History:

This message has been replied to.

I think it is outrageous that you are increasing our rates!!! We work very hard to get by like every other American and the rates for insurance are very high.

Obama made a promise and a change to the American people and if every year you think you can raise these rates, then it defeats Obama's care reform.

I am totally against this increase in rates and it is unjustifiable. I do not wish for my insurance rates to increase, it is already very hard to keep up with payments and we barely use it.

Thank you.

You've got to be kidding an 18% increase!! I can understand a cost of living percent but to use the excuse that more older people are in the system requiring more services is insane since YOU are an insurance company and rely on people buying your insurance. The reason you have more older people is because your cost was the lowest therefore more older people applied. I am on a fixed income. I wish I could say to my pension system "Hey I'd like an 18% increase cause the cost of living has gone up and my medical insurance wants more money" Well that ain't gonna happen and I feel your rate increase shouldn't happen either for the same reasons. As an individual I do NOT have the same bargaining power in the medical system as 50,000 individuals that you get premiums from. An xray under your insurance gets paid to the Dr as \$50 plus my contribution of \$30. To have the same xray as a noninsured individual would cost me \$175 (a 54% increase). I NEED THE BARGAINING POWER OF AN INSURANCE COMPANY TO HELP ME SURVIVE. Why don't you ask the Docs to take 18% less instead of charging me 18% more??

I had research all the insurance companies on the NY State Health Exchange with plans, rates, deductibles and chose Fidelis Care Gold with a \$600.00 deductible. The cost for an individual is \$422.00 per month. I received a letter from Fidelis stated they are looking for an increase of 21.41% which amounts to over \$90.00 more per month. The affordable care act is suppose to help people AFFORD health insurance. Insurance companies make too much profits and when will it end. If these increases are approved by NY State each year, more and more people will be force out of the state or apply for welfare. Please reconsider these increases. Thank you

Re: Notice of Proposed Premium Rate Change
Fidelis Care Bronze [REDACTED]

I am currently a Fidelis Care member for my health insurance [REDACTED] I just received notice that my policy may increase from \$270.33 to \$297.60 by 2015. I'm extremely upset over this since I'm very healthy and only need and get preventive care such as mammograms, pap test, bone density in which I just had, and paid forty-nine dollars for. Before this NYS health plan I had Empire Blue Cross 2012 and 2013 and paid \$165.00 per month and I did not have to pay anything for my bone density test. When President Obama said if you like the insurance plan that you have you can keep it. He lied! Empire Blue Cross said they would not let me have my old policy.

Fidelis Care explains that the future costs "will be less than shown above and your 2015 premium will be less than shown above if you qualify for the APTC again next year. I don't qualify for the APTC! Please don't allow them to continue to pick my pocket!

If my policy increases to \$297.60 per month I feel as though it is all for nothing since the last time I went to a doctor, **NOT** for preventive care, was in 2007 and 2009 for a cortisone shot. With the money I am forced to pay monthly I could pay for ALL of my doctor's appointments with cash and have a lot of money left. Both of my parents at 91 and 93 are still alive. My Dad plays golf and visits the casinos and my sister is 65 and just got on Medicare and she also never had any health insurance till now. I may end up doing what she did. Since I'm not overweight, exercise and eat properly I may just take the penalty. I'm the kind of customer that insurance companies would love to have but I'm tired of being penalized for being healthy.

Sincerely,

To whom it may concern:

We're beyond outraged of this premium increase request from Fidelis Care (Bronze), especially since we've only started our Health Insurance coverage with them on April 1, 2014 and this letter is dated June 13, 2014, After ONLY 2 ½ MONTHS, Fidelis Care decides that for next year (2015) they're going to increase our premiums from \$776.88 to \$946.27! That's outrageous, and how does Fidelis Care justify this premium increase? For years, we've been self insured with Assurant while living in Texas; now that we've moved back to New York (our native State) we get these outrageous premiums increases. As it is, we find \$776.88 per month to be too much for premiums, we need lower premiums and the high out of pocket deductible is high, too. And now Fidelis Care Bronze want to increase our monthly premiums to \$946.27? We disagree with this increase and if Fidelis Care Bronze is going to increase our premiums to \$946.27, we simply won't be using their health insurance services for 2015.

This so-called "Affordable Care Act" isn't affordable and needs REFORM! We disagree with this proposed increase and are beyond outraged. We won't be accepting this increase.

Should you need to reach us please email me at  or by mail at our home address listed above.

To whom it may concern:

I am writing this letter in regard to a possible rate increase with ObamaCare (Marketplace). I am the policyholder with NYS Catholic Health Plan (Fidelis Care). The name of my plan is, Fidelis Care Silver. I have individual coverage for myself [REDACTED] [REDACTED]. My HHS identification number is [REDACTED] Member ID [REDACTED]

We have been without medical insurance since 2009 when my "ex" left us. I work two part-time jobs to make ends meet. Neither job will allow me to have health insurance. So, in March of 2014 I finally was able to get insurance for both of us with this so called "ObamaCare." I did this also because I understood that each year we did not have insurance I would have to pay a penalty at tax time. Which in turn the penalty is supposed to increase a considerable amount.

My complaint is that if you increase my monthly premium I am not going to be able to pay a higher bill (I pay \$175 a mos. on top of all other bills). No matter what I do the government and state is going to penalize me. How is it that people can retain health insurance when all you do is price the insurance so that we as hard working citizens can not afford to pay the monthly premiums??!! Also, if we don't keep the insurance we get penalized

at tax time!! Finally, I was told that I would not have to sign up again for 5 years and my premium that I had to continue to pay would be \$175 per month for both of us!!!

I would appreciate your time in this matter.

RE: Notice of Proposed Premium Rate Change
New York State Catholic Health Plan (Fidelis Care)

Dear Sir/ Madam:

I am writing to you today to express my dismay. The increase proposed on my monthly premium for 2015 is exorbitant. My income cannot support any increase on my monthly premium; I am at the limit for what I can afford and an increase will make health care unaffordable for me.

I cannot communicate to you accurately in words the reaction to the proposed increase, but I can tell you tears fell.

When I applied to Fidelis Care for health coverage, I was confident that I had budgeted as strictly as I could so that I could afford to pay the monthly premiums. I made sacrifices, and gave up other necessities in order to pay for health insurance.

