NEW YORK INSURANCE DEPARTMENT

Review Standards for Medical Rate Filings Submitted Pursuant to Section 3231(e)(1) or Section 4308(c) of the Insurance Law

As of 7/26/2010

Use for all medical rate filings submitted pursuant to section 3231(e)(1) or section 4308(c) of the Insurance Law.

Do not use for (a) non-community rated business, (b) specified disease coverage as described in section 52.15 of Regulation 62 (11 NYCRR 52), or (c) for limited benefits health insurance as described in section 52.10 of Regulation 62.

Do not use for the following which are traditional prior approval rate filings (section 3231(d) or 4308(b) of the Insurance Law): (a) a new form or rider filing, (b) a contract language change filing, (c) an initial rate not currently in the rate manual but within the approved variable contract language, (d) a new or revised commission schedule filing, and (e) changes to the composition of an approved rating region.

Do not use for a new or revised experience rating formula filing.

REVIEW REQUIREMENT	REFERENCE	DESCRIPTION OF REVIEW STANDARDS REQUIREMENTS	LOCATION OF STANDARD IN FILING
REQUEST FOR FOIL EXEMPTION		Companies are reminded to clearly indicate any request that the actuarial memorandum and any supporting attachments are to be treated as confidential pursuant to article 6 of the New York Public Officers Law (FOIL).	Actuarial Memorandum and Relevant Exhibits
DEFINITIONS		a. Company refers to the licensed entity submitting the rate filing. b. A company's commercial book of business includes all of the following: large group, small group, direct pay, Healthy New York, and Medicare Supplement. It excludes all government programs, such as, Medicare, Medicaid, Family Health Plus, and Child Health Plus. c. Loss ratio refers to incurred claims divided by earned premiums for a given period of time. The incurred claims includes the impact of the Standard Direct Pay and Healthy New York stop loss pools, Regulation 146 (11 NYCRR 361), covered lives assessments, and the HCRA surcharge. Incurred claims do not include any administrative expenses. Earned premiums do not include any adjustment for assessments or taxes. d. Rate applicability period refers to the length of time the rates in a rate table are assumed to remain in effect. (i) Example 1: A non-rolling rate table is developed to be effective January 1, 2011 and is expected to be revised January 1, 2012. The rate applicability period for this table is January 1, 2011 – December 31, 2011. (ii) Example 2: A rolling rate table is developed for issues and renewals in January – March 2011 and incorporates a 12 month rate guarantee period. The rate applicability period for this table is February 15, 2011 (mid renewal date)	

		through February 15, 2012. If all policyholders must have a first of the month effective date, then the rate applicability period can be considered as February 1, 2011 through February 1, 2012. e. Standardized earned premium is the earned premium for the period adjusted to assume that all premiums for the period are payable at the most current approved (or deemed approved) rate level. (Example: The rate filing is to implement quarterly rolling rate tables applicable to the 3rd and 4th quarter 2011 and 1st and 2nd quarter 2012. The 2nd quarter 2011 rates have already been approved. Therefore, the 2nd quarter 2011 rate tables are the current rate level. The earned premium for the period would be adjusted to reflect the premiums that would have been paid for that period if all the premiums had been paid at the 2nd quarter 2011 rate tables.)	
ROLLING RATE STRUCTURE		a. Every rate filing for a rolling rate structure must include rolling rates for at least a 6 month, and for no more than a 12 month, issue/renewal period (e.g., between 2 and 4 quarterly rolling rates, between 6 and 12 monthly rolling rates). b. Beginning with rate filings to be effective January 1, 2012 or later, all rate filings for a rolling rate structure must include rolling rates for a 12 month issue/renewal period. c. Notwithstanding the above, a large group HMO rate filing can include rolling rates for up to a 24 month period (e.g., 8 quarterly rolling rates, 24 monthly rolling rates).	Section II - Rate Manual
CHANGES TO PREVIOUSLY APPROVED RATE TABLES		a. A company can revise a previously approved non-rolling rate table provided that: (i) The proposed effective date of the rate table is at least 12 months after the effective date of the current rate table; or (ii) The proposed effective date of the rate table is at least 6 months after the date of the current rate table, the contract language permits revising the rate table in accordance with such rate filing, and the financial results have deteriorated resulting in an underwriting loss on the company's entire New York State commercial book of insured business. Documentation of the underwriting loss on the company's entire New York State commercial book of insured business needs to be included in the rate submission. b. A company can revise rate tables included in a previously approved rolling rate filing provided that: (i) the rate tables being revised were never implemented, (ii) the first two rate tables included in the previously approved rate filing are not revised, and (iii) the financial results have deteriorated resulting in an underwriting loss on the company's entire New York State commercial book of insured business. Documentation of the underwriting loss on the company's entire New York State commercial book of insured business needs to be included in the rate submission. (Example: A rolling rate filing was submitted and approved that	

		included quarterly rolling rate tables for 1st, 2nd, 3rd and 4th quarter of 2011. The company can not revise the 1st and 2nd quarter 2011 rate tables, but if the indicated criteria is met, can submit a new prior approval rate filing that includes rolling rates for 3rd and 4th quarter 2011 and 1st and 2nd quarter 2012.)	
ACTUARIAL MEMORANDUM	11NYCRR52.40(a)(1)	Actuarial qualifications: a. Member of the Society of Actuaries or member of the American Academy of Actuaries; and b. Meets the "Qualification Standards of Actuarial Opinion" as adopted by the American Academy of Actuaries.	
Summary Template		Complete and submit as an attachment to the filing (in Excel format) the Department's Excel summary template for each base medical policy form included in the rate filing. a. Indicate for each base medical policy form the other base medical policy forms this form is aggregated with for rate setting purposes. b. The effective date of rate change refers to the proposed effective date of the non-rolling rate table, and/or the proposed effective date of the first rolling rate period of a rolling rate structure. c. The rate guarantee period refers to a non-rolling rate table and/or to the first rate table of a rolling rate structure. (If the rate guarantee period for the rolling rate structure is not the same for each rolling rate period, the actuarial memorandum must discuss this and explain why the length of the rate guarantee periods are not the same.) d. The weighted average rate change percentage requested (from the current rate charged the policyholder to the proposed rate to be charged that same cohort of policyholders) for the indicated base medical policy form including all associated riders. The weighting should be based on members. For a rolling rate structure, enter the result for the first rate table in the rolling rate structure. (Example: a quarterly rolling rate filing was submitted that includes rolling rate tables for 1st, 2nd, 3rd, and 4th quarter of 2011. Rates are for a 12 month period. Indicate the average rate change percentage from the 1st quarter of 2010 rate tables to the 1st quarter 2011 rate tables.) e. For the number of policyholders affected and the number of covered lives affected, indicate the affect of all the rate tables of a rolling rate structure included in the rate filing (but not more than 12 months of issues and renewals if more than 12 months of rolling rate tables are included in the rate filing). f. The expected loss ratio for each base medical policy form includes the impact of associated riders and reflects the impact of the proposed rate changes. Loss ratio is calculated on a New York statewide basis. For a rolling rate structure, enter the result of the first rolling rate period of the rolling rate structure.	Summary Template

