, marketplace or economy. Entitlement to commission and bonuses is subject to terms and conditions contained in the Broker Agreement. MVP reserves the right to make the final determination of eligibility for case (group/member) credit, premium credit and commission/bonus payments.

MVP HEALTH CARE

Bonus Program

New York

NEW BUSINESS

Tier 1	500 members	+ 2 new cases	=	$10,000
Tier 2	1,000 members	+ 2 new cases	=	$25,000
Tier 3	2,000 members	+ 3 new cases	=	$50,000
Tier 4	3,500 members	+ 4 new cases	=	$75,000
Tier 5	5,000 members	+ 5 new cases	=	$100,000

Note:

1. Brokers must qualify on ***both*** the member and the case count in order to move to the next Tier.

EXISTING BUSINESS

- Brokers must maintain 95% persistency on entire MVP book of business in order to qualify for the Bonus Program.
- Brokers will be paid commission equal to +0.5% of the inforce EPO/PPO book's paid premium up to $100,000 maximum.
- Brokers must have a minimum of 200 members on 12/31/10.

If a broker loses a group due to a BOR transfer and the group remains enrolled until January 1 of the following year, the group will be removed entirely from the bonus calculation of the original broker.

Notes:

1. Bonus Program payments apply to only EPO/PPO products, HMO/POS is excluded from the bonus program.
2. Chamber, Association, Healthy New York and MVP Gold membership is excluded from the New Business Bonus Program.
3. New Business and Existing Business Bonus Program are not interdependent. Brokers may qualify for the New Business bonus without qualifying for the Existing Business bonus, and vice versa.
4. Bonuses are calculated and paid annually.
5. Bonus payments will be made by April 30, 2012.

GENERAL PROVISIONS

1. Brokers are paid commission based on the amount of monthly premium paid by each of the broker's accounts.
2. Commissions are paid monthly, with the exception of the Bonus Program which will be paid on an annual basis.
3. The forgoing commission rates may be changed at MVP's option on thirty (30) days notice to brokers.

MVP reserves the right, in it's sole discretion, to alter or void the compensation programs at any time in response to issues and conditions that affect the corporation, business, marketplace or economy. Entitlement to commission and bonuses is subject to terms and conditions contained in the Broker Agreement. MVP reserves the right to make the final determination of eligibility for case (group/member) credit, premium credit and commission/bonus payments.

- MVP is offered to employers with a total of two or more eligible employees who are
  a) regular, full time or regular part-time (20 hours a week or more); and
  b) who are eligible for health insurance benefits
- Only eligible employees who work in MVP's service area are eligible to join.
- There is no minimum enrollment in MVP required in any small group (2 - 50).
- MVP offers two tier (Single/Family), three tier (Single/Double/Family) and four tier (Single/Double/Parent/Family) rates.
- All MVP New York small group Article 42 products are community rated.
- Sole proprietors are rated at 15% above the listed rates.

MVP Health Insurance Company
Actuarial Memorandum

This memorandum supports the Medical Rate Filings submitted pursuant to Section 3231(e)(1) of the Insurance Law for policies with effective dates between 1/1/2012 through 12/31/2012. MVP requests that this actuarial memorandum and all noted supporting exhibits included in the filing be treated as confidential pursuant to article 6 of the New York Public Officers Law (FOIL).

The information included in this memorandum attempts to provide all the requested information outlined in the Justification of Rates section of the NYS DOI Instructions and Review Standards for Rate Adjustment filings.

A Description of Proposed Rate Changes

As illustrated in Exhibit 5, the average aggregate rate change for MVP's HMO products is as follows for each renewal cohort and market segment:

Market Segment/renewal cohort	Average Annual Change 2012
Small First Quarter	16.9%
Small Second Quarter	15.2%
Small Third Quarter	15.5%
Small Fourth Quarter	15.3%

Note beginning in October 2010, MVP Health Insurance Company began reducing the number of small group product options so to better manage this block of business. To the extent groups still remain (as of 6/15/11) in some of these products until their next renewal date, they are not included in the above calculation of the average 2012 rate change because there is no 2012 rate being filed for these plans. There are a total of 2758 such subscribers renewing after 7/1.

A summary of the Quarterly rate changes for the base medical policies is as follows:

Market Segment	Average Quarterly Change	Minimum quarterly change	Maximum quarterly change
Small 1Q12/4Q11	9.2%	0.4%	27.4%
Small 2Q12/1Q12	2.25%	2.25%	2.25%
Small 3Q12/2Q12	2.25%	2.25%	2.25%
Small 4Q12/3Q12	2.25%	2.25%	2.25%

These averages are based on a weighted average of membership as of 6/15/11.