Now I find myself in a horrible situation, one where I do not think I can continue to pay for health insurance if my monthly premium will increase even a little. The requirement of the Affordable Health Care Act to apply for and get health insurance has only made my life more difficult by creating an enormous burden on me. I am anxious at the thought of my monthly premium going higher and higher each year as the insurance companies slowly strangle me to death with bills.

I'm scared. I believe that I will have to cancel my insurance as I know I cannot afford to pay any more than I am already paying. I beg you for help. I cannot be the only person who is hurting like this. Ever since I received the notice I have not slept well and soon it will make me physically ill.

I truly appreciate your consideration of my situation and truly hope you will be able to help me.

Sincerely,

July 4, 2014

I do believe AN increase to the premium of my health care coverage is unreasonable!

I only got medical coverage due to OBAMA'S MANDATORY HEALTH CARE LAW. I got coverage just this April. (14) And you already want higher premiums? You do not understand the hardship this will CAUSE me and thousands of lower income households. I already struggle to PAY my premiums now. WHAT will I do if you get your increase?

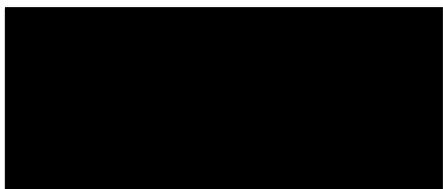

Plus if you review my coverage, let's face it - the coverage is really nothing (Barly minium) A well-ness visit yes I got it. But if I get sick I get NO help with ANY bills until I meet a \$3,000 deductible. I AM healthy and do not require a doctor often. Also no help with prescriptions until I meet my deductible. And what younger and healthy person will ever spend that much without AN accident or serious illness.

So, For me this is Not A great policy, but it keeps me with in the LAW.

I truly hope that you
don't get your increase.
But in the event that
you do - I will have
to ~~will~~ rethink my situation,
And probably cancel my
policy and not follow the
Law since I will not be
able to afford coverage

RE: Proposed Premium Rate Change

I can barely afford mandated medical insurance my employer does not provide so I chose Fidelis Care which appeared to be affordable. It took me 3 months just to find a primary care provider. I did find one medical center where I see Physicians Assistants and wait months now to see a real doctor. It's a good thing I'm not a sickly person. I can't find a hospital in the area that takes this insurance nor can I find specialists. I can barely make ends meet financially and this current Fidelis Care Bronze plan already costs more than I can afford and now they want an increase, are they insane? I think it is absurd that I must pay for medical that I cannot afford. There is something very wrong with this system. Where are the doctors who take this plan? Where are the hospitals, labs and specialists that take this plan?

Please do not increase these premiums and lets be more realistic with these costs. I can barely afford it now and I only have it because I've been mandated to by the government. I've given up my daily lunch at work due to my new medical costs and when I eat, I eat junk. I am healthy and would like to remain that way. Eating junk should not be a solution so I can afford medical insurance. I thank God I am healthy and will pray I remain that way.

This mandated insurance is something the government should pay not me. The government is quick to hand out money to strangers. How about taking care of us.

Please help me,

Re:

To whom it may concern:

This letter is to address the Notice of Purposed Premium Rate Change that I recently received from Fidelis Care. According to the notice, if the rate increase is approved, my current monthly premium of \$510.27 will increase to \$625.00. Even at the current rate, the financial burden of my healthcare premiums and copays already take an enormous toll on our household, which is supported solely on my husbands income, as I am a housewife. I carry a diagnosis of multiple sclerosis for which I am under treatment involving very expensive medication, frequent MRI and MRA studies, regular lab work and office visits to my PCP and neurologist, not to mention extended hospital stays in the event of an acute relapse. Healthcare coverage is absolutely necessary for me, but almost impossible to afford. The proposed premium increase would be catastrophic to our household budget, and I ask you to please consider my family, and the many families out there who like mine, struggle every month to afford their healthcare. Please, do not approve this increase.

[REDACTED]

Dear: Sir/Madam

I am writing this letter to you in regards to your notice from Fidelis Care where their company sent to me notice informing me that they wished to seek permission to increase my yearly premium rate. As is currently stands my premium rate is \$689.85, and I only pay \$90.85 each month. This is something I agreed upon when I signed up with Fidelis Care. I was not told on January 10th, 2014 when I signed up with Fidelis Care that in less than a year that they would be seeking to increase my premium. From the time I signed up with Fidelis Care I only seen a Physician Assistant once for a checkup. So what justifies this increase that I will not be able to afford? As it stands this \$90.85 monthly is hard on my budget. Under the Obama care we are all required to have affordable insurance. Is this some sort of ploy by Fidelis Care that they have me sign up under an affordable rate and then less than a year they are trying to increase my rate? I hope that you will rule against any decision to seek permission to increase my premium rate, and leave it as it is. I am sending a copy of this letter to Fidelis Care as well. Thank you for your time and consideration in this matter, and I hope to hear from you soon.

Respectfully,

email: premiumrateincreases@dfs.ny.gov

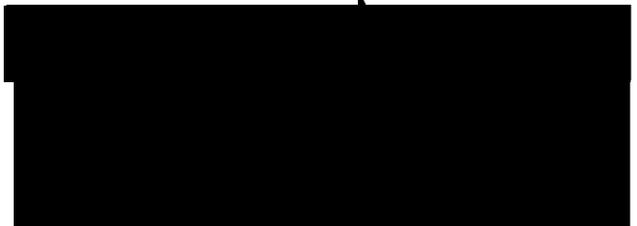

Dear NYS Department of Financial Services:

I applied for health insurance through the New York State Health Exchange for my wife and I and selected Fidelis Care's Silver Plan because the monthly premium rates seemed affordable. I recently received a letter informing me that Fidelis Care (New York State Catholic Health Plan) has applied for a monthly premium increase from \$689.85 to \$826.52 for 2015.

Under the current plan, I pay out-of-pocket monthly premiums of \$394.85 and am expected to receive a state tax credit equivalent to \$295 per month. My annual deductible is \$1,750.00 and I have varying co-payment amounts ranging from \$30.00 to \$1,500.00 depending upon the type of services sought. I can barely afford the out-of-pocket costs as they are now, and to increase them would force me to go without health coverage.

