## NEW YORK INSURANCE DEPARTMENT

### Instructions/Review Standards for Rate Adjustment Filings Submitted Pursuant to Section 3231(e)(1) or Section 4308(c) of the New York Insurance Law

As of 5/24/2011

Use this Checklist for all rate adjustment filings submitted pursuant to Section 3231(e)(1) or Section 4308(c) of the New York Insurance Law. One of the following two SERFF filing type codes must be used to properly denote such a filing. A rate submission with the wrong filing type code will be rejected and will need to be resubmitted with the correct filing type code.

**Rate Adjustment Pursuant to Section 3231(e)(1):** This filing type is used for Article 42 insurers that are submitting a rate adjustment only filing for a hospital and/or medical coverage (including Medicare Supplemental insurance) for small groups and individuals under the Section 3231(e)(1) prior approval process. This filing type cannot be used for form filings, initial rate filings, or by Article 43 Corporations or Health Maintenance Organizations (HMOs).

**Rate Adjustment Pursuant to Section 4308(c):** This filing type is used for Article 43 Corporations and HMOs that are submitting a rate adjustment only filing for any policy form that uses a community rating structure as described in Section 4317(a) of the Insurance Law. This includes hospital and/or medical policy forms, or separate stand-alone dental policy forms, that are not required to be community rated but for which the corporation voluntarily community rates as described in Section 4317(a) of the Insurance Law. This also includes the HMO portion of large group Point of Service business where an approved experience rating formula is not used. This filing code cannot be used for form filings, initial rate filings, or by commercial insurers.

A rate adjustment filing submitted pursuant to Section 3231(e)(1) or Section 4308(c) can include an expansion of an existing rate table to include new benefit options (such as rates for additional copays or deductibles) provided that: (a) the already approved contract language includes the new benefit options being added, (b) the actuarial memorandum clearly identifies the new benefit options being added and provides appropriate actuarial support for the new rates, and (c) approved contract language pages and the Department's approval letter are included with the rate filing documenting that the benefit options being added are included in the already approved contract language. No Section 3231(e)(1) or Section 4308(c) rate adjustment filing can include rates that require contract language approval where such approval has not already been received.

A change to existing rating region differentials is a rate adjustment filing pursuant to Section 3231(e)(1) or Section 4308(c). A rate adjustment filing submitted pursuant to Section 3231(e)(1) or Section 4308(c) cannot reflect an expansion to a new service area. A service area expansion, and the rate applicable to that new service area, must be submitted as a separate rate filing using the "Normal Pre-Approval" SERFF filing type code. A Section 3231(e)(1) or Section 4308(c) filing cannot be used to withdraw from a service area.

If a company wishes to eliminate some of its approved benefit options included in the current rate manual, this cannot be done pursuant to a Section 3231(e)(1) or Section 4308(c) rate adjustment application. Such elimination is to be implemented by submitting a form and rate filing using the "Normal Pre-Approval" SERFF filing type code and the filing is to include a revised statement of variables for the benefit options that are available along with revised rate manual pages reflecting the revised benefit options.

A rate adjustment filing submitted pursuant to Section 3231(e)(1) or Section 4308(c) cannot include any revision to existing contract language or include new contract language. Any rate filing in connection with a form filing (a new form or a revision to an existing form) must be a separate filing from the rate adjustment filing. Once a new rate has been approved (for a new policy form or for a revision to an existing policy form), such new rate can be incorporated into the next Section 3231(e)(1) or Section 4308(c) rate adjustment filing.

The "Normal Pre-Approval" SERFF filing type code triggers the traditional Department review (generally by the Albany Health Bureau unit) and would be used for all form and rate filings, form only filings, experience rating formula filings, or commercial insurer rate only filings other than filings submitted pursuant to Section 3231(e)(1), or Article 43 Corporation and HMO rate only filings other than filings submitted pursuant to Section 4308(c). The "Normal Pre-Approval" SERFF filing type

## NEW YORK INSURANCE DEPARTMENT

### Instructions/Review Standards for Rate Adjustment Filings Submitted Pursuant to Section 3231(e)(1) or Section 4308(c) of the New York Insurance Law

code would also be used for old individual medical policy forms that are not community rated. Rate revisions for products subject to Section 3231(e)(1) or 4308(c) incorporated into a form and rate filing that adjusts an existing policy form for a change in benefit language can only reflect rate changes due to the benefit revision and can not reflect any adjustment for experience or trend. A “Normal Pre-Approval” SERFF type filing for a product subject to Section 3231(e)(1) or 4308(c) can not include rolling rate tables that extend beyond the period included in the most recent approved or pending Section 3231(e)(1) or Section 4308(c) rate adjustment submission (for example, the last rate adjustment submission included quarterly rolling rate tables for each calendar quarter of 2011; a benefit revision is submitted January 2011 to be effective July 1, 2011; this form and rate filing can include rolling rate tables for third and fourth quarter 2011, but not beyond fourth quarter 2011).