Average quarterly rate changes for the prior 8 rolling rate tables is as follows:

	Qrtly Change
4Q09/1Q10	21.4%
2Q10/1Q210	2.2%
3Q10/2Q10	3.1%
4Q10/3Q10	2.3%
1Q11/4Q11	10.6%
2Q11/1Q11	2.6%
3Q11/2Q11	3.0%
4Q11/3Q11	2.6%

These averages were derived from the database used to compute standardized premiums for Exhibit 7 and are based on average subscribers in force during 2010. Subscribers enrolled in plans that were retired between 10/1/10 and 12/1/11 are included in these averages assuming the quarterly changes that would have been in place had the plans not been retired.

Reasons for Rate Changes

The expected loss ratio incorporated in the existing 2011 rate table was 82.25%. The expected loss rate incorporated into the proposed 2012 rate tables is 82%. This change impacted the proposed rate changes by approximately +0.3%. The pricing loss ratio was reduced to the minimum permissible by the New York Department of Insurance and the allocation of the components of the non claim expense loads was changed from last year to better align actual expenses with the loads. The general administrative load changed from 9.0% of premium to 9.5% of premium, the broker load changed from 4% to 4.25% and the profit charged was reduced to reflect the balancing item. An increase in the administrative load was necessary to more adequately fund MVP's administrative budget given membership losses, and benefit buy downs experienced by groups and the broker expense was increased slightly to reflect more business in the higher commissioned high deductible products and a general underfunding of the broker expense in the premium rates.

No changes were made to MVP's premium load ratios. The Single Conversion Factor used to convert the per member revenue requirement into per contract rates is updated each year based on the underlying census behind the experience data used for rating. This SCF increased by 0.7%. This change however, does not directly translate to higher premium rates. The purpose of the SCF is to remain neutral with respect to total revenue generated regardless of whether you charge per member premiums or per contract premiums. The SCF will change based on the mix of membership in the experience period. In theory, if the SCF increased, there was a corresponding decrease in the average per member revenue requirement.

The rate increases being proposed reflect both the adequacy of the existing rate tables as well anticipated changes in the cost and use of care and changes in non claim expenses as discussed above. The adequacy of the existing rate table (or the variance in the 2011 estimated pmpm incurred claim cost) can be estimated based on analyzing emerging 2011 claim data (but has it's limitations early in the year) or by essentially re-pricing 2011 rates using the most current pricing cost data. MVP used the 2012 rating data and pricing model to project what the rate increases would be if we were developing 2011 premium rates instead of 2012 premium rates. This was accomplished by simply trending the experience period claims only 12 months instead of the full 24. Comparing the average rate increase from this scenario with the proposed average rate increases for 2012 is a good approximation of the portion of the 2012 requested increases resulting from 'variance in 2011 estimated pmpm incurred claim costs". This exercise demonstrates that, on average across all the rating regions and products, about 8% of the 2012 proposed rate increase is due to a 'correction' of the 2011 estimated pmpm incurred claim costs. However, recall that the New York Department of Insurance reduced MVP's 2011 proposed rate increases by 7% across the board and also imposed a maximum increase of 24% for any given benefit schedule. So, essentially, the estimate of the 2011 total incurred claim costs was not materially understated and if MVP had been granted the requested 2011 rate increases, increases requested for this year would be closer to trend.

Included in this rate increase proposal is a change in the Rochester premium relativity compared to the rest of MVPs rating regions. MVP still maintains that our premium rate setting is based on community rating the entire New York State service area; however, changes in the cost of providing services within each rating region may require adjustments to the regional relativities. MVP compares allowed cost data by rate region for the entire New York commercial insured population as a proxy for underlying cost differences by region. Regional average pmpm allowed claim data net of high cost claims (claims over $20,000) is compared to the average pmpm for all the rate regions to evaluate the appropriateness of the regional premium relativities. Claim amounts over $20,000 per member are tossed out of each region in order to remove the underlying demographic and morbidity differences that may exist between the regions. The $20,000 threshold is consistent with that of the Specialized Medical Conditions Pool.

Calendar year 2010 allowed cost data by rate region was trended 24 months to the 2012 rating period using regionally specific trend factors. The regional unit cost trends are based on both known and anticipated contract changes within each region. Average utilization increases across all rate regions are used. Projected 2012 pmpm costs by rate region are the basis for the decision to make a change to the Rochester relativity. The Rochester region was the only region that suggested a material change was needed. The impact of this change on the proposed rate increases is the Rochester increases are approximately 2.2% higher than the rest of the rate regions. As a result, the relationship amongst the other regions was not changed with one exception.