I believe that it is disingenuous of this health care provider to promote one premium to the public upon the launch of the New York Health Exchange and, then, request an increase less than one year after members enroll in the plan. This is unreasonable, discriminatory and just unfair to the working class families who depend upon the New York Health Exchange to provide affordable health insurance.

Based upon the above, I respectfully request that the proposed rate increase be denied.

June 17, 2014

June 17-2014

ATTENTION: [REDACTED]

It took me 6 months to work my way through the health care exchange, with many hrs. on hold. To find a plan that I could afford. I am self employed for 43 years, married (husband on Medicare) for an individual coverage. In the end Fidelis was what I could afford. The coverage is No way as good as I had with CDPHP for years. I now have an out of pocket pay down of 600.⁰⁰ on top of monthly premiums.

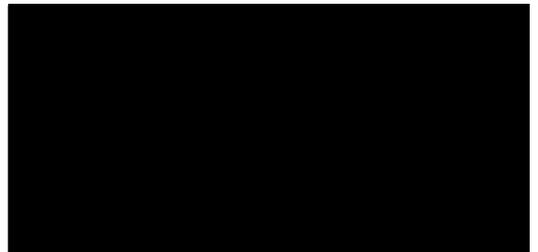

I am entitled to a wellness physical once a year, which I haven't used as yet. Not certain that I will walk out of that appointment with no further expense out of my pocket. Thankful I am as healthy as I am.

Four months into this plan I can expect an increase of 44.80 a month in Jan. 2015. That is a 10% increase. Is this going to be standard procedure every year. You can give me all the reasons this is necessary & I understand. But our president needs to realize the impact it is having on individual plans. We work hard to keep the roof over our heads, while those that have never worked a day in their life, get a free ride.

JUN 23 2014

HEALTH BUREAU
N.Y.C. OFFICE

To Whom it may concern:

I received a letter today informing me that a request for a rate change from my insurance company Fidelis Care NY forwarded to the New York State Department of Financial Services (DFS) for approval.

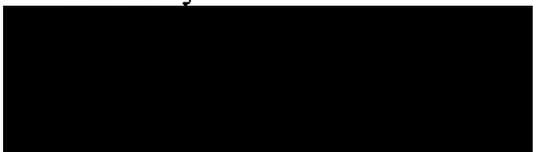

As per our telephone conversation today 6/18/14 with customer service Fidelis Care NY and their response was that they are requesting this increase because of our age bracket. I feel that this is discriminatory because in our age bracket we tend to follow up more with doctors and have more preventive health needs and procedures than younger insurers have. Therefore, they want us to pay more money. That is GREED! On the backs of older citizens.

It is with great dismay and sadness that these insurance companies are constantly trying to rape us financially. As older folks it is disgusting that these insurance company are trying to increase our rates and many of times getting away with it., while many of us are on fixed incomes.

I am respectfully requesting that (DFS) not approve their request for a rate increase change and to have the decency and compassionate not to let these insurance company get away with their greedy endeavors.

I am awaiting your response as soon as possible for I will not be able to afford their increases if such actions are approved. I will have to ultimately cancel my policy with Fidelis Care NY.

I received the notice that you are looking to raise my health rate from 272.59 to 332.03 per month. There is just no way in this world that I can afford that! I can barely afford the 272.59 per month and this is the bottom plan, Fidelis Care Bronze. This is suppose to be the affordable care act! If anything, the rates should be going down. The economy is not getting much better, my husband's job hasn't given him a raise in years due to the economy, and since I was laid off from my part time job over a year ago, I still can't find any work. There is no way we can afford a raise in insurance. What this country needs to do, is start going after all these people who have children, don't get married, so they can have free health insurance and let the government take care of them. Or people who lie to the government to get free insurance. Us hard working middle class people are the ones who get screwed with health insurance premiums, and paying for people who lie to the government to get things for free. If the rate goes up, the government better find a way to help us hard working middle class people pay for it, because we won't be able to!

I lost my Oxford policy due to OBAMACARE. I have had this Fidelis NYS Catholic Health Plan since 5/1/2014 and already there is talk of a premium increase. I selected this policy based on the premium. I do not think it is fair and will cause my family hardship

Fidelis Care

to: premiumrateincreases

06/25/2014 04:54 PM

NYS Dept of Financial Services: Health Bureau - Premium Rate Adjustments,

I recently enrolled in Fidelis Care on June 1, 2014 through the NYS of Health website.

On June 11, 2014, my doctor submitted a prior-authorization for a non-formulary drug which was subsequently approved by Fidelis Care.

However, on June 13, 2014 I received a letter stating Fidelis Care had submitted a proposed 2015 rate increase of \$34.18. My current premium, with my tax credit is \$35.00. This is more than a 100% increase. If my tax credit is adjusted or removed, it is a 650% increase.

My question is: When did Fidelis Care submit the proposed rate increase and is the proposal for all members or just me? Also, is the increase a result of my prior-authorization request?

The name of my plan is [REDACTED] Fidelis Care, I have individual coverage, and my HIOS ID number is [REDACTED]

I look forward to your response.

I can barely afford mandated medical insurance my employer does not provide so I chose Fidelis Care which appeared to be affordable. It took me 3 months just to find a primary care provider. I did find one medical center where I see Physicians Assistants and wait months now to see a real doctor. It's a good thing I'm not a sickly person. I can't find a hospital in the area that takes this insurance nor can I find specialists. I can barely make ends meet financially and this current Fidelis Care Bronze plan already costs more than I can afford and now they want an increase, are they insane? I think it is absurd that I must pay for medical that I cannot afford. There is something very wrong with this system. Where are the doctors who take this plan? Where are the hospitals, labs and specialists that take this plan? Please do not increase these premiums and let's be more realistic with these costs. I can barely afford it now and I only have it because I've been mandated to by the government. I've given up my daily lunch at work due to my new medical costs and when I eat, I eat junk. This is a hardship for me. I am healthy and would like to remain that way. Eating junk should not be a solution so I can afford medical insurance. I thank God I am healthy and pray I remain that way. This mandated insurance is something the government should pay not me. The government is quick to hand out money to strangers. How about taking care of us.