		g. The experience entered for the two indicated experience periods is the New York statewide experience for the indicated base medical policy form plus all associated riders. (i) Each experience period is to be for 12 months (or shorter if a new form). (ii) The ending date of the recent experience period can not be earlier than 12 months before the proposed effective date of the earliest rate table included in the rate filing. (Example: The rate filing is for a non-rolling rate table to be effective July 1, 2011. The recent experience period can not have an ending date earlier than June 30, 2010, i.e., 12 months prior to July 1, 2011.) (iii) The incurred claims for each of the two experience periods must be based on at least 3 months of claims run-out beyond the end of the experience period. (iv) The prior experience period is required only if the rate filing includes a rate table that is to become effective July 1, 2011 or later (e.g., includes: a rolling (or non-rolling) rate table for July 2011 or later or a rolling rate table for 3rd quarter 2011 issues/renewals or later). h. Enter the annual composite medical trend assumption used for each base medical policy form (including impact of associated riders). Enter the annual utilization and unit cost trend components included in the composite trend factor shown. i. For each base medical policy form (including the impact of associated riders), discuss the estimated increase in the incurred claims pmpm over the last 3 years and the estimated increase in the premium rate over the same 3 year period. (Example: Over the last 3 years the incurred claims pmpm has increased about 30% and the premium rates have increased about 32%.)	
Justification of Rates	§3231(e) §4308(c) 11NYCRR52.40 11NYCRR52.42 (HMOs) 11NYCRR52.45 11NYCRR59.5(b) 11NYCRR360.11	a. Description of proposed changes in rates, including the following: (i) The member weighted average proposed percentage change over the current rates charged to the policyholder for each base medical policy form, including the impact of all associated riders available to that policy form. This is to be shown for each non-rolling rate table and/or each rolling rate table included in the rate filing. Include comparable information for rate changes implemented during the prior 24 months. (ii) For a rolling rate structure, the percentage change to the first rate table of the rolling rate structure included in the rate filing, from the immediately preceding implemented rolling rate table not included in the rate filing. Indicate the rolling rate periods of the rate tables used to develop this percentage change. If the percentage change between two corresponding rate tables is not uniform, indicate the minimum, maximum and average percentage change between those two rate tables. This comparison is to be done for each first table of a rolling rate structure included in the rate filing. (Example: The	Section II – Rate Manual, Actuarial Memorandum, & Exhibit III – Rate Development

		rate filing includes four quarterly rolling rate tables beginning 3rd quarter 2011. The change from each of the 2nd quarter 2011 rolling rate tables to the corresponding 3rd quarter 2011 rolling rate table is to be indicated.) (iii) The percentage change due to any change in the projected loss ratio from the prior rate filing for such base medical policy form or rider. Indicate the prior and proposed projected loss ratios used and the impact of the change. (iv) The percentage change due to any change to the tier structure relationships included in this rate filing. Include justification for such changes. (v) The percentage change due to any change to the factor used to convert per member per month results to per single employee results included in this rate filing. Include justification for such changes. (vi) Changes to any of the rating differentials between the various rating regions included in this rate filing. If the rating differential between the rating regions was changed, include (a) a listing of the composition of each rating region, (b) the percentage change impact on each such rating region, and (c) justification for each such change between the rating region differentials. b. Include the following: (i) For each non-rolling rate table: the current rate charged the policyholder, the proposed rate to be charged the policyholder, and the dollar and percentage change from the current rate to the proposed rate for each rate table, rating tier, and benefit option for each policy form and rider form included in the rate filing. (ii) For each rolling rate table: the current rate charged the policyholder, the proposed rate to be charged the policyholder, and the dollar and percentage change for each renewal cohort from the current rate to the proposed rate for each rate table, rating tier, and benefit option for each policy form and rider form included in the rate filing. (Example: The rate filing includes a new rate table for third quarter 2011 and rates are for 12 month periods. Show the rates for the third quarter 2010, the proposed rates for the third quarter 2011, and the dollar and percentage change from third quarter 2010 rates to the proposed third quarter 2011 rates.) c. For each policy form included in the rate filing, indicate which other policy forms are aggregated with this form for premium rate setting purposes. This is to be indicated separately for the base medical policy forms and for each of the rider forms. Rate tables for all such aggregated forms must be included in the same rate filing. Refer to section 360.11(a)-(b) of Regulation 145 (11 NYCRR 360) for requirement to aggregate substantially similar policy forms for small group policy forms and for individual policy forms.	

		d. Indicate if the policy form aggregation has changed from the prior rate filing for any policy form or rider form included in this rate filing. If yes, explain the change, the rationale for the change, and the percentage rate impact this change has on this policy form and on the policy forms previously aggregated with this policy form. e. Provide New York State experience for the base medical policy form, and for the permitted aggregation this policy form belongs to. The experience information should be for the indicated base medical policy form and all associated riders. The following information is to be included: (i) Applicable experience for a recent 12 month experience period and for the immediately prior 12 month experience period (or shorter period if a new form). 1. The ending date of the recent experience period can not be earlier than 12 months before the proposed effective date of the earliest rate table included in the rate filing. (Example: The rate filing includes rolling rate tables for 3rd and 4th quarter 2011 and 1st and 2nd quarter 2012. The recent experience period can not have an ending date earlier than June 30, 2010, i.e., 12 months prior to July 1, 2011). 2. The prior experience period is required only if the rate filing includes a rate table that is to become effective July 1, 2011 or later (e.g., includes: a rolling (or non-rolling) rate table for July 2011 or later or a rolling rate table for 3rd quarter 2011 issues/renewals or later). (ii) Member months for each of the two experience periods. (iii) Earned premiums for each of the two experience periods (in $ and $pmpm). (iv) Standardized earned premium for each of the two experience periods (in $ and $pmpm). Provide a description of how the earned premiums were converted to standardized earned premiums, and provide documentation and supporting exhibits showing how the standardized premiums were developed for each experience period. (v) Paid claims for each of the two experience periods (in $ and $pmpm). (vi) Incurred claims for each of the two experience periods (in $ and $pmpm). 1. The incurred claims for each of the two experience periods must be based on at least 3 months of claims run-out beyond the end of the experience period. 2. Provide a clear description of how the incurred claims were developed for the experience periods, and how many run-out months were reflected in the unpaid claim estimates. (vii) Administrative expenses (including commissions and premium taxes, but excluding federal and state income taxes) for each of the two experience	