New or revised commission schedules or broker fee schedules must first be placed on file using a rate filing with a “Normal Pre-Approval” SERFF filing type code. Once the new or revised schedule has been placed on file, any rate impact can be included with the next Section 3231(e)(1) or Section 4308(c) rate adjustment filing and the change and its impact on the premium rates is to be discussed in the actuarial memorandum.

It is recommended that a Section 3231(e)(1) or Section 4308(c) rate filing application be submitted at least 150 days before the proposed effective date, however, in determining how far in advance to submit such a rate filing, the company should consider: the time needed to load final rates into its computer system; produce the final rate notice, which is to be sent at least 60 days before the scheduled rate change effective date of the renewal cohort; the 60 days the Department has to review the material; and the time the clock may be stopped while the company responds to issues raised by the Department about the rate filing.

It is recommended that a rate adjustment submission not be submitted more than 180 days prior to the proposed rate effective date. It is recommended that a rate adjustment submission not be submitted less than 125 days prior to the proposed effective date since there is a high probability that a decision on such a filing will not occur in time for the company to send the required final notice to the first renewal cohort affected by the rate adjustment filing. If a company can not send the required final notice at least 60 days in advance of the rate change date for a particular renewal cohort, then the rate change implementation date for such renewal cohort will need to be deferred. Contract terms will dictate whether the rate change can be deferred to a later implementation date for that renewal cohort (e.g., for the July 2012 renewal cohort, deferring the rate change to August 2012, while retaining the next rate change date as July 2013), or deferring implementation of the newly approved rates to a later renewal cohort (e.g., assuming quarterly rolling rates are used: renewing the July 2012 renewal cohort using the previously approved second quarter 2012 rate tables, and implementing the newly approved rates with the August 2012 renewal cohort).

Each attachment to the rate adjustment application must be compatible with the following software: Microsoft Word 2003, Microsoft Excel 2003, or Adobe Acrobat 9.

REVIEW REQUIREMENT	REFERENCE	DESCRIPTION OF REVIEW STANDARDS REQUIREMENTS	LOCATION OF STANDARD IN FILING
<b>DEFINITIONS</b>	a.	<p><b>Company</b> refers to the licensed entity providing the insurance coverage reflected in the rate adjustment filing.</p> <p>b. A company’s <b>commercial book of business</b> includes all of the following: large group, small group, direct pay, Healthy New York, and Medicare Supplemental. It excludes all government programs, such as, Medicare, Medicaid, Family Health Plus, and Child Health Plus.</p> <p>c. <b>Loss ratio</b> refers to incurred claims divided by earned premiums for a given period of time. Incurred claims <u>includes</u> the impact of the Standard Direct Pay and Healthy New York stop loss pools, Regulation 146 (11 NYCRR 361), covered</p>	

**NEW YORK INSURANCE DEPARTMENT**

**Instructions/Review Standards for Rate Adjustment Filings Submitted Pursuant to Section 3231(e)(1) or Section 4308(c) of the New York Insurance Law**