Within the Central Rate region for MVPHIC, the region is subdivided into 3 distinct rate regions: Central I, Central II and Central III. For the past couple of years, MVP has not differentiated the premium rates charged in these 3 Central rate regions however, there are justifiable differences in the cost of providing medical services (ie. provider contracting) between these regions. For 2012, MVP would like to once again reflect these differences in the premium rates charged. The cost of care in Central I is expected to be equal to the average of the 3 Central regions while Central II is expected to be 3% less expensive and Central III 5% more expensive. The derivation of the Central I, II and III factors as well the rest of the regions is illustrated in Attachment A. Currently MVPHIC has only 660 small group members enrolled in Groups rated in the Central III region.

The methodology illustrated in Attachment A is outlined below:

Step 1. The projected 2012 average pmpm cost by rate region was used to calculate regional cost factors for each rating pool relative to the average pmpm in each rating pool with the exception of the 4 smallest rate regions (with respect to member month exposure). For these regions, the cost factors suggested by the data were replaced with cost factors computed such that the premium relationship in these regions was maintained from 2011 with another specific rate region. North and Buffalo were relative to East and New York Metro, Long Island and NYC regions were relative to Mid Hudson. This was necessary due to the small amount of membership in these rate regions and the large fluctuation in the average costs that results.
Step 2. These cost factors were normalized for each rating pool based on the distribution of membership by rate region in each pool.
Step 3. Actual 2011 regional cost relativities were adjusted such that they normalize to a 1.0 using the 2010 distribution of membership by rating pool.
Step 4. Proposed 2012 regional cost relativities are presented based on the decision to maintain the regional relativities in all but the Rochester rating region.
Step 5. The proposed 2012 regional cost relativities are adjusted such that they normalize to a 1.0 using the 2010 distribution of membership by rating pool.
Step 6. Regional cost relativities for the 3 rating regions within the Central rate region were derived based on comparing each Central region projected 2012 average pmpm to the Central average overall. Cost relativities were rounded to 2 decimal places and regional area factors were derived based on these cost relativities compared to the aggregate area factor derived for the Central region as a whole.

Source Data for Claim Projections

Actual historical allowed claims for calendar year 2010 dates of service with 3 months of paid claim run-out and completed using June 2011 INBR estimates is the basis for the rate development. The small group policies are rated together as one community pool based on the historical claims experience specific to those policies. This small group block was assumed to be fully credible for rating. The total member months of exposure in the 2010 experience period was approximately 980,000. This is considered fully credible by the NAIC and HHS. No adjustments have been made to the experience period data other than the application of trend to project to the rating period. Included in the attachments to this filing are exhibits illustrating the actual historical claims as well as the projection of these claims to the rating period for the first rolling rate table. Included in these exhibits are the associated unit cost and utilization trends assumed in this projection. The unit cost and utilization trends reflect the average of these trends across all rating regions combined. The detailed trends by rating region are illustrated in Attachment A. The unit cost

trends by rating region are based on both known and anticipated contract negotiations with our provider base. The utilization trends reflect anticipated overall average trends for the commercial block of business.

Derivation of Premium Rates

Net Required Revenue (NRR) requirements were derived for each unique benefit offering using MVPs internally developed benefit relativity model. The NRR includes fee for service claim cost projections for each benefit schedule as well other medical expenses such as capitation payments, NYS HCRA and CLA taxes, reinsurance expense, expected SMC pool liabilities (small group only), MVP wellness member incentive payments, and Provider Incentive payments. The HCRA surcharge and SMC expenses were added to the NRR for each benefit schedule as a % of the FFS claim expense. The other expenses were added on as a flat per member expense. This is a change from last year's premium development where HCRA and SMC liabilities were added to each plan as a flat per member expense. The change to a % of claims load better aligns the expected cost by benefit schedule as both of these liabilities are paid claim based. The assumed liability for the 2012 SMC pool result is 1.5% of medical expenses. This is approximately the amount of expense incurred for the 2010 pool results for all of MVP Health Care small group policies combined. The 2010 liability was the lowest one for MVP small group since the Pools inception so this is an aggressive assumption for this unknown future expense. The total flat expense load added to each benefit schedule is equal to $16.16 pmpm.

MVP significantly improved the 2011 version of the Benefit Relativity Pricing Model for 2012 rate setting. Two specific improvements that made a material change in the premium relativities by benefit plan include:

1) change from a specific service based approach to applying utilization adjustments to a top down aggregate 'slope' approach. The 'slope' approach looks at each benefit schedule's total net/allowed ratio in determining the utilization adjustments. Previously, the pricing model compared the member cost sharing for each specific service (examples: Inpatient, Outpatient surgery, ER, Office Visit) to determine utilization adjustments. This approach can lead to pricing results that aren't aligned well with the overall value of each unique benefit offering. The slope method ensures that the projected NRR for every unique benefit schedule is rational in relation to the others.