		periods (in $ and $pmpm). (viii) Ratio of incurred claims to earned premiums for each of the two experience periods. (ix) Ratio of incurred claims to standardized earned premiums for each of the two experience periods. (x) Ratio of administrative expenses (including commissions and premium taxes but excluding state and federal income taxes) to earned premiums. (xi) Ratio of (administrative expenses + incurred claims) to earned premiums for each of the two experience periods. Administrative expenses include commissions and premium taxes but exclude state and federal income taxes. On the Summary Template, include the New York statewide experience for each of the base medical policy forms, including associated riders. Include as part of the actuarial memorandum supplemental exhibits showing the New York State experience for each permitted aggregation of policy forms. If the rating differential between NY rating regions is being revised, the actuarial memorandum is to also include supplemental exhibits showing the NY statewide experience period results for the policy form aggregation(s) separately by each rating region and rating region aggregation. f. Discuss the source data used to develop the claims projected for the renewal rate applicability period. (i) If the source data is actual claims experience, the experience period is to be at least 12 months long, and the unpaid claim reserve is to be based on at least 3 months of claims run-out beyond the end of the experience period. (ii) If the source data is other than the actual claims experience, indicate the source of this data (e.g., from what publication, prepared by what organization), and the applicability of this source data. (iii) Discuss the credibility of such source data. If the source is actual experience, discuss the credibility such data would have in this company's approved NY experience rating formula (or that of an affiliated company with an approved NY experience rating formula if this company does not have an approved NY experience rating formula). (iv) Include an exhibit showing the source data and indicate all adjustments made to this source data to develop the projected claims for the renewal rate applicability period. Provide this detail for each non-rolling rate table included in the rate filing, and/or for the first rate table of each rolling rate structure included in the rate filing (for base medical rate tables and for rider rate tables). Provide justification for each such adjustment. g. Indicate the assumed annualized claim trend projection factors used to project the	

		source data to the renewal rate applicability period (for the non-rolling rate tables and/or the first rate tables of a rolling rate structure). (i) Indicate the assumed annualized composite trend factors used for each base medical policy form (or permitted aggregation) and separately for the utilization and unit cost components of the composite trend. Indicate the assumed composite annual trend factors used for each rider form (or permitted aggregation) and separately for the utilization and unit cost components of the composite trend. (ii) Provide justification for the assumed composite annual trend factors and the associated utilization and unit cost components. Discuss the impact and provide justification for any case mix change, intensity of service change, population change, adverse selection, or deductible leveraging component incorporated into the utilization and/or unit cost trend factor components. (iii) Clearly discuss how the annualized trend factors were applied to the source data to develop the projected data for the renewal rate applicability period. h. Actuarial justification of the proposed rate changes for each base medical policy form and each rider form included in the rate filing. (i) Clearly show how the percentage change from the current rate table was developed, or how the revised premium rate was developed, for the non-rolling rate tables and/or the first rate tables of a rolling rate structure. (Example: for a rolling rate structure, how the percentage change from the existing 2nd quarter 2011 rate table to the proposed 3rd quarter 2011 rate table was developed for each rating element in the proposed rate table.) (ii) For each subsequent rate table of a rolling rate structure, show how the change between each of the successive rate tables was developed (e.g., the change from the 3rd quarter 2011 rate table to the 4th quarter 2011 rate table). Provide justification for these changes between the rolling rate tables. (iii) Clearly show how the following were reflected in the proposed rate development, as applicable: 1. Standard Direct Pay and Healthy New York stop loss pools (Insurance Law sections 4321-a, 4322-a, and 4327); and 2. Regulation 146 (11 NYCRR 361) and Insurance Law section 3233 market stabilization pool. i. If the percentage rate change by benefit option differs within a particular policy form (or rider form), include an actuarial demonstration that the rate changes were developed assuming the same insured population selects each of the available benefit options, and that the differences in the percentage rate changes are not due to differences in the age, sex, health status, or industry distributions of the	

		members selecting a particular benefit option. Any assumed variation in utilization by benefit option within a particular policy form (or rider form) must be based solely on the benefit differential, must assume that the same population of insureds selects each benefit option within the policy form, and can not be based on differences due to age, sex, health status or industry among the members selecting the different benefit options. j. If the percentage rate change by policy form differs within a permitted aggregation of policy forms, include an actuarial demonstration that the rate changes were developed assuming the same insured population selects each of the available benefit options among the aggregated policy forms, and that the differences in the percentage rate changes are not due to differences in the age, sex, health status, or industry distributions of the members selecting a particular benefit option within the aggregated policy forms. Any assumed variation in utilization between policy forms within a permitted aggregation of policy forms must be based solely on the benefit differential, must assume that the same population of insureds selects each benefit option within the permitted aggregation of policy forms, and can not be based on differences due to age, sex, health status or industry among the members selecting a particular benefit option within the aggregated policy forms. k. If the percentage rate change by rating region differs, the default assumption is that the rating regions are not aggregated for rate setting purposes. In order for a company to claim that certain rating regions are aggregated for rate setting purposes, it is necessary to include an actuarial demonstration that the rate changes were developed assuming the same insured population in each of the aggregated rating regions, and that the differences in the percentage rate changes are not due to differences in the age, sex, health status, or industry distributions of the members in each of the aggregated rating regions. l. Indicate for each permitted policy form aggregation, within each rating region aggregation, the non-claim expense components incorporated into the proposed premium rates as a percentage of gross premiums after the proposed changes are implemented. This is to be shown for the non-rolling rate tables and/or the first rate table of each rolling rate structure. Include the following components: (i) Administrative expenses; (ii) Commissions; (iii) Premium taxes; (iv) Pre-tax profit/contribution to surplus; (v) State income taxes; (vi) Federal income taxes; and (vii) Total of the above.	

		Discuss how administrative expenses are allocated to the various market segments and product lines. m. Expected loss ratios are to be shown after the proposed rate changes. The expected loss ratio for each base medical policy form includes the impact of associated riders. (i) Indicate the expected loss ratio for each base medical policy form included in the rate filing for each rating region. For a rolling rate structure, this is to be shown for each rolling rate period included in the rate filing. (ii) Indicate the expected loss ratio for each permitted aggregation of base medical policy forms within each aggregation of rating regions. For a rolling rate structure, this is to be shown for each rolling rate period included in the rate filing. (iii) For a non-rolling rate table and/or the first rate table of a rolling rate structure, include a demonstration showing how these expected loss ratios were developed.

UnitedHealthcare
A UnitedHealth Group Company

United HealthCare Insurance Company of New York

New York Small Group EPO, POS, PPO, and Indemnity Plans
Rates Effective January 2012 – December 2012

ACTUARIAL MEMORANDUM

Introduction

This rate filing addresses development of the New York Small Group Indemnity, PPO, POS, and EPO rates for the effective dates from January 1, 2012 through December 31, 2012. This rate filing is being submitted pursuant to Prior Approval.

Rate Adjustments

For EPO products, we are proposing that the medical rates and pharmacy rates for 1st quarter 2012 effective dates be increased by 10.6% over 4th quarter 2011 rates. For 2nd, 3rd, and 4th quarters we are proposing quarterly increases of 3.5% for medical and pharmacy rates.

For POS products, we are proposing that the medical rates and pharmacy rates for 1st quarter 2012 effective dates be increased by 12.9% over 4th quarter 2011 rates. For 2nd, 3rd, and 4th quarters we are proposing quarterly increases of 3.5% for medical and pharmacy rates.

For Indemnity and PPO products, we are proposing that the medical and pharmacy rates for 1st quarter 2012 effect dates be increased by 11.7% over 4th quarter 2011 rates. For 2nd, 3rd, and 4th quarters we are proposing quarterly increases of 3.5% for medical and pharmacy rates.