		<p>lives assessments, and the HCRA surcharge. Incurred claims do not include any administrative expenses. Earned premiums <u>do not include</u> any adjustment for assessments or taxes.</p> <p>d. <b>Market segment</b> refers to large group, small group, sole proprietor, direct pay, Healthy New York, Medicare Supplemental, etc.</p> <p>e. <b>Product street name</b> refers to the product name as advertised to consumers, and the product name which consumers are most likely to use when communicating with the Department.</p> <p>f. <b>Rate applicability period</b> refers to the length of time in which the rates in a rate table are assumed to remain in effect.</p> <p>(i) Example 1: A non-rolling rate table is developed to be effective January 1, 2012 and is expected to be revised January 1, 2013. The rate applicability period for this table is January 1, 2012 through December 31, 2012.</p> <p>(ii) Example 2: A quarterly rolling rate table is developed for issues and renewals in January – March 2012 and incorporates a 12 month rate guarantee period. The rate applicability period for this table is February 15, 2012 (mid renewal date) through February 14, 2013. If all policyholders must have a first of the month effective date, then the rate applicability period would be considered as February 1, 2012 through January 31, 2013.</p> <p>g. <b>Standardized earned premium</b> is the earned premium for the period adjusted to assume that all premiums for the period are payable at the most current approved (or deemed approved) rate level, reflecting rate increases exclusive of rate changes due to contract language changes (i.e., excluding rate changes due to benefit revisions or members migrating to different plan designs since the impact of such changes would be automatically reflected in the earned premiums and incurred claims once such a change becomes effective).</p> <p>(i) Example: The rate filing is to implement quarterly rolling rate tables applicable to the 3<sup>rd</sup> and 4<sup>th</sup> quarters 2011 and 1<sup>st</sup> and 2<sup>nd</sup> quarters 2012. The 2<sup>nd</sup> quarter 2011 rates have already been approved. Therefore, the 2<sup>nd</sup> quarter 2011 rate tables are the current rate level. The earned premium for the period would be adjusted to reflect the premiums that would have been paid for that period if all the premiums had been paid at the 2<sup>nd</sup> quarter 2011 rate level. If the 2<sup>nd</sup> quarter 2011 rate table included a 2% increase due to the addition of a new benefit that is being added to all policyholders at renewal, the standardization for periods prior to April 1, 2011 would not reflect this 2% increase since the incurred claims for this earlier period did not reflect this additional benefit.</p> <p>(ii) Example: An insurance company uses a quarterly rolling rate structure and has been raising rates 4% each quarter as of the beginning of a new quarter. The first quarter 2010 rate for plan design A is \$100, the first quarter 2011 rate is \$116.99, and the second quarter 2011 rate is \$121.67. These increases reflect</p>

		<p>no revision to the underlying covered benefits. The second quarter 2011 rate table is the standard rate level. Contract X was paying \$100 per month for January-December 2010. At renewal January 1, 2011, the premium was scheduled to increase to \$116.99 but a change to plan design B occurred that reduced the premium by 5% to \$111.14 for January 2011 and later. The second quarter 2011 rate for plan design A is \$121.67 and the second quarter 2011 rate for plan design B is \$115.58 (\$121.67 x 0.95). The earned premium for this contract for each month from January through December 2010 is standardized to the second quarter 2011 level by adjusting by 121.67/100.00, and the January 2011 earned premium is standardized to the second quarter 2011 level by adjusting by 115.58/111.14.</p>	
<p><b>ROLLING RATE STRUCTURE</b></p>	<p>a.</p>	<p>Every rate filing for a rolling rate structure must include rolling rates for at least a 6 month, and for no more than a 12 month, issue/renewal period (e.g., between 2 and 4 quarterly rolling rates, between 6 and 12 monthly rolling rates).</p> <p>b. Beginning with rate filings to be effective January 1, 2012 or later, all rate filings for a rolling rate structure must include rolling rates for a 12 month issue/renewal period.</p> <p>c. Notwithstanding the above, a large group HMO rate filing can include rolling rates for up to a 24 month period (e.g., 8 quarterly rolling rates, 24 monthly rolling rates).</p>	<p>See Rate/Rule Schedule tab in SERFF submission.</p>
<p><b>CHANGES TO PREVIOUSLY APPROVED RATE TABLES</b></p>	<p>a.</p>	<p>Beginning with rate adjustment filings that include rate tables to be effective January 1, 2012 or later, the rate adjustment filing must include all community rated policy forms within a given market segment (such as all small group products) whether or not a premium rate adjustment is requested for a particular product or rider in that market segment. All entities within the same holding company system are to submit filings for a given market segment at the same time; the filings can be submitted under different SERFF filings, but all the applicable filings must be submitted within a total of seven calendar days.</p> <p>b. A company can revise a previously approved non-rolling rate table provided that:</p> <p>(i) The proposed effective date of the rate table is at least 12 months after the effective date of the current rate table; or</p> <p>(ii) The proposed effective date of the rate table is at least 6 months after the effective date of the current rate table, the contract language permits revising the rate table in accordance with such rate filing, and all policyholders that received a final 60 day notice about the approved rates from the previously approved rate adjustment filing have also received the rate change approved from the previously approved rate adjustment filing.</p> <p>c. A company can revise rate tables included in a previously approved rolling rate filing provided that: (i) the rate tables being revised were never implemented, (ii)</p>	<p>See Rate/Rule Schedule tab in SERFF submission.</p>