I have the Fidelis care silver plan id# [REDACTED] I am having a hard time paying for the plan that I have now and would not be able to afford a rate increase come 2015. I am a healthy [REDACTED] yr.old with no medical issues. In fact I work at a health club. Why is it I am being penalized for being healthy? Is this not age discrimination???? I can't believe a company such as yours was so ill prepared for this Obamacare enrollment. I will be shopping for another health plan if your rates increase.Perhaps you should have a wellness physical to determine who is really costing you money- it just might be someone younger than me.

Please don't increase rates

I strongly urge you to prevent Fidelis Care from raising our premium rates. Since joining Fidelis our monthly rates are slightly lower but our out of pocket costs have increased significantly compared to the plan we had before the implementation of the ACA, as a small business owner we pay a very high price for health insurance and we believe it is unfair to protect corporate interests(Fidelis) at our expense. Please do the right thing and protect small business owners in NY

Proposed Health Insurance Rate Increase

██████████ to: premiumrateincreases

07/01/2014 03:29 PM

History:

This message has been replied to.

After less than a year under my current healthcare plan, the insurer -- New York State Catholic Health Plan/Fidelis Care -- indicates to me that it intends to increase my monthly premium by more than 20%. My questions are these:

--How likely is it that DFS will approve such an increase?

--If this is the kind of annual increase subscribers can expect, how is this healthcare "affordable"? At 20+% per year, this coverage will soon be too expensive for me.

--Is it ethical for a for-profit insurance company to mention in its correspondence with me that I qualify for and receive (a very small amount of) financial assistance from NY State of Health? What business is it of theirs?

--How is the Catholic church even permitted to run a for-profit insurance company? I was unaware, at the time that I signed up with Fidelis, that it was an arm of the Catholic church. Is it ethical for them to have withheld this information from the people who they signed up? The NYS navigator who assisted me with my application surely didn't seem to have been aware of the fact.

Thank you.

Under Obamacare I was forced to get health insurance which i cannot afford to pay for. I don't make much money. What money I make goes towards bills my ex-boyfriend ran up on me. I'm sleeping on my parents couch because otherwise I'd be on the streets. My sole possession is a 13yr old car which barely runs. I've had Fidelis Care for two months now and I just received a letter stating they intend to increase my rate. Even WITH the tax break I cannot afford this insurance. It's not right to do this to the people who cannot afford it the most. I'm an honest person struggling to get by. I don't ask assistance from anyone. There are people out there who have it worse than me. To raise someone's rate immediately after signing with a company is wrong. It's not right to penalize someone for being poor.

July 2, 2014

NYS Department of Financial Services
Health Bureau- Premium Rate Adjustments
1 State Street
New York, N.Y. 10004

Dear DFS,

I am in receipt of a notice of request by Fidelis Care for an Insurance Rate Increase in 2015., we are totally and absolutely **against any insurance rate increases**, especially at this time, after just 6 months to a year of having signed up for insurance coverage after being without for over 10 years.

In my opinion, the reasons given for the request in rate increase are not substantial or credible enough. I'd like to address the major reasons provided by Fidelis for the rate increase request:

1. Age of the pool entering the market place is older, and consequently more costly than anticipated-

I would like to see the evidence of this claim, since, the pool itself is much larger and still growing and the older members were the one discriminated against and denied coverage prior to the health care law/Act coming into existence.

2. Fidelis having a broader provider network of coverage cuts both ways for the company, on the positive side-, there is a larger pool to choose from, with many being first time insured and many from the pool paying directly, out of pocket without subsidy from the Government, like myself.

Secondly, while it is true, that a broader provider network will incur greater costs, Fidelis need to make available for public scrutiny, the comparative study of income versus expenses for the period of May 2014 to December 2014, showing increasing pay outs/claims versus income collected from the pool of insured customers within their network since AHC was enacted.

3. Insurance companies have for years as standard practice, yearly requests for premium increases, and more often than not, being granted increases to the point where many could no longer afford the costly coverage. I'm afraid we are heading in that direction again, because without a doubt, at the end of 2015, Insurance companies will once again request an increase in premiums citing rising network costs as the reason, and we'll be once again back to where we started before the Affordable Health Care Act (AHC) was implemented.

We must give the AHC time to work, therefore raising the rates in 2015, when millions of American are still not on board and several of the programs are not yet enacted is **NOT** the wise and prudent thing to do at this time.

The DFS, if acting in good faith on behalf of the Insured and not the Insurance Company, must not acquiesce to yet another effort on the part of many Insurance companies to ensure that the AHCA fails before it has a chance to succeed.

Thank you

History:

This message has been replied to.

To Whom it May Concern,

I am very concerned about the proposed rate increase for Fidelis Care Silver Plan. We are extremely burdened by the cost of this healthcare plan. For some reason it is determined by the state and federal government that we can afford to pay nearly 1/3rd of our income on healthcare. With a mortgage that eats up much more of our income, we are truly struggling to making these payments every month. Being self-employed parents with seasonal work this remains extremely difficult. Any increase in the rate could easily put us into the category of not being able to pay the fees, in which case we could be forced to take a bronze plan, or worse yet exempt ourselves. In that case, any illness could cause catastrophic loss to our family and young child. We fall in the gaps, we don't qualify for a state plan but can hardly afford the one on offer to us. An increase of \$60/month could be the straw that breaks this camels back.

I urge to please consider us people who carry to brunt of these costs. The insurance company makes ever more profit for their shareholders, and we are barely making ends meet.

Thank you for your consideration.

Sincerely,

██████████

I have been on this plan insurance for only two months. A proposed increase would be a hardship for me. I have not used my insurance and only want catastrophe /hospitable coverage. People should be rewarded for not using their insurance like the car insurance industry. If there was incentive to prevent unnecessary Dr visits and over medication we would see less abuse and waste. I am not talking about real and necessary interventions. If this increase is passed i will most likely return to a no health insurance coverage status.

Fidelis just sent me a notice that they are asking for an increase in their premium rate change in Jan. 2015. I am enrolled in the NY State Health Exchange otherwise known as "the Affordable Care Act". The increase is for \$90.44 on top of my current premium!!!! I sincerely hope they are NOT granted this enormous increase!!!! This is not "affordable" by any means and will be a gigantic burden and hardship to me for sure. This will continue to push people out of the exchanges but one wonders if this was the ultimate goal after all. I cannot afford to pay \$512.78 on a monthly basis. PERIOD!!!