In addition, we are proposing area factor changes to address an under-pricing issue in certain counties. This is described in the Area Factors section below. While the proposed area factor changes are revenue neutral, they do impact the annual increases versus filed 4th quarter 2011 rates. The resulting annual rate changes based upon the proposed trend and area factor changes range from 19.6% and 39.1%.

The requested quarterly increases, with requested area factor changes, result in the following annual increases:

Source Data

In order to project future experience on the small group business, we used claims incurred between January 1, 2010 and December 31, 2010 paid through March 31, 2011. Completion factors were applied by incurred month in order to calculate the fully incurred claims.

The filed large group credibility formula is as follows:

A = Number of Contracts Factor = (Contracts/500) ^ 1/2, never to exceed 141.42%

The resulting credibility of this block of business and experience period exceeds 100% based upon this formula.

The projected trend factor is 14.7%. This breaks down into the following components: 6.4% unit cost, 6.2% utilization, and 1.4% trend leveraging.

Rate Development

The key assumptions used in the development of the required increase are as follows:

- **Trend**: The rate development assumes projected trend of 14.7% (6.4% unit cost, 6.2% utilization, 1.4% leveraging).
- **Regulation 146**: The projected liability for the rating period is $0.
- **Experience Period Loss Ratio**: Loss ratios for 12 months ending December 31, 2010 are 93.6% for EPO products, 96.2% for POS products, and 94.9% for both products combined.
- **Target Loss Ratio**: The requested 10.6% quarterly increase for EPO, 12.9% quarterly increase for POS, and 11.7% quarterly increase for Indemnity and PPO reflect implied target loss ratios of 85% for all products.

Please see Exhibit II for a detailed development of the requested rate increases. We are using claims incurred between January 1, 2010 and December 31, 2010 paid through March 31, 2011 as our base experience period for the projection. The loss ratios for this experience period are 93.6% for EPO products, 96.2% for POS products, and 94.9% for both products combined.

As shown in Exhibit II, the following adjustment is made to the experience period claims as part of the claims projection:

1. A trend factor of 1.315 is applied reflecting a 14.7% annual trend and 24 months between the endpoint of the experience period (December 31, 2010) and the endpoint of the rating period (December 31, 2012). Note that the Regulation 146 dollars from the experience period are removed before the claims are trended

As aforementioned, the projected Regulation 146 payment for the rating period is $0.00 PMPM. This amount is added to the trended and adjusted claims in order to calculate the total projected claims for the rating period.

For the premium projection shown in Exhibit II, we calculated the standardized premiums by bringing the earned premiums from the experience period to the 4th quarter 2011 rate level. Please see Exhibit III for this calculation.

The projected loss ratios of 94.0% for EPO, 96.0% for POS, and 95.0% for both products combined for the rating period are calculated by dividing the projected claims by the standardized premiums. The required 1st quarter 2011 rate increases over approved 4th quarter 2011 rates are 10.6% for the EPO product and 12.9% for the POS product to target an 85.0% loss ratio. This is equivalent to an 11.7% overall increase for both combined products on a combined basis to target an 85.0% loss ratio. For 2nd, 3rd, and 4th quarters for EPO, POS, PPO, and Indemnity we request 3.5% quarterly increases for medical and pharmacy rates. This was calculated by taking the projected pricing trend to the ¼ power.

Proposed Area Factor Changes

We have analyzed the average unit cost differences by county in order to evaluate the adequacy of current area factors. Since base rates also vary by region, we have analyzed the combined impact of the current base rates and area factors. The unit cost analysis includes claims incurred in 2009. For each county, claims were re-priced at a national unit cost basis. Actual allowed amounts for each county were then compared to the re-priced dollars in order to derive area factors. The area factors were adjusted to account for any known contracting changes since the experience period studied.

The results of this analysis are summarized by region in Exhibit IV. The currently filed pricing relativities by region are also shown. As noted above, these reflect both the base rate and area factor differences by region. We then compared the current pricing relativities to the results of the unit cost analysis. The analysis results are shown in the column titled "Average Unit Cost Relativity from 2009 Re-pricing (Trended)". The comparison of the current factors to the unit cost based factors indicates that the counties within the Buffalo and Rochester regions require 22.3% and 28.3% increases, respectively. While the counties in these regions are currently priced about 20% less than the counties in the Syracuse region, the analysis indicates that the Buffalo/Rochester counties should actually be priced 1% to 5% higher than Syracuse based upon the unit cost differences.

Based upon this analysis, we are proposing 10% increases to the area factors for counties in the Buffalo and Rochester regions. In order to make the changes revenue neutral, we propose a corresponding decrease of 1.9% to the area factors for counties in the Syracuse region. Based upon the analysis, the indicated decrease for Syracuse is 2.7%. While the proposed increases are significantly less than the indicated values, this will begin to correct this pricing issue while also mitigating the annual increases.

Projected Expense Components

	EPO/POS Plans
Administration	5.2%
Commission	4.3%
Premium Tax / Assessment	2.9%

Total	12.4%
Target Loss Ratio	85.0%
Pre-Tax Profit	2.6%
State Income Taxes	0.2%
Federal Income Taxes	0.9%
Projected Profit/Contribution to Surplus After Taxes	1.6%

This reflects an 85% target loss ratio. The projected profit amount of 1.6% assumes that the 85% target loss ratio is achieved.

	Response
1. Does this filing include any revision to contract language that is not yet approved? See note (2).	No
2. Are there any rate filings submitted and not yet approved that if approved would affect the rate tables included in this rate filing?	No
3. Have the initial notices already been sent to all policyholders and contract holders affected by this rate submission? Indicate what cohort of policyholders received the initial notice and the mailing date when the initial notice was sent. See note (3).	Yes, small group EPO and POS policyholders and contract holders with renewal dates in 1st, 2nd, 3rd, and 4th quarters of 2012. No inforce members in Indemnity and PPO products.
4. Have all the required exhibits been submitted with this rate application? If any exhibit is not applicable, has an explanation been provided why such exhibit is not applicable?	Yes

Notes:

(1) It is recommended that a rate filing application subject to §3231(e)(1) or §4308(c) of the New York Insurance Law be submitted at least 150 days before the proposed effective date. The Department reserves the right to reject any rate submission that has not been submitted at least 120 days prior to the proposed effective date.

(2) A rate adjustment filing submitted pursuant to §3231(e)(1) or §4308(c) of the New York Insurance Law should **not** include any revision to existing contract language or include new contract language. Any rate filing in connection with a form filing, a new form or a revision to an existing form, must be a separate filing from the rate adjustment filing.

Use the following SERFF filing types for rate adjustment filings:

* For a rate adjustment filing pursuant to §3231(e)(1): Rate Adjustment pursuant to §3231(e)(1)
* For a rate adjustment filing pursuant to §4308(c): Rate Adjustment pursuant to §4308(c)
* For all other prior approval filings: Normal Pre-Approval

(3) §3231(e)(1) and §4308(c) of the New York Insurance Law require that the initial notice to policyholders/subscribers/contract holders be sent on or before the date the rate adjustment application is submitted to the Insurance Department.

