

EXHIBIT 14A

EXHIBIT 14 - PART A: SUMMARY OF REQUESTED PERCENTAGE CHANGES TO EXISTING RATES

-- for Individual Medical Plans

Company Name: Excellus Health Plan, Inc.
 NAIC Code: 55107
 SERFF Tracking #: EXHP-129573698
 Market Segment: Individuals Off Exchange

- 1) Use this Exhibit for Individual Medical Plans. Individual market ACA compliant plans must use non-rolling rates where rates change each January 1.
- 2) The format of this exhibit is discussed below. Add more rows as needed. Only use the first tab for data entry.
- 3) Market segment refers to Individual plans.
- 4) The requested percentage rate change reflects the expected change in premium rates that would apply to the contract holder on that contract holder's next rate change date for each contract.
- 5) The product name is the product name as advertised to consumers (i.e., as consumers are likely to refer to this product/metal level when communicating with DFS). A separate row is to be used for each product.
- 6) If the percentage changes (lowest and highest and weighted average) are identical for all the rating regions, then separate rows by rating region need not be used, and "All Regions" can be used.
- 7) The "requested rate change" includes the impact of any riders (such as: age 29, domestic partner, family planning, pediatric dental, etc.).
- 8) Lowest should be the smallest percentage change that could affect any contract holder due to the submitted rate filing with that metal level, and rating region, including any applicable riders.
- 9) Highest should be the largest percentage change that could affect any contract holder due to the submitted rate filing with that metal level, and rating region, including any applicable riders.
- 10) The weighted average percentage should be developed based on annualized premium volume or membership for that metal level, and rating region, including any applicable riders.
- 11) This exhibit must be submitted as an Excel file and as a PDF file.