		<p>the first two quarterly rate tables, or the first six monthly rate tables, included in the previously approved rate adjustment filing are not revised, and (iii) policyholders in the renewal cohort(s) affected by the change to the previously approved rate tables did not receive a final 60 day notice informing them of the approved rates from the previously approved rate adjustment filing. The revised rate adjustment filing must include a year’s worth of rates as discussed in the “Rolling Rate Structure” section above. (Example: A rolling rate filing was submitted and approved that included quarterly rolling rate tables for 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup> and 4<sup>th</sup> quarter of 2011. The company can not revise the 1<sup>st</sup> and 2<sup>nd</sup> quarter 2011 rate tables, but if the indicated criteria is met, can submit a new prior approval rate filing that includes rolling rates for 3<sup>rd</sup> and 4<sup>th</sup> quarter 2011 and 1<sup>st</sup> and 2<sup>nd</sup> quarter 2012.) The Department may waive these requirements if the company can demonstrate to the Superintendent’s satisfaction that the solvency of the corporation is threatened.</p>	
<p><b>STANDARD EXHIBITS 1 - 7</b></p>	<p>Introduction</p>	<p>Exhibits 1 through 7 must be submitted as part of each rate adjustment application. For some of the exhibits the format is defined, while for other exhibits the format is illustrative and the company will need to tailor the material included for the specific rate submission.</p>	
<p><b>Exhibit 1</b></p>		<p><b>General information about the rate adjustment submission.</b></p> <ol style="list-style-type: none"> <li>a. The format for this exhibit is fixed. Fill in the various information fields; the information being requested is indicated on the exhibit.</li> <li>b. For Type of Insurer, select from the drop down list (HMO, Article 42, Article 43) or make an entry.</li> <li>c. For “For Profit” or “Non Profit” click on the applicable box and a check mark will appear.</li> <li>d. Item D – the “new rate effective date” must be a realistic implementation date given the review time allowed the Department and the requirement of the 60 day final rate notice. This date would usually be the first date the proposed rates would affect renewing policyholders. So a 1/1/2012 effective date would imply that the first renewal cohort affected by the rate submission would be January 2012.</li> <li>e. Item F.1 – a rate adjustment filing that also includes rate adjustments for unapproved contract language changes will be rejected.</li> <li>f. 		<p>Exemption to any information contained in this submission that is not included in this exhibit may not be honored by the Department.</p> <p>c. In light of the open government purpose underlying FOIL, the Department favors redacting portions of documents, and disclosing the balance of such documents, as opposed to withholding documents in their entirety, where such redactions will suffice to protect the exempt information. Therefore, the Company should submit to the Department both the original document and a redacted version of the original document, which omits or blocks the information it wishes to exempt from disclosure. The Department will accept the redacted version of the original document within one week after the original rate filing was submitted.</p> <p>d. The exhibit format is illustrative but the company must include the information indicated in sections A, B, C, D and E. The exhibit may be submitted as a Word document file, an Adobe PDF file, or an Excel file.</p> <p>e. Enter in section A the insurer information requested.</p> <p>f. Enter in section B the information requested regarding the FOIL contact person at the company.</p> <p>g. Enter in section C the list of documents, exhibits and attachments separately, including the file names of the computer files that are included with the application. Indicate with an asterisk (*) those documents that the company believes contains information subject to the Trade Secret/Competitive Injury Exemption. Any document without an asterisk will be deemed to be a public document.</p> <p>h. Enter in section D the list of all documents, exhibits, and attachments, of which a portion has been redacted, including the file names of computer files that are included with the application. The unredacted portion(s) of the redacted documents may be deemed to be public.</p> <p>i. Enter in section E the statement of necessity. A request that the Department apply the Trade Secret/Competitive Injury Exemption to any information included in this submission must be accompanied by a written statement of necessity that:</p> <ul style="list-style-type: none"> <li>(i) identifies the specific parts of the submission for which the Company believes the Trade Secret/Competitive Injury Exemption should be applied;</li> <li>(ii) specifies the reasons why the submission, or parts thereof, should be exempt from disclosure pursuant to the Trade Secret/Competitive Injury Exemption; and</li> <li>(iii) where applicable, indicates where redactions would suffice to protect the exempt information.</li> </ul>