EXHIBIT 2: FOIL EXEMPTION REQUEST

Instructions:

1. **A request that the New York State Insurance Department ("Department") exempt from public disclosure any information included in this submission, pursuant to New York Public Officers Law § 87(2)(d) (the "Trade Secret/Competitive Injury Exemption"), must be made by completing this exhibit.**
2. **A request that the Department apply the Trade Secret/Competitive Injury Exemption to any information contained in this submission that is not included in this exhibit may not be honored by the Department.**
3. **A request that the Department apply the Trade Secret/Competitive Injury Exemption to any information included in this submission must be accompanied by a written statement of necessity that:**
   - **(a) identifies the specific parts of the submission for which the Company believes the Trade Secret/Competitive Injury Exemption should be applied;**
   - **(b) specifies the reasons why the submission, or parts thereof, should be exempt from disclosure pursuant to the Trade Secret/Competitive Injury Exemption; and**
   - **(c) where applicable, indicates where redactions would suffice to protect the exempt information.**
4. **In light of the open government purpose underlying FOIL, the Department favors redacting portions of documents, and disclosing the balance of such documents, as opposed to withholding documents in their entirety, where such redactions will suffice to protect the exempt information. Therefore, the Company should submit to the Department both the original document and a redacted version of the original document, which omits or blocks the information it wishes to exempt from disclosure. (The Department will accept the redacted version of the original document within one week after original filing was submitted.)**

EXHIBIT 2: FOIL EXEMPTION REQUEST

Instructions:

1. **A request that the New York State Insurance Department ("Department") exempt from public disclosure any information included in this submission, pursuant to New York Public Officers Law § 87(2)(d) (the "Trade Secret/Competitive Injury Exemption"), must be made by completing this exhibit.**
2. **A request that the Department apply the Trade Secret/Competitive Injury Exemption to any information contained in this submission that is not included in this exhibit may not be honored by the Department.**
3. **A request that the Department apply the Trade Secret/Competitive Injury Exemption to any information included in this submission must be accompanied by a written statement of necessity that:**
   - **(a) identifies the specific parts of the submission for which the Company believes the Trade Secret/Competitive Injury Exemption should be applied;**
   - **(b) specifies the reasons why the submission, or parts thereof, should be exempt from disclosure pursuant to the Trade Secret/Competitive Injury Exemption; and**
   - **(c) where applicable, indicates where redactions would suffice to protect the exempt information.**
4. **In light of the open government purpose underlying FOIL, the Department favors redacting portions of documents, and disclosing the balance of such documents, as opposed to withholding documents in their entirety, where such redactions will suffice to protect the exempt information. Therefore, the Company should submit to the Department both the original document and a redacted version of the original document, which omits or blocks the information it wishes to exempt from disclosure. (The Department will accept the redacted version of the original document within one week after original filing was submitted.)**

EXHIBIT 3: NARRATIVE SUMMARY

Company United Healthcare Insurance Company of New York
NAIC Code: 60093
SERFF Tracking #: UHLC-127310632

Submit a Narrative Summary explaining the reason(s) for the proposed rate adjustment. The purpose of this Narrative Summary is to provide a written explanation to the company's policyholders to help them to understand the reason(s) why a rate increase is needed.

- The Narrative Summary will be a public document and will be posted on the Department's website and furnished by the Department to the public upon request.
- It is strongly encouraged that the company submit the Narrative Summary to the Department ten (10) days before submitting a rate adjustment application.
- It is suggested that once reviewed by the Department, the company post the Narrative Summary on its website. Any changes made to the Narrative Summary subsequent to the posting are required to be submitted to the Department.
- The Narrative Summary should include, but not be limited to, the following information:
  1) The name of the company submitting the rate adjustment request.
  2) A summary of the proposed rate adjustments, which can be a range as long as the range is consistent with the range stated in the initial notice to policyholders for the various products, and rating region.
  3) A description of which policyholders are affected by this rate adjustment application. The rate adjustment may only affect certain policyholders in a market segment (e.g., Small Group), or with certain products (indicate the "street name" of the products affected), or only a certain renewal cohort (e.g., policyholders renewing mm/dd/yyyy – mm/dd/yyyy).
  4) The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).
  5) The effective date of the proposed rate adjustments and an indication of when the rate change would affect policyholders.
     For example:
     (a) For a non-guaranteed rate structure: All policyholders will receive the rate adjustment on mm/dd/yyyy.
     (b) For a rate structure with a 12 month rate guarantee: A policyholder will receive the rate adjustment on the policyholder's next anniversary on or after mm/dd/yyyy.
  6) The number of policyholders/members affected by the proposed rate adjustment(s); aggregated across all market segments and products affected by the rate adjustments submission.
  7) An explanation, in plain-language, as to why it is necessary to request such rate changes. As appropriate, a separate explanation should be provided for each market segment. Where the rate increases are not the same for each product type within a market segment, the company should provide a separate explanation for each such product type.
- Each page of the Narrative Summary should be numbered (i.e., [page] of [pages]).

United Healthcare Insurance Company of New York
New York Small Group EPO Plans
Requested Rate Changes – Effective 2nd quarter 2012

Rate Component Overview

* The main components of a premium rate are medical costs and administrative expenses. A small portion of the premium rate is also projected to be profit. The costs of medical services are usually the main portion of a rate. Medical costs are accounted for in the minimum loss ratio (MLR). MLR is the percentage (%) of the premiums paid towards medical costs. Under New York state law, the MLR must be at least 82% of the premium charged. This means that at least 82 cents of each premium dollar is to be paid towards medical costs.

Administrative expenses include, among other things,

- taxes and other fees,
- maintenance and upgrading of systems to comply with legal requirements (e.g., HIPAA, federal healthcare reform mandates),
- costs for consumer education and decision support tools/processes, promotion of wellness, programs for managing chronic and complex medical conditions, maintaining the provider network as well as measuring quality and efficiency of providers, and operating costs of consumer, employer, broker and provider web portals, and
- employee costs for items such as processing requests for services, claims, correspondence and appeals, conducting medical reviews, and providing customer service.

When deciding whether to seek a premium rate increase or decrease, we review claims data and expenses to determine what the expected costs and expenses will be for a future period.

Current Rate Increase Components

We are requesting rate increases related to medical cost trends for the products that appear in Chart 1. If approved, the increases will be added to the 2011 premium rate. Chart 1 shows the requested increases by product. The new rates will apply to all groups that renew or enroll during the 2nd quarter of 2012.

