Subject Rate Increases

I would like to inform you that I am very much opposed to the Rate increase proposed for 1/1/2012. If this increase is approved, it will be the 3rd increase we have received since joining the program three years ago. The rate of increase proposed is much higher than the reported rate of inflation as were the other increases.

Sincerely,

Subject Proposed Rate Increases

I am very disappointed and upset over the proposed Medicare Supplemental Rate increases proposed for January 1, 2012. If these are approved, they will be the 3rd increase we have been given since joining the program in October, 2008. Enough is ENOUGH.