2) determination of the appropriate copay revenue to assume for a given service when copays are paid by members was refined based on a study of actual member encounter frequency by service category. In the previous model, the amount of copay revenue assumed to be collected was based on looking at the ratio of the actual copays collected relative to the quantity of services captured. This was a reasonable approach when the product portfolio was typical HMO style benefit plans. However, with the growth of products that utilize deductible/coinsurance cost sharing methods, the method failed to give enough value to copay revenue. The split copay (lower PCP vs. SCP copays) products in MVP's HMO portfolio require more cost sharing for certain physician services compared to the non split copay products. These products require both a physician and facility copay for specific services. The 2011 model was not appropriately capturing the value of this additional copay revenue for these plans and hence the rate increases for these benefit schedules are suppressed a bit for 2012.

The result of the new changes described above is that MVP once again has rate increases that vary considerably by benefit plan. MVP anticipates that this will be the last year that a material 'realignment' of our premium rate relativities will be necessary. Also contributing to the varied increases between the benefit plans is the fact many of the benefit plans did not receive the desired rate increases in 2011 due to the limitation of a maximum permissible increase on any one benefit plan be 24% by the Department of Insurance.

Net required revenue projections for optional prescription drug riders were similarly derived using historical allowed claim cost data for the period May 2010 through April 2011. Pharmacy claims are assumed to be complete so no IBNR is added. The historical claims are trended to the 1Q2012 rolling rate period using assumed unit cost and utilization trends. The trend assumptions reflect input from MVPs pharmacy vendor as well as renegotiated contract terms with the vendor. Expected net pmpm claim costs are calculated using MVP's internally developed pharmacy benefit relativity pricing model. Actual

historical and projected allowed claim costs as well as an example of the calculation of the projected net paid claim cost are included in the attached exhibits.

First quarter 2012 premium rates were developed starting with the 2012 projected NRRs by benefit plan for both the based medical plans and the prescription drug riders. NRR's were multiplied by the derived regional premium relativity factors (based medical rates only) and then non claim expense loads were added to cover costs associated with administration, broker expense, surplus contribution, premium taxes (if applicable) and bad debt. The gross required revenues per member per month were then converted to per contract premium rates using the calculated single conversion factors and load ratios. These assumptions, the derivation of the single conversion factors, the application of the area factors and the calculation of the premium rates by tier are all illustrated in the rate filing exhibits. Second, third and fourth quarter premium rates were derived by applying a quarterly trend equal to 2.25%. This quarterly trend is consistent with the increases to the rolling rate tables in 2011 and reflects approximately 3 months of the projected annual trend rate. A summary of these non claim expense loads is included in the rate filing Exhibit S. The loads are expressed both as a percent of gross premium and as an average pmpm relative to the current average premium. Regional pmpm equivalents can be derived by multiplying the average pmpm by the regional area factors illustrated in Attachment A. The General Administrative load equal to 9.5% of gross premium includes approximately 1% for administrative expenses associated with activities that improve health care quality as defined in the NAIC Annual Statement Supplemental Health Care Exhibit. In addition, the 9.5% is intended to cover the expenses associated with regulatory authority licenses and fees, including the New York State 332 assessment. In 2010, the 332 assessment was approximately 0.43% of the gross premiums collected.

Standardized Premium Computation

The Standardized Premiums reported in Exhibit 7 were computed for both calendar year 2009 and 2010 earned premiums using a database of earned premiums by renewal quarter and rate region for each benefit schedule offered during the experience periods of 2009 and 2010. The actual earned premiums for each benefit schedule/renewal quarter/rate region were adjusted to reflect the rate increases that have been filed and approved over the period beginning in 2008 through 4Q2011. For benefit schedules that have been retired during this time period, the rate increases that would have been filed had the schedules not been retired were used.

Benefit Schedules Retired Since 2011 Prior approval rate filing

The following list of benefit specific policy forms are being retired prior to 1/1/12 and therefore aren't included in the rate tables in this rate adjustment filing:

E0014S	E0296S	P0213S
E0015S	E0300S	EA013
E0017S	P0016S	EA015
E0021S	P0028S	PA001
E0025S	P0040S	PA013
E0027S	P0052S	PA015
E0029S	P0064S	NEHD-09S
E0033S	P0076S	NPHD-09S
		E0305S

Actuarial Certification

This filing is in compliance with all applicable laws and regulations of the State of New York. It is in compliance with ASOP No. 8. The expected loss ratio incorporated into the proposed rate tables meets the minimum requirement of the State of New York by permitted aggregation of policy forms within each permitted aggregation of rating regions. The benefits are reasonable in relation to the premiums charged and the rates are not unfairly discriminatory. The expected loss ratio incorporated into these rate tables is 82%.