CHART 1: Impact of Rate Request

Renewal Date: April 2012 – June 2012				
Counties	**Number of Impacted Subscribers**	**Requested Medical Trend Increase Over 2011 Medical Premium (%)**	**Requested Pharmacy Trend Increase Over 2011 Pharmacy Premium (%)**	**Estimated Total Trend Increase Over 2011 Premium (%)**
Albany, Chenango, Clinton, Columbia, Delaware, Essex, Franklin, Fulton, Greene, Hamilton, Herkimer, Lewis, Madison, Montgomery, Oneida, Otsego, Rensselaer, Saratoga, Schenectady, Schoharie, St Lawrence, Warren, Washington	64	23.7%	23.8%	23.7%

Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Livingston, Monroe, Niagara, Ontario, Orleans, Seneca, Wayne, Wyoming, Yates	81	36.1%	36.2%	36.1%
Broome, Cayuga, Chemung, Cortland, Jefferson, Onondaga, Oswego, Schuyler, Steuben, Tioga, Tompkins	136	21.4%	21.4%	21.4%

- The rate filing is seeking an increase related to increasing medical costs. Medical costs are the single largest component of the premium dollar and a component that has been rising significantly year over year. Reasons for rising costs include advancements in procedures, development of new pharmaceuticals and medical devices, increasing medical costs of a population that is aging and increasingly living with chronic conditions such as obesity and diabetes and increased negotiated unit cost rates with our network providers (driven in part by insufficient reimbursement to those providers for those covered under Government health insurance programs and by providing uncompensated care) as well as increased charges for services by non-network providers.
- The medical cost component may also be impacted by changes to the population covered under the product. A part of the medical costs include a pooling mechanism established under NY Insurance Regulation 146 which attempts to equalize risk within the New York small group and individual markets. This requires carriers with fewer high-cost claimants to pay into the pool while carriers with more high-cost claimants receive funds from the pool. We are projecting a slight change in our Regulation 146 amount for United Healthcare Insurance Company of New York's small group products in 2012 due to a projected decrease in high cost claimants for the individuals covered under this entity relative to estimated industry averages.
- The requested rate changes result in a projected loss ratio greater than or equal to the minimum allowed under state law.

Additional Benefit Changes for 2012 Plans

We do not have any benefit changes on file with the New York State Insurance Department (NYSID). In the event that benefit changes (e.g., benefit mandate) are made to our EPO product prior to your 2012 renewal, those changes may also impact your final premium rates.

Final Rate Increase

Please be aware that the group's final renewal rate increase for 2012 may be different than the percentages listed in Chart 1. The Superintendent of Insurance may approve (as requested), modify or deny the proposed rate adjustment. Your final rate will include the increase for dependent age coverage (if applicable) and apply the rate adjustment approved by the NYSID as well as any changes resulting from the benefit plan design chosen and the group's census upon renewal.

- employee costs for items such as processing requests for services, claims, correspondence and appeals, conducting medical reviews, and providing customer service.

When deciding whether to seek a premium rate increase or decrease, we review claims data and expenses to determine what the expected costs and expenses will be for a future period.

Current Rate Increase Components

We are requesting rate increases related to medical cost trends for the products that appear in Chart 1. If approved, the increases will be added to the 2011 premium rate. Chart 1 shows the requested increases by product. The new rates will apply to all groups that renew or enroll during the 1st quarter of 2012.

CHART 1: Impact of Rate Request

Renewal Date: January 2012 – March 2012			
Counties	**Requested Medical Trend Increase Over 2011 Medical Premium (%)**	**Requested Pharmacy Trend Increase Over 2011 Pharmacy Premium (%)**	**Estimated Total Trend Increase Over 2011 Premium (%)**
Albany, Chenango, Clinton, Columbia, Delaware, Essex, Franklin, Fulton, Greene, Hamilton, Herkimer, Lewis, Madison, Montgomery, Oneida, Otsego, Rensselaer, Saratoga, Schenectady, Schoharie, St Lawrence, Warren, Washington	23.2%	23.8%	23.3%

Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Livingston, Monroe, Niagara, Ontario, Orleans, Seneca, Wayne, Wyoming, Yates	35.6%	36.2%	35.7%
Broome, Cayuga, Chemung, Cortland, Jefferson, Onondaga, Oswego, Schuyler, Steuben, Tioga, Tompkins	20.9%	21.5%	21.0%

- The rate filing is seeking an increase related to increasing medical costs. Medical costs are the single largest component of the premium dollar and a component that has been rising significantly year over year. Reasons for rising costs include advancements in procedures, development of new pharmaceuticals and medical devices, increasing medical costs of a population that is aging and increasingly living with chronic conditions such as obesity and diabetes and increased negotiated unit cost rates with our network providers (driven in part by insufficient reimbursement to those providers for those covered under Government health insurance programs and by providing uncompensated care) as well as increased charges for services by non-network providers.
- The medical cost component may also be impacted by changes to the population covered under the product. A part of the medical costs include a pooling mechanism established under NY Insurance Regulation 146 which attempts to equalize risk within the New York small group and individual markets. This requires carriers with fewer high-cost claimants to pay into the pool while carriers with more high-cost claimants receive funds from the pool. We are projecting a slight change in our Regulation 146 amount for United Healthcare Insurance Company of New York's small group products in 2012 due to a projected decrease in high cost claimants for the individuals covered under this entity relative to estimated industry averages.
- The requested rate changes result in a projected loss ratio greater than or equal to the minimum allowed under state law.

Additional Benefit Changes for 2012 Plans

We do not have any benefit changes on file with the New York State Insurance Department (NYSID). In the event that benefit changes (e.g., benefit mandate) are made to our EPO product prior to your 2012 renewal, those changes may also impact your final premium rates.

Final Rate Increase

Please be aware that the group's final renewal rate increase for 2012 may be different than the percentages listed in Chart 1. The Superintendent of Insurance may approve (as requested), modify or deny the proposed rate adjustment. Your final rate will include the increase for dependent age coverage (if applicable) and apply the rate adjustment approved by the NYSID as well as any changes resulting from the benefit plan design chosen and the group's census upon renewal.

United Healthcare Insurance Company of New York
New York Small Group POS Plans
Requested Rate Changes – Effective 1st quarter 2012

Rate Component Overview

* The main components of a premium rate are medical costs and administrative expenses. A small portion of the premium rate is also projected to be profit. The costs of medical services are usually the main portion of a rate. Medical costs are accounted for in the minimum loss ratio (MLR). MLR is the percentage (%) of the premiums paid towards medical costs. Under New York state law, the MLR must be at least 82% of the premium charged. This means that at least 82 cents of each premium dollar is to be paid towards medical costs.

Administrative expenses include, among other things,

- taxes and other fees,
- maintenance and upgrading of systems to comply with legal requirements (e.g., HIPAA, federal healthcare reform mandates),
- costs for consumer education and decision support tools/processes, promotion of wellness, programs for managing chronic and complex medical conditions, maintaining the provider network as well as measuring quality and efficiency of providers, and operating costs of consumer, employer, broker and provider web portals, and
- employee costs for items such as processing requests for services, claims, correspondence and appeals, conducting medical reviews, and providing customer service.

When deciding whether to seek a premium rate increase or decrease, we review claims data and expenses to determine what the expected costs and expenses will be for a future period.