		<p>exhibit may be submitted as a Word document file, an Adobe PDF file, or an Excel file.</p> <p>b. The narrative summary is to explain the reason(s) for the proposed rate adjustment. The purpose of the narrative summary is to provide a written explanation to the company’s policyholders and subscribers to help them understand why a rate increase is needed.</p> <p>c. The narrative summary will be a public document.</p> <p>d. It is suggested that once reviewed by the Department, the company post the narrative summary on its website. Any changes to the narrative summary subsequent to the posting are to be submitted to the Department.</p> <p>e. The narrative summary should include, but not be limited to, the following information:</p> <p>(i) The name of the company submitting the rate adjustment request, the NAIC code number for the company, and the SERFF number for the rate application.</p> <p>(ii) A summary of the proposed rate adjustments. This can be a range as long as the range is consistent with the range(s) stated in the initial notice to policyholders for the various products and rating regions. A range can be no wider than five percentage points.</p> <p>(iii) A description of which policyholders are affected by this rate adjustment application. The rate adjustment may only affect policyholders in a certain market segment (e.g., small group), or with certain products (indicate the “street name” of the products affected), or only a certain renewal cohort (e.g., policyholders renewing from period mm/dd/yyyy – mm/dd/yyyy).</p> <p>(iv) The effective date of the proposed rate adjustments and an indication of when the rate change would affect policyholders. Examples:</p> <p>(a) Non guaranteed rate structure: all policyholders will receive the rate adjustment on mm/dd/yyyy.</p> <p>(b) A rate structure with a 12 month rate guarantee: a policyholder will receive the rate adjustment on the policyholder’s next anniversary on or after mm/dd/yyyy.</p> <p>(v) The number of policyholders and members affected by the proposed rate adjustments. This can be aggregated across all market segments and products included in the rate adjustment submission.</p> <p>(vi) An explanation, in plan language, as to why it is necessary to request such rate change(s). As appropriate, a separate explanation should be provided for each market segment. Where the rate increases are not the same for each product type within a market segment, the company should provide a separate explanation for each such product type.</p> <p>Each page of the narrative summary should be numbered (i.e., [page] of [pages]).</p>	<p>See Supporting Documentation tab of SERFF submission.</p>

<p><b>Exhibit 4</b></p>		<p><b>Summary of Proposed Percentage Rate Change to Existing Rate.</b></p> <ul style="list-style-type: none"> <li>a. The information to be shown in this exhibit pertains to the market segments and products included in the rate adjustment submission.</li> <li>b. This exhibit must be submitted as an Excel file even if it is also submitted as an Adobe PDF file. The format of the exhibit is essentially fixed, but additional rows can be inserted as needed or additional tabs for several such exhibits can be added to the workbook.</li> <li>c. This exhibit is to summarize the proposed percentage rate changes. The percentage rate change is the percentage change from the rate the subscriber is currently paying (or currently scheduled to be paying at the next rate change date for changes already approved or deemed approved by a prior rate application and which are not being revised by the current rate application) to the proposed rate that this subscriber would be paying at the subscriber’s next rate change date according to the new rate application.                  Example 1: the rate structure is quarterly rolling rates, has a 12 month rate guarantee period, and the rate adjustment application is for second quarter 2012 issues and renewals. The rate change would be the percentage change from the second quarter 2011 rates to proposed second quarter 2012 rates.                  Example 2: the rate application includes quarterly rolling rates for each quarter of calendar year 2012. The prior rate application included quarterly rolling rates for each quarter of 2011. Rates include a 12 month rate guarantee period. The current rate application is submitted July 2011 before all the third and fourth quarter 2011 renewals have taken place. The proposed percentage change for fourth quarter 2012 would be the change from the fourth quarter 2011 rates to the proposed fourth quarter 2012 rates.</li> <li>d. If the subscriber will need to change to a different plan design at renewal (i.e., a required change from the current plan design whether mandated by a government entity or not, but not due to the discontinuation of the current policy form or discontinuation of a particular plan design), a supplement to Exhibit 4 is to be included. The supplemental exhibit is to indicate (i) a high level summary of the difference in covered benefits and cost sharing between the current and replacement plan, and (ii) the estimated pricing percentage change due solely to the difference in the plan designs between the replacement plan and the existing plan. This supplemental exhibit may be submitted as a Word document file, an Adobe PDF file, or an Excel file.</li> <li>e. The weighted averages may be based on membership instead of premium volume.</li> <li>f. The values entered in Sections A and B should follow the organization of the rate manual. If the drug rate is included with the rates in the medical rate table, the combined result is entered in Section A. If the drug rate is a separate rate table associated with a drug rider, then the medical changes are shown in Section A and</li> </ul>	<p>Exhibits 4 and 5:  See Supporting Documentation tab of SERFF submission.</p>

