7/29/13 ENCL. INSURANCE CO. NOTIFICATION

JUST A NOTE

New York State Department of Financial Services.

My medigap policy issued by First United American Insurance Company is requesting permission to increase premium.

I should like to know the reasons that prompt this. As an 89 year old it seems to me with exception of severe and unanticipated losses from core business, profits ought not be initial consideration in granting same, especially since I bought the policy years ago and have been subjected to premium increases seemingly every other year. Would appreciate your kind review. Sincerely Robert Simpson.