Broome, Cayuga, Chemung, Cortland, Jefferson, Onondaga, Oswego, Schuyler, Steuben, Tioga, Tompkins	70	20.3%	20.3%	20.3%

- The rate filing is seeking an increase related to increasing medical costs. Medical costs are the single largest component of the premium dollar and a component that has been rising significantly year over year. Reasons for rising costs include advancements in procedures, development of new pharmaceuticals and medical devices, increasing medical costs of a population that is aging and increasingly living with chronic conditions such as obesity and diabetes and increased negotiated unit cost rates with our network providers (driven in part by insufficient reimbursement to those providers for those covered under Government health insurance programs and by providing uncompensated care) as well as increased charges for services by non-network providers.
- The medical cost component may also be impacted by changes to the population covered under the product. A part of the medical costs include a pooling mechanism established under NY Insurance Regulation 146 which attempts to equalize risk within the New York small group and individual markets. This requires carriers with fewer high-cost claimants to pay into the pool while carriers with more high-cost claimants receive funds from the pool. We are projecting a slight change in our Regulation 146 amount for United Healthcare Insurance Company of New York's small group products in 2012 due to a projected decrease in high cost claimants for the individuals covered under this entity relative to estimated industry averages.
- The requested rate changes result in a projected loss ratio greater than or equal to the minimum allowed under state law.

Additional Benefit Changes for 2012 Plans

We do not have any benefit changes on file with the New York State Insurance Department (NYSID). In the event that benefit changes (e.g., benefit mandate) are made to our EPO product prior to your 2012 renewal, those changes may also impact your final premium rates.

Final Rate Increase

Please be aware that the group's final renewal rate increase for 2012 may be different than the percentages listed in Chart 1. The Superintendent of Insurance may approve (as requested), modify or deny the proposed rate adjustment. Your final rate will include the increase for dependent age coverage (if applicable) and apply the rate adjustment approved by the NYSID as well as any changes resulting from the benefit plan design chosen and the group's census upon renewal.

United Healthcare Insurance Company of New York
New York Small Group EPO Plans
Requested Rate Changes – Effective 4th quarter 2012

Rate Component Overview

* The main components of a premium rate are medical costs and administrative expenses. A small portion of the premium rate is also projected to be profit. The costs of medical services are usually the main portion of a rate. Medical costs are accounted for in the minimum loss ratio (MLR). MLR is the percentage (%) of the premiums paid towards medical costs. Under New York state law, the MLR must be at least 82% of the premium charged. This means that at least 82 cents of each premium dollar is to be paid towards medical costs.

Administrative expenses include, among other things,

- taxes and other fees,
- maintenance and upgrading of systems to comply with legal requirements (e.g., HIPAA, federal healthcare reform mandates),
- costs for consumer education and decision support tools/processes, promotion of wellness, programs for managing chronic and complex medical conditions, maintaining the provider network as well as measuring quality and efficiency of providers, and operating costs of consumer, employer, broker and provider web portals, and
- employee costs for items such as processing requests for services, claims, correspondence and appeals, conducting medical reviews, and providing customer service.

When deciding whether to seek a premium rate increase or decrease, we review claims data and expenses to determine what the expected costs and expenses will be for a future period.

Current Rate Increase Components

We are requesting rate increases related to medical cost trends for the products that appear in Chart 1. If approved, the increases will be added to the 2011 premium rate. United Healthcare Insurance Company of New York
Company submitting the rate adjustment request

60093
Company NAIC Code

UHLC-127310632
SERFF tracking number

=> Use this Exhibit for the policy forms/products included in the rate adjustment submission.

=> Submit separate exhibits by market segment such as Large Group, Small Group, Sole Proprietor, Individual, etc. If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported.

Submit separate exhibits by rating region if the rate changes differ by rating region.

Submit separate exhibits for each rolling rate table of a rolling rate structure.

=> This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> If one policy form is used for more than one products, then a separate row should be entered for each policy form/product name/product street name combination.

=> The format of this exhibit is discussed below and should be tailored to the specific rate filing submission. Extend the worksheet to add more rows or tabs as needed.

A. BASE MEDICAL PLAN

Market Segment: **Small Group**

Rating Region: **Albany, North Country, Utica**

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.
- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

=> Use this Exhibit for the policy forms/products included in the rate adjustment submission.

=> Submit separate exhibits by market segment such as Large Group, Small Group, Sole Proprietor, Individual, etc. If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported.

Submit separate exhibits by rating region if the rate changes differ by rating region.

Submit separate exhibits for each rolling rate table of a rolling rate structure.

=> This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

=> The proposed percentage rate change reflects the expected change in premium rate that would apply to the contract holder on that contract holder's next rate change date for each contract holder with the indicated base medical plan.

=> The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).

=> If one policy form is used for more than one products, then a separate row should be entered for each policy form/product name/product street name combination.

=> The format of this exhibit is discussed below and should be tailored to the specific rate filing submission. Extend the worksheet to add more rows or tabs as needed.

A. BASE MEDICAL PLAN

Market Segment: **Small Group**

Rating Region: **Buffalo, Rochester**

=> Provide a list of proposed rate changes for each base medical plan type, by product name/street name.

=> The "proposed rate change" is just for the base medical product, excluding the impact of any riders.
- Lowest should be the smallest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- Highest should be the largest percentage change that could affect any contract holder due to the proposed rate filing with that base medical product; the impact of riders is not included.
- The weighted average should reflect the average using the distribution of contracts within each base medical product; the impact of riders is not included.

EXHIBIT 5: DISTRIBUTION OF CONTRACTS AFFECTED BY PROPOSED RATE ADJUSTMENTS

Company Name: United Healthcare Insurance Company of New York
NAIC Code: 60093
SERFF Tracking #: UHLC-127310632

Instructions:

1) The percentage rate change reported in Sections A and B reflect the impact of all riders that apply to the contracts. The percentage rate change reflects the expected change in premium that would apply to the contract holder on that contract holder's next rate change date.

2) The distribution is by number of contracts or number of members . The Company should indicate which basis, either number of contracts or number of members, is used in this Exhibit.
3) The Weighted Average Percentage should be developed based on the distribution of contracts or members for that market segment/product and for the market segment in total.
4) The distribution table should be grouped by market segment (e.g., Large Group, Small Group, Individual, Sole Proprietor, Healthy NY). If the proposed percentage rate change for Sole Proprietor is different from Small Group, then a separate market segment of Sole Proprietor is to be reported. Use the drop down list for entries of Market Segment or make your own entry.
5) Under each market segment, the table should provide the distribution by broad product type (e.g., HMO, POS, EPO, PPO, Indemnity, High Deductible/Consumer Driven, Medicare Supplement, etc.).
6) In Section A, provide the distribution of contracts or members affected by proposed rate change for all non-rolling rate contracts by market segment/product.
7) In Section B, provide distribution information for each rolling rate cohort of a rolling rate structure contract affected by this rate submission (e.g., by quarter of renewal for a quarterly rolling rate structure).
8) Edit the worksheet to add more rows as needed.
9) This exhibit must be submitted as an Excel file, even if a version is submitted as a PDF file.

Re: Rate Filing for UnitedHealthcare New York Small Group EPO plans

Dear <BA First Name> <BA Last Name>,

Thank you for allowing UnitedHealthcare[1] to serve your health benefit plan needs. We are filing a rate application with the New York State Insurance Department (NYSID) on July 8, 2011 seeking an increase to our EPO rates for groups renewing in calendar year 2012. This notice is being sent to you and your group's employees who are certificate holders based on a requirement in the New York state prior approval law.