I wish to document my strongest displeasure in the proposed rate increases to my new insurance plan.

I have made my first 3 payments on time & I am in good health -to learn in as much time that my rate is going up nearly \$1k annually!

Also, I have noted that the cost of prescriptions & doctor visits cost much more than when I had no insurance!

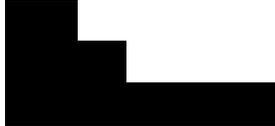

I feel this is untenable.

I chose the Fidelis Care Gold Plan through New York State of Health. I agreed to pay for what I thought would be a great plan for myself and my daughter. It has proven expensive, with costs that I am assuming that were unclear during the sign-up phase, both in deductibles and out-of-pocket costs. At the mid-way point of this year, we have not even met the combined deductible of \$1,200, have paid a lot in out-of-pocket costs, plus paying TO Fidelis \$717.97 PER MONTH, or \$4,307.52 total for just the first six months of the year in health insurance coverage. Now Fidelis informs me that, due to the government's miscalculation that the

segment of the U.S. population that applied for "Obamacare" insurance is actually much older than anyone thought they'd be, and therefore, most costly to insure. This is stated in the letter I received. Did they honestly believe that young people, working for minimum wage, could afford this highway robbery? NOW I have received a letter from Fidelis, informing me that they are requesting a MONTHLY increase in my payments to \$871.72, a difference of \$153.75 PER MONTH. I will probably end up dropping health insurance altogether and pay the penalty. I cannot afford this highway robbery. I am in early retirement now at age [REDACTED] and will begin receiving social security this month. I have a fixed income. The "insurance industry" in this country is a monopoly. This is unfair, and surely is an indication of a still-broken system and an ongoing incestuous relationship between government

and the insurance
business.

The increase change to the premium would not be favorable at this time. The payments that I have made before the notice of an increase has been three payments. This would put a financial burden on individuals and families in New York State. The proposed increase rate is high, due to the already high premiums that are already being paid by the individuals on the plan. I would urge you to take action not to approve the increase as it will put a tighter squeeze on people's budgets that are having a difficult time keeping up with the cost of living. Thank you for taking the time to read my comments and consider not to approve the proposed increase.

...

To whom it may concern,

I would like to know if what is happening to me is happening to everyone.

As this seems like a fraud on all counts. A bait and switch !! ??

I did not pick a provider with the \$1400 patient deductible up front and have to **pay each month for insurance for nothing until the \$1400 is paid** . Which I feel is total rip-off

Because the provider payments (with **co-pays** of course) do not start until I pay my \$1400 deductible, (which **FYI** if I **paid in full** for doctor and services for the **past three years** would not have paid out \$1400)

I chose a provider policy with a **co-pay** only..

I have received notice that my affordable support will be reduced from \$195 to \$172 (**minus \$23**)

And my provider (**fidelis health care**) just sent me notice that my plan will increase from \$510.27 to \$625.00 (**plus \$114.73** in 2015) (**\$1376.76 for year**)

That is a big swing in cost (**plus \$137.73 A MONTH**) as I am retired on fixed income and will have to , at end of the year change my plan again.

I was told to contact you from NYS health gov ,in hope that you could help and/or advise me in what to do?

Thank You

To whom it may concern:

We're beyond outraged of this premium increase request from Fidelis Care (Bronze), especially since we've only started our Health Insurance coverage with them on April 1, 2014 and this letter is dated June 13, 2014, After ONLY 2 ½ MONTHS, Fidelis Care decides that for next year (2015) they're going to increase our premiums from \$776.88 to \$946.27! That's outrageous, and how does Fidelis Care justify this premium increase? For years, we've been self insured with Assurant while living in Texas; now that we've moved back to New York (our native State) we get these outrageous premiums increases. As it is, we find \$776.88 per month to be too much for premiums, we need lower premiums and the high out of pocket deductible is high, too. And now Fidelis Care Bronze want to increase our monthly premiums to \$946.27? We disagree with this increase and if Fidelis Care Bronze is going to increase our premiums to \$946.27, we simply won't be using their health insurance services for 2015.

This so-called "Affordable Care Act" isn't affordable and needs REFORM! We disagree with this proposed increase and are beyond outraged. We won't be accepting this increase.

Should you need to reach us please email me at angiepopik@hotmail.com or by mail at our home address listed above.

History:

This message has been replied to.

Dear Sirs,

I got a letter from Fidelis Care now just after i signed up for "obama care" and i have never even used the service, not determined a doctor or gotten anything from them.

Still they send me a notice that the rates are going to change from \$360 pr month to \$394.18 pr month. That is almost 10% increase in two months. They do say it will not apply until 2015, but still an increase in service that is more than 3 times inflation is unacceptable!!

I Hope you can curb this type of price gauging from private for profit sectors.

sincerely,

I Have Fidelis Care .They have asked for a 10% increase in premiums .Medical insurance just became affordable,Now I am going to be knocked down to a lower plan because that is what I can afford.Do I care ,not that much.But after paying and not going to the doctor because I would be required under that plan to pay for visits .Oniy catastrophic would be covered.So soon it would not be worth having insurance.So then back to no insurance.You end putting me right back were I started.No thanks to the increase.

rate increase for 2015

██████████ to: premiumrateincreases

06/16/2014 02:16 PM

To whom it may concern:

Please don't pass the new rate increase for 2015. For those of us who are employed and lost our health insurance due to Obamacare, this has been a nightmare. I had better coverage with the company I am with, for less money. Not only am I paying more now on my end, but NYS now has to kick in additional money for the tax credit portion. When I tell you I'm just getting by it's no joke. I wish it could go back to the way it was, but that doesn't look like it's going to happen.

Please don't pass the rate increase for 2015 premiums.

Thank you,

Rate changes requested by Fidelis Care

██████ to: premiumrateincreases

06/16/2014 04:40 PM

I just wanted to comment about the rate change that Fidelis Care is requesting. I will have to cancel my insurance if these rate changes go through. I can barely afford the rate I already have and it's very difficult to keep up with it so far.