		<p>the drug rider changes are shown in Section B.</p> <p>g. Section A summarizes the proposed changes for the base medical rate tables and excludes the impact of all optional riders. The lowest and highest values indicate for a given market segment, region, policy form, product combination the lowest percentage change that applies to a renewing subscriber/contract holder and the highest percentage change that applies to a renewing subscriber/contract holder. This difference could be due to different percentage changes proposed by rating tier or by plan design within a particular product.          Example: The rate adjustment application is only for small group PPO and within this product there are only two product designs. The proposed rate changes for design A are: employee only = 10%, employee+child(ren) = 8%, employee+spouse = 13% and employee+family = 11%. The proposed rate change for design B are: employee only = 9%, employee+child(ren) = 7%, employee+spouse = 12% and employee+family = 10%. The lowest change proposed is 7% and the highest change proposed is 13%. The weighted average change would reflect the distribution of contracts by plan design and rating tier.</p> <p>h. Section B summarizes the proposed changes just for the traditional drug riders. <u>Exclude</u> minor drug related riders such as a rider to include oral contraceptives. All the drug riders available with a given base medical product can be aggregated into one row.          Example 1: Drug riders D1 to D99 are available with the PPO product. The proposed changes on the drug riders vary from 10% to 16%. There would be one row for the PPO policy form/product. The lowest change proposed is 10% and the highest change proposed is 16%. The weighted average change would reflect the distribution of contracts by plan design and rating tier.          Example 2: As in Example 1, but drug riders HD1-HD19 are available with the HSA high deductible PPO product. There would be another row for the high deductible PPO policy form/product indicating the lowest, highest, and weighted average changes among the HD1-HD19 drug riders.</p> <p>i. A separate exhibit should be completed for each market segment. If the percentage rate change for sole proprietor is different from small group, then a separate market segment of sole proprietor is to be reported.</p> <p>j. Where rate changes differ by rating region within a market segment, separate exhibits are to be submitted by market segment/rating region combination.</p> <p>k. Separate information should be submitted for each rolling rate table of a rolling rate structure. For example: if a calendar quarterly rolling rate structure is used and the rate adjustment filing includes proposed rate tables for first, second, third and fourth quarters 2012, separate information should be submitted for section A and section B for the impact of the first quarter 2012 rate changes, the impact of the second quarter 2012 rate changes, the impact of the third quarter 2012 rate</p>

The format of the exhibit is essentially fixed, but the company can edit the worksheet to add more rows or tabs as needed.</li> <li>b. The information to be shown in this exhibit pertains to the market segments and products included in the rate adjustment submission.</li> <li>c. This exhibit indicates the distribution of the proposed rate changes for each market segment, rating region and product, as well as the weighted average rate change impact for that segment/region/product combination. If the same percentage rate change applies to each rating region, then a separate break out by rating region is not necessary and the results can be shown for all rating regions combined.</li> <li>d. The distribution basis can be by number of contracts or by number of members. The same basis is to be used for all products within a given rate adjustment submission. The company should indicate the distribution basis used (number of contracts or number of members). The weighted averages can be calculated using the distribution basis chosen instead of on premium volume.</li> <li>e. The percentage rate change reflects the expected change in premium rate that would apply to that subscriber/contract holder on that subscriber/contract holder's next rate change date according to the new rate application. This would reflect the percentage rate change from the rate the contract holder is currently paying (or currently scheduled to be paying at the next rate change date for changes already approved or deemed approved by a prior rate application and which is not being revised by the current rate application) to the proposed rate that this contract holder would be paying at the contract holder's next rate change date according to the new rate application. The rate change reflects the impact of the base medical plans and all riders applicable to that contract.</li> <li>f. Enter in section A the information for the various products that do not use a rolling rate structure.</li> <li>g. Enter in section B the information for the various products that use a rolling rate structure. Separate exhibits are to be prepared and submitted for each rolling rate cohort. For example, if the rate submission is for quarterly rolling rate tables for first, second, third and fourth quarter 2012, then separate section B information would be entered for each of these four quarters. The distribution shown for a particular quarter would reflect only those policyholders renewing in that particular quarter.</li> </ul>