If approved, the proposed rate increase will be added to your current 2011 premium rate. The table below shows the expected impact of the requested trend increases over your 2011 premium.

Renewal Date: January 2012 – March 2012			
Counties	**Requested Medical Trend Increase Over 2011 Medical Premium (%)**	**Requested Pharmacy Trend Increase Over 2011 Pharmacy Premium (%)**	**Estimated Total Trend Increase Over 2011 Premium (%)**
Albany, Chenango, Clinton, Columbia, Delaware, Essex, Franklin, Fulton, Greene, Hamilton, Herkimer, Lewis, Madison, Montgomery, Oneida, Otsego, Rensselaer, Saratoga, Schenectady, Schoharie, St Lawrence, Warren, Washington	23.2%	23.8%	23.3%
Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Livingston, Monroe, Niagara, Ontario, Orleans, Seneca, Wayne, Wyoming, Yates	35.6%	36.2%	35.7%
Broome, Cayuga, Chemung, Cortland, Jefferson, Onondaga, Oswego, Schuyler, Steuben, Tioga, Tompkins	20.9%	21.5%	21.0%

Please be aware that the group's final renewal rate increase for 2012 may be different than the percentages listed above. The Superintendent of Insurance may approve (as requested), modify or deny the proposed rate adjustment. Your final rate will include the rate adjustment approved by the NYSID as well as any changes resulting from the benefit plan design chosen and the group's census upon renewal.[2] After rates are approved, you will receive an additional notice with the premium rate adjustment that is ultimately approved by the Superintendent. This notice will be sent at least 60 days before the rate change effective date. Prior to your group's renewal, you will receive a renewal package

[1] Insurance coverage provided by or through UnitedHealthcare Insurance Company of New York.
[2] In the event that other benefit changes (e.g., benefit mandate) are made to our EPO product prior to your 2012 renewal, those changes may also impact your final premium rate.

with the renewal rates for your group's benefit plan. You will also be able to choose other plan options at that time.

You have 30 days from the date of our filing to contact the NYSID to request additional information or to submit written comments regarding our rate filing. Written comments should include the insurer and product name. Written comments submitted to the NYSID will be posted to the NYSID's website, with personal identifying information removed. You may submit written comments or requests for information to:

Re: Rate Filing for UnitedHealthcare New York Small Group POS plans

Dear <Subscriber First Name> <Subscriber Last Name>,

Thank you for allowing UnitedHealthcare[1] to serve your health benefit plan. We are filing a rate application with the New York State Insurance Department (NYSID) on July 8, 2011 seeking an increase to our POS rates for groups renewing in calendar year 2012. This notice is being sent to you as a certificate holder based on a requirement in the New York state prior approval law.

If approved, the proposed rate increase will be added to the group's current 2011 premium rate. The table below shows the expected impact of the requested trend increases over your 2011 premium.

Renewal Date: July 2012 – September 2012			
Counties	**Requested Medical Trend Increase Over 2011 Medical Premium (%)**	**Requested Pharmacy Trend Increase Over 2011 Pharmacy Premium (%)**	**Estimated Total Trend Increase Over 2011 Premium (%)**
Albany, Chenango, Clinton, Columbia, Delaware, Essex, Franklin, Fulton, Greene, Hamilton, Herkimer, Lewis, Madison, Montgomery, Oneida, Otsego, Rensselaer, Saratoga, Schenectady, Schoharie, St Lawrence, Warren, Washington	24.6%	24.5%	24.6%
Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Livingston, Monroe, Niagara, Ontario, Orleans, Seneca, Wayne, Wyoming, Yates	37.0%	37.0%	37.0%
Broome, Cayuga, Chemung, Cortland, Jefferson, Onondaga, Oswego, Schuyler, Steuben, Tioga, Tompkins	22.2%	22.2%	22.2%

Please be aware that the group's final renewal rate increase for 2012 may be different than the percentages listed above. The Superintendent of Insurance may approve (as requested), modify or deny the proposed rate adjustment. The final rate will include the rate adjustment approved by the NYSID as well as any changes resulting from the benefit plan design chosen and the group's census upon renewal.[2] After rates are approved, you will receive an additional notice with the premium rate adjustment that is ultimately approved by the Superintendent. This notice will be sent at least 60 days before the rate change effective date. Prior to your group's renewal, the group will receive a renewal

[1] Insurance coverage provided by or through UnitedHealthcare Insurance Company of New York.
[2] In the event that other benefit changes (e.g., benefit mandate) are made to our POS product prior to your group's 2012 renewal, those changes may also impact the final premium rate.

package with the renewal rates for the group's benefit plan. The group will also be able to choose other plan options at that time.

You have 30 days from the date of our filing to contact the NYSID to request additional information or to submit written comments regarding our rate filing. Written comments should include the insurer and product name. Written comments submitted to the NYSID will be posted to the NYSID's website, with personal identifying information removed. Dear <BA First Name> <BA Last Name>,

Thank you for allowing UnitedHealthcare to serve your health benefit plan needs. We are writing as a follow-up to our rate application with the New York State Insurance Department (NYSID) on July 8, 2011. This notice is being sent to you and your group's employees who are certificate holders to notify you of the approved increases.

The NYSID approved the following rate increases related to medical cost trends which will be added to your group's current 2011 premium rate (groups without pharmacy benefits should review the medical increase only):

Renewal Date: January 2012 – March 2012			
Counties	**Approved Medical Trend Increase Over 2011 Medical Premium (%)**	**Approved Pharmacy Trend Increase Over 2011 Pharmacy Premium (%)**	**Estimated Total Trend Increase Over 2011 Premium (%)**
Albany, Chenango, Clinton, Columbia, Delaware, Essex, Franklin, Fulton, Greene, Hamilton, Herkimer, Lewis, Madison, Montgomery, Oneida, Otsego, Rensselaer, Saratoga, Schenectady, Schoharie, St Lawrence, Warren, Washington	A%	B%	C%
Allegany, Cattaraugus, Chautauqua, Erie, Genesee, Livingston, Monroe, Niagara, Ontario, Orleans, Seneca, Wayne, Wyoming, Yates	S%	T%	U%
Broome, Cayuga, Chemung, Cortland, Jefferson, Onondaga, Oswego, Schuyler, Steuben, Tioga, Tompkins	X%	Y%	Z%

Please be aware that the approved increases do not reflect the final renewal increase. Your group's final renewal rate will be based on 1) the rate increases approved by the NYSID reflected in this notice, 2) plan design changes your group make at renewal, and 3) changes to your group's census at renewal.[1]

Prior to your group's renewal, you will receive additional renewal materials with your group's final renewal rate. Your group will also be able to choose other plan options at that time.

[1] We do not have any benefit changes on file with the NYSID. In the event that benefit changes (e.g., benefit mandate) are made to our EPO product prior to your 2012 renewal, those changes may also impact your final premium rates.

Thank you for your business.