Insurer: NYS Catholic Health Plan (Fidelis Care)
Name of Plan - Fidelis Care Platinum
Individual covera
HIOS ID Number: ████████████████████

If you approve the rate increases, I will cancel the insurance completely. I do have Platinum, but I go to the doctor so seldom (I haven't gone at all and it's 1/2 way through the year) but I want to have the option of going to doctors I want. I will not lower the plan level.

This is totally ridiculous. New Yorkers are penalized on every front for living in this state.

Thank you for allowing me to comment.

> I have signed up with Fidelis care bronze [REDACTED] and just received a notice that Fidelis is asking for a rate hike of 10%. I am completely taken back by this rate hike increase. This insurance company, along with all others that are available for purchase on the exchange had a HUGE increase in subscriber ship as a result of the recent legislation. I signed up with this plan as a direct result of it having the lowest cost. I am self employed and don't appreciate having to pay higher and higher rates for my health insurance so the CEO's of these firms can garner larger salaries.

>

> If Fidelis rates increase i will be forced to come off the exchange and go without healthcare and face the penalties imposed.

>

> Recent legislation demanded everyone have insurance and now that we all have it it is not acceptable that the insurance providers start requesting rate increases.

Please respond to ██████████

To whom this may concern,

I received a notice from Fidelis Care for a rate increase on my health insurance. The increase will cost me \$60 more a month. I can not afford this in my budget. My daughter is included in my plan and she is attending college full time plus she works part time. I do not know how I am going to pay for the increase.

RE: New York State Catholic Health Plan

[REDACTED]
Individual Coverage

Fidelis Care Silver [REDACTED]

Dear NYS Department of Financial Services:

I applied for health insurance through the New York State Health Exchange for my wife and I and selected Fidelis Care's Silver Plan because the monthly premium rates seemed affordable. I recently received a letter informing me that Fidelis Care (New York State Catholic Health Plan) has applied for a monthly premium increase from \$689.85 to \$826.52 for 2015.

Under the current plan, I pay out-of-pocket monthly premiums of \$394.85 and am expected to receive a state tax credit equivalent to \$295 per month. My annual deductible is \$1,750.00 and I have varying co-payment amounts ranging from \$30.00 to \$1,500.00 depending upon the type of services sought. I can barely afford the out-of-pocket costs as they are now, and to increase them would force me to go without health coverage.

I believe that it is disingenuous of this health care provider to promote one premium to the public upon the launch of the New York Health Exchange and, then, request an increase less than one year after members enroll in the plan. This is unreasonable, discriminatory and just unfair to the working class families who depend upon the New York Health Exchange to provide affordable health insurance.

Based upon the above, I respectfully request that the proposed rate increase be denied.

Very truly yours,

[REDACTED]
[REDACTED]

[REDACTED]

proposed rate increase by Fidelis Care

[REDACTED] to: premiumrateincreases

06/17/2014 08:04 AM

I write to strongly protest the proposed rate increase by Fidelis Care for the 2015 premium. It would raise the monthly rate for myself and my 20 year old son who is in college from \$905.37 to \$1013.43, a whopping 12%! I purchased this plan on New York State of Health only a few months ago. Such a huge increase makes "affordable health care" more of a joke than a reality.

[REDACTED]

Fidelis Healthcare

to: premiumrateincreases

06/17/2014 09:47 AM

To Whom It May Concern:

I am in receipt of a letter from Fidelis advising that they are requesting a premium increase - 3 months into the Obamacare required system. I am both mortified and hysterical.

I am a person who makes \$45,000 a year, minus taxes, minus anything I can contribute to my pension (which is barely anything). I work for a small business whose healthcare plan was cancelled thanks to Obamacare. We know have to get our own insurance. Literally, on a salary where my net check is barely enough to pay my rent, insurance, utilities, AND EAT, an increase of \$30 a month for someone in my income bracket is beyond ridiculous. As it is, I pay \$342 a month but I cannot afford to actually use my insurance as on top of the premium, I am supposed to come up with another \$2000 in deductible before my COPAY even comes in effect. I get zero supplement as I make too much (which I guess means I can get food at a store instead of a foodbank).

They note that the people who signed up are older than they thought - well, isn't that just too bad. I know that regardless of that fact, there are many more people like me who are NEVER going to a doctor again as I cannot afford the premium and the deductible - or any medication that may be prescribed. NY cannot allow this premium increase already. At this point, I am going to pay the tax at the end of the year, and pay for my own doctor. I will still have more money than paying this premium and trying to afford the deductible and co-pays on top of that. I am not making \$100,000 a year - I have bills that have to get paid. If I get really sick, I will quit my job and go on medicaid and get free healthcare which is actually a better quality than the healthcare I have now and that I can afford. How are they going to support their organization when every middle class working person can no longer afford to pay? They actually note in their letter that they want to expand the network - AND THEY WANT US TO PAY FOR THAT TOO???

I do not know what else to say except if you allow this, I will hope that everyone does the same thing as me, and I will ask people to do the same as me, and just stop paying for our healthcare. Again, we can get free healthcare as soon as we stop WORKING.

Sincerely,

[REDACTED]

Rate change / Fidelis Care platinum [REDACTED]

06/17/2014 10:46 AM

Good morning,

I have received the notice about proposed increase on my policy for 2015.

I find this to be beyond aggravating !

As is , it's a burden on society to have such a huge expense , called "medical insurance " , so called or just extra tax on average middle class making ends meet !!!

If the government is looking to boost their revenue , try going after welfare and medicaid ! Cut that down , have ppl pay !

Especially , when good drs don't even want to deal with these insurances .

If my premium will increase , and not decrease I will need to think twice before renewing the "medical insurance " .

This used to be "free country " what happened to our freedom !!!

Rate Change from Fidelis Care

[REDACTED] to: premiumrateincreases@dfs.ny.gov

06/17/2014 02:15 PM

To whom it may concern:

I am writing to you today to ask you not to approve the rate increase of my health insurance premium as asked for by New York State Catholic Plan (Fidelis Care).

I cannot afford the premium as it is, I live alone and am responsible for all my bills. My deductible of \$1750.00 is way too much for me and having to pay \$112.00 a month is making ends meet even more difficult. I cannot even afford to see a specialist, I will never be able to meet my deductible. What is the point of health insurance if I can't go to the doctor?