In section A, list all rate filings that have been approved since the prior Section 3231(e)(1) or Section 4308(c) rate filing that impact the percentage rate change of the policyholders affected by this rate adjustment submission. The actuarial memorandum should include a brief description of such changes, when the changes were implemented, and the impact on the rate changes in Exhibits 4 and 5.</p> <p>d. In section B, list all rate filings currently pending with the Department that if approved would impact the percentage rate change of the policyholders affected by this rate adjustment submission. 		<p>policy forms for small group policy forms and for individual policy forms.</p> <p>e. Indicate for each base medical policy form if the policy form aggregation has changed from the previous rate filing. If yes, the actuarial memorandum must include an explanation of the change, the rationale for the change, and the percentage rate impact this change has on this policy form and on the policy forms previously aggregated with this policy form.</p> <p>f. The effective date of rate change refers to the proposed effective date of the non-rolling rate table, and/or the proposed effective date of the first rolling rate period of a rolling rate structure.</p> <p>g. The rate guarantee period refers to a non-rolling rate table and/or to the first rate table of a rolling rate structure. (If the rate guarantee period for the rolling rate structure is not the same for each rolling rate period, the actuarial memorandum must discuss this and explain why the length of the rate guarantee periods are not the same.)</p> <p>h. The weighted average rate change percentage proposed (from the rate currently charged the policyholder [or currently scheduled to be charged at the next rate change date for changes already approved or deemed approved by a prior rate application and which is not being revised by the current rate application] to the proposed rate to be charged to that same cohort of policyholders) for the indicated base medical policy form, including all associated riders. The weighting should be based on members. For a rolling rate structure, enter the result for the first rate table in the rolling rate structure. (Example: a quarterly rolling rate filing was submitted that includes rolling rate tables for the 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>, and 4<sup>th</sup> quarters of 2012. Rates are for a 12 month period. Indicate the average rate change percentage from the 1<sup>st</sup> quarter of 2011 rate tables to the 1<sup>st</sup> quarter 2012 rate tables.)</p> <p>i. For the number of policyholders affected and the number of covered lives affected, indicate the effect of all the rate tables of a rolling rate structure included in the rate filing (but not more than 12 months of issues and renewals if more than 12 months of rolling rate tables are included in the rate filing). For group business, “policyholders” is referring to the number of groups, not the number of subscribers or contracts.</p> <p>j. The expected loss ratio is the loss ratio incorporated into the proposed rate tables for each base medical policy form (and the entire rating pool) and includes the impact of associated riders and reflects the impact of the proposed rate changes. 4. Have all the required exhibits been submitted with this rate application? If any exhibit is not applicable, has an explanation been provided why such exhibit is not applicable?	Yes			

**Notes:**

(1) It is recommended that a rate filing application subject to §3231(e)(1) or §4308(c) of the New York Insurance Law be submitted at least 150 days before the proposed effective date. It is recommended that a rate adjustment application not be submitted more than 180 days prior to the proposed effective date. It is recommended that a rate adjustment application not be submitted less than 125 days prior to the proposed effective date since there is a high probability that a decision on such a filing will not occur in time for the company to send the required final notice to the first renewal cohort affected by the rate adjustment filing.

(2) A rate adjustment filing submitted pursuant to §3231(e)(1) or §4308(c) of the New York Insurance Law should **not** include any revision to existing contract language or include new contract language. Any rate filing in connection with a form filing, a new form or a revision to an existing form, must be a separate filing from the rate adjustment filing.

Use the following SERFF filing types for rate adjustment filings:

- \* For a rate adjustment filing pursuant to §3231(e)(1): Rate Adjustment pursuant to §3231(e)(1)
- \* For a rate adjustment filing pursuant to §4308(c): Rate Adjustment pursuant to §4308(c)
- \* For all other prior approval filings: Normal Pre-Approval

(3) §3231(e)(1) and §4308(c) of the New York Insurance Law require that the initial notice to policyholders/subscribers/contract holders be sent on or before the date the rate adjustment application is submitted to the Insurance Department.

## **INFORMATION ABOUT YOUR HIP DIRECT PAY PLAN 2012 RATES**

Health Insurance Plan of Greater New York (HIP) is part of the EmblemHealth group of companies. It is a not-for-profit health service corporation organized under Article 43 of the New York Insurance Law and certified to operate a Health Maintenance Organization (HMO) under Article 44 of the New York Public Health Law. HIP provides benefit plans that enable its members to access covered health care services. Income generated is used to benefit members, either as claim payments or to provide administrative services for the necessary operations of the company. HIP covers over 800,000 members, including approximately 3,750 HIP Direct Pay members.

### **The Components of Your Premium Rate**

Your premium rate consists of two components: the costs of providing medical care and administrative expenses. By far, the largest component is the cost of medical care. Medical costs are represented in the minimum loss ratio (MLR), which is the percentage of the premium used to pay for medical care. New York State law requires that the MLR must be at least 82 percent of the premium charged.

Administrative expenses include: costs for processing claims and appeals; maintenance and upgrading of systems needed to comply with HIPAA, federal health reform mandates and other legal requirements; costs for consumer education, wellness programs and programs for managing chronic and complex medical conditions; costs of maintaining our provider network; costs to operate Web-based information and services for members and providers; costs associated with conducting medical reviews; taxes and other fees.

Before we apply for a rate increase, we thoroughly review claims data and expenses to determine future costs and expenses.

### **The Components of Our 2012 Rate Increase**

HIP is requesting a premium rate increase for its HIP Direct Pay business, effective January 1, 2012. The reason for the requested rate increase is that health care costs have risen dramatically during the past year. The major factors driving rising health care costs are: the increased use of health care services; the growing needs of an aging population that is to a larger extent living with chronic conditions; and the development of costly new medical technologies and prescription drugs.

If the premium rate increase is approved, it will be added to your 2011 renewal premium rate. This increase will apply to all HIP Direct Pay subscribers renewing on January 1, 2012.

The premium rate increase we are requesting is shown below.

**Percent Increase from January 1, 2011 to January 1, 2012: 12.6%**

**Final Rate Increase**

Your final renewal rate may be different from the proposed increase shown above. NYSID may approve, modify or deny them. We will notify you of your final, approved rates approximately 60 days before your renewal date.

At this time, we have not filed any benefit changes to these plans with the New York State Insurance Department (NYSID). In the event that we file benefit changes to these plans – for example due to new benefits mandated by New York State law – those benefit changes may also impact your final premium rates.

\* The effective period of a new rolling rate may vary depending on the rolling structure (e.g., "January - March 2012" for a quarterly rolling rate structure.)

**B. DRUG RIDERS**

Market Segment: \_\_\_\_\_

=> Provide a list of proposed rate changes for drug riders available with base medical products.

Rating Region: \_\_\_\_\_

- => The "proposed percentage rate change" is just for the drug riders available with the indicated base medical product and excludes the impact of the base medical plan rates and non-drug riders.
- The lowest, highest, and weighted average are just among the drug riders available to the indicated base medical product.
- => This is for the traditional drug riders, but not for minor drug related riders such as, the inclusion of oral contraceptives.

- A. Complete a separate response for each base medical policy form included in the rate adjustment filing.
  - Information requested applies to New York State business only.
  - Include riders that may be available with that policy form in each policy form response.
  - Submit a separate exhibit for each rating pool. Create additional tabs for each rating pool as needed.
  - Append additional columns to right of the existing columns (as needed) to include all base medical policy forms included in that rating pool. Add a rightmost column with the aggregate values for that entire rating pool.
- B. Product type is HMO, HMO based POS, POS-OON, EPO, PPO, Comprehensive Major Medical, Non-HMO based POS, Consumer Driven Health Plans, Hospital Only, Medical Only, Base+Supplemental, Supplementary Major Medical, Other Limited Benefit, Medicare Supplement (A, B, C, D, E, F Basic, F High, G, H, I, J Basic, J High, K, L, M, N, or Other - indicate appropriate designation for policy form), etc.
- C. The product street name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/policy form when communicating with the Department).
- D. Note that many cells include a drop down list. Use the drop down list or enter applicable items.
- E. If members, covered lives or member months are not known, use reasonable estimates (note methodology used).
- F. This form must be submitted as an Excel file, even if a version is submitted as a PDF file.

**III. Administrative Fees.**

This section describes alternative compensation available to Agents who perform administrative services normally performed by HIP employees (“Administrative Services”). Such Administrative Services are compensated based upon a per contract per month methodology (“PCPM”) or a per member per month (“PMPM”), as appropriate. The PCPM or PMPM amount will be between \$0 and \$10, depending upon the scope and extent of the services provided, the experience and reputation of the Agent and negotiated market forces. Some of the more common Administrative Services are set forth below:

- i. Process insurance applications;
- ii. Bill, collect and receive premium due;
- iii. Generate and issue the appropriate termination documentation;
- iv. Generate and issue change in enrollment/eligibility forms;
- v. Perform routine services for Groups;
- vi. Recruit Selling Agents;
- vii. Provide other administrative functions, at HIP’s discretion, consistent with HIP policies and procedures; and
- viii. Provide appropriate reporting services.

**ALL COMMISSIONS AND FEES ARE SUBJECT TO CHANGE**  
**DUE TO REGULATORY OR PLAN INSTRUCTION**