1. Name of insurer - New York State Catholic Health Plan (Fidelis Care)
2. My plan is Fidelis Care Silver,
3. I have individual coverage
4. HIOS identification number is - [REDACTED]

Please help I am in pain but am unable to afford to see a rheumatologist who are asking anywhere from \$176 to \$376 just for a consultation.

Please do not approve this premium increase.

Thank You

[REDACTED]

[REDACTED]

Rate Increase Fidelis care

[REDACTED] to: premiumrateincreases

06/17/2014 05:49 PM

What? Rate increase, from the tone of the letter the increase is already a done deal.

I have Fidelis Care Platinum

I have Individual Coverage

My HIOS# is [REDACTED]

Fidelis's deductible is so high that they end up not paying one cent. It would do me better by having a health care account at a local bank to cover visits to local doctors. Part of the proposed increase should be the lowering of their sky high deductible.

Thanks Very much,

[REDACTED]

Fidelis Care Rate Increase Request

██████████ to: premiumrateincreases@dfs.ny.gov

06/17/2014 06:01 PM

Please respond to ██████████

Dear Sirs:

I just received a letter from my health insurance provider, Fidelis Care about a rate increase request. I am writing to you to strongly protest this increase, I am a █████ year old retired man who must buy his own insurance and have done so for the last four years.

It was an immense relief when the Affordable Health Care Act finally kicked in with the new health care system greatly reducing my premiums.

Now, after only one year, the insurance company wishes to begin raising rates. Before long, I'll be paying what I was a year ago.

Please help those of us who buy health insurance by not allowing the insurance companies to raise their rates. Once started, it will never stop and defeat one of the most important aspects of Obama Care: lower monthly premiums.

Thank you, ██████████

Fidelis care silver plan

to: premiumrateincreases@dfs.ny.gov
Cc: [REDACTED]

06/18/2014 11:31 AM

Good morning.

I recently received a letter dated June 13, 2014 from Fidelis Care, regarding a proposed rate increase in 2015 to my NYS exchange Silver plan. I would like to protest this for my particular plan and am doing so within the allowed 30 day period. I retain a copy of this email.

1: I have not worked since July 24, 2013 and have filed for disability per my mental health doctors on October 7, 2013. This has forced me to cannibalize my 401K funds, drastically raise my credit card debt and use most of my Roth IRA funds to pay bills--including the addition of the forced ACA that is this Fidelis Care plan.

2: I filed an update to the NYS exchange reflecting the gross 401K amount which lowered my available government subsidy from \$209 to \$202/mo. The actual amount of income available to me is about \$15182.

3: I feel that the truer reason for the proposed rate increase is that people have actually used medical/doctor services and providers see this as cutting into their profit margins. I find this counter to the reason for the establishment of the ACA. It was meant to provide health care to those of us who needed it and couldn't afford it. Not to further line the pockets of the providers and their CEOs. Yes, I have made use of it because I rarely need to see a PCP and was due to do so. I do need routine mental health services and actually had a physical issue spring up this year.

4: While the Fidelis notice indicates that their reasons for an increase, to make an increase on my policy will be self-defeating of the intended purpose of ACA and make for an ever larger premium when coupled with the reduced government subsidy.

5: My personnel funds run out in October 2014. There is no guarantee that I will have disability funds available to me in October and it is a guarantee that they will be insufficient to survive on. This includes paying this monthly premium with its proposed increase.

6: I do note that Fidelis allows for a possible decrease in premium, but the public knows the reality of that.

In conclusion, I would ask that you not allow a rate increase or let them decrease the services/providers.

Thank you.

Fidelis Rate Change

To: Whom It May Concern

Dear Sir/Madam

I absolutely disagree with rate increase you are proposing.

I am a single adult with a salary of \$52k year. I have 4 young children.

I am paying right now almost \$ 5732.52 per a year plus \$600 in deductibles and plus copayments.

My total payments for medical insurance are - close to 14% of my gross salary and 25% of net pay.

Another rate increase would be simply unbearable.

I strongly oppose your proposed rate increase; Last year I was paying \$120.00 less for insurance before I was kicked off this plan thanks to ObamaCare act.

Please answer in writing if you are granting my request.

Sincerely,

Please respond to ██████████

06/19/2014 12:03 PM

To whom it may concern,

I would like to comment that I strongly oppose any increase to my Health Plan.

I cannot afford to spend an additional \$1,640 per year on health Insurance which is what this increase will require from me personally. I have no access to any "help" from the government with my insurance.

I thought the point of the exchange system was to give individuals like me access to affordable Health Care. If this increase goes through I will be paying more than I was when I was just purchasing insurance before the exchange came into effect for less coverage and choice in my local area.. This is NOT what was promised to me.

I have Fedelis Care Silver – Individual Coverage my HIOS # is ██████████

The reasons for the increase they have sighted are

Age of people joining their network was older than anticipated.

Increase broader Provider network in some areas – THEY HAVE NOT SPECIFIED WHERE?

Government not helping them with Catastrophic Cases.

Maybe they should look at managing their costs in other wise. The amount of money they spend on sending me pointless letters, glossy brochures would be a good way to start.

Figure out a way of attracting more young professionals that are healthy to their programs

This is totally unacceptable and completely unaffordable.

Kind regards,

██████████

The proposed hike would result in the premium for my Bronze Plan being nearly as high as the premium I used to pay for the far more comprehensive coverage I had under Healthy New York, prior to the implementation of the Affordable Care Act. This seems like a most unfair result. For my sake, I hope that DFS disapproves the rate hike.

Hello, Please do not allow Fidelis Care my health insurance comany to raise thier rates. I am fed up with all greedy insurance companies constantly squeezing consumers for every penny they can get out of us. Rates should only be allowed to increase every three years based on inflation. I personally can barely afford a gold plan right now. I've had some minor claims so far this year and I suspect Fidelis is already trying to get that money back by stating they have some lame expense excuses. Keep in mind insurance exec's across the board make six and seven figure salaries and want to be able to pay for their second and third vacation homes at the consumers expense. In my opinion the concept of any insurance is comparable to a legal ponzi scheme. They don't provide a real product or real service. They take in as much money as they can and begrudgingly give it back making up "fine print" excuses to avoid paying out many times at all. These comments are all valid reasons why the rate increases should be denied. Freedom of speech! Thank you for listening.

[REDACTED]

Proposed insurance rate increase

[REDACTED] to: premiumrateincreases

06/22/2014 08:29 PM

I received a letter dated June 13, 2014 from Fidelis Care, informing me that they are filing a request with DFS to approve a change to my premium rates for 2015. The proposed change would increase my premium from \$272.59 to \$332.03 per month. This represents a 22% increase.

I signed up with Fidelis Care in March. My employer doesn't pay for health insurance and the only plan available through my employer is much too costly (over \$600/month). Because of this I have been uninsured for the past few years. With the requirements of the Affordable Healthcare Act I determined that it would be better to purchase an insurance policy than to pay the penalty for being uninsured. I selected Fidelis Care because it was the one of the few affordable plans available in my area.

I am in good health and have not had occasion to have any claims under my current policy. So far all that Fidelis Care has done for me is maintain an account and send me bills. I am 61 years old and striving to build up some retirement savings. Even the current premium is a financial burden. I understand that costs sometimes go up, however my income is not going up. A modest increase might be tolerable but a 22% increase is outrageous.

In conclusion I urge the DFS in the strongest terms possible to deny Fidelis Care's request to increase my premium, or at the very least to allow an increase of no more than 5%. Thank you for your consideration of my comments and concerns.

Sincerely,

[REDACTED]

My HIOS id number is : [REDACTED] My plan is requesting a 35 dollar a month increase. this equals 420 a year, which is a lot for someone on a fixed income. I thought the the health exchange was suppose to keep rates at affordable level! Please reject their outrageous request for an increase after just one year. Thank you in advance

comment

to: premiumrateincreases

06/23/2014 04:23 PM

To Whom it May Concern,

I am writing to strongly object to the rate increases proposed by my insurance carrier Fidelis.

The government literally forced everyone to get insurance and promised reasonable rates. Fidelis was all I could afford even with the tax credit. Now Fidelis claims it isn't making enough **profit** so it will raise its rates. What about me? I am not getting a raise to cover the increase and when I lose money it comes out of groceries!!!!

Please do not allow this rate increase to happen. It is not even a year since the sign up deadline!!!! Let Fidelis wait it out until things settle in. They set their rates to lure people in knowing that changes in the government portion of "catastrophic" cases was going to happen. This all smells like a scam and I am tired of being abused.

Sincerely,

06/23/2014 05:42 PM

Greetings,

Please find attached a copy of a letter received June 17, 2014.

Fidelis Care has proposed a 9% increase for 2015. At our current rate of use, Fidelis Care will see a net positive in terms of revenue from insuring our family as we will not exceed our deductible this year. Our family is NOT anticipating a 9% increase in income. Based on the information I have, a 9% increase is alarmingly high! Even if I receive a larger tax credit subsidy, I am still intersted in keeping federal costs down.

Would you please call me at [REDACTED]. I would like to have a conversation with an individual who will be reviewing this rate increase request. I have some questions.

What data/information will you use in your review of this request? Since New York State Catholic Health Plan (Fidelis Care) is a not for profit, will you be reviewing salaries of employees? Especially executive level employees?

Will the market place be enhanced with more providers for the 2015 Calendar Year? I am interesting in more choices.

In closing, know that I am pleased with our experience with Affordable Health Care Act and New York State's participation during 2014. We have long taken resposibilty for our health by eating right, getting regular and safe exercise, sleeping well, refraining from smoking, drinking and unsafe behavior. Paring an Affordable Health Care/NYS State of Health option (Fidelis) with a Health Savings Account (HSA) has provided us with the financial infrastructure to continue to engage with preventative health care services like dental, chiropractic, birth control and vision. During this time we feel secure in knowing that if a major medical event did occur, we will not have to declare bankruptcy.

Thank you for your time and attention,

Comments on Proposed Rate Change (Fidelis Care Bronze [REDACTED])

to: premiumrateincreases

06/24/2014 07:15 PM

To Whom It May Concern:

My name is [REDACTED], and I am writing today to comment against the proposed premium rate increase for my policy (Fidelis Care Bronze [REDACTED]). I believe that paying \$308.33 monthly for a plan that doesn't cover much of anything is already more than enough. We should do our best to prevent these prices from increasing faster than average young New Yorkers can keep up with. \$11.00 may not seem like a lot, but it adds up, and I'm sure it will not be the last rate adjustment requested by Fidelis and other insurance companies.

Thank you for your consideration and time,

[REDACTED]

I can barely afford mandated medical insurance my employer does not provide so I chose Fidelis Care which appeared to be affordable. It took me 3 months just to find a primary care provider. I did find one medical center where I saw a Physicians Assistants and wait months now to see a real doctor. It's a good thing I'm not a sickly person. I can't find a hospital in the area that takes this insurance nor can I find specialists. I can barely make ends meet financially and this current Fidelis Care Bronze plan already costs more than I can afford and now they want an increase, are they insane? I think it is absurd that I must pay for medical that I cannot afford. There is something very wrong with this system. Where are the doctors who take this plan? Where are the hospitals, labs and specialists that take this plan?

Where are the hospitals, labs and specialists that take this plan? Please do not increase these premiums and let's be more realistic with these costs. I can barely afford it now and I only have it because I've been mandated to by the government. I've given up my daily lunch at work due to my new medical costs and when I eat, I eat junk. I am healthy and would like to remain that way. Eating junk should not be a solution so I can afford medical insurance. I thank God I am healthy and pray I remain that way. This mandated insurance is something the government should pay not me. The government is quick to hand out money to strangers. How about taking care of us.

My HIOS ID# [REDACTED] Fidelis wants to raise my premium by \$40/month. I am already paying through the roof and will be forced to cancel my policy if you allow them to raise my premium. Please do not approve their requested premium increase. Thank you, [REDACTED]

I received the notice that you are looking to raise my health rate from 272.59 to 332.03 per month. There is just no way in this world that I can afford that! I can barely afford the 272.59 per month and this is the bottom plan, Fidelis Care Bronze. This is suppose to be the affordable care act! If anything, the rates should be going down. The economy is not getting much better, my husband's job hasn't given him a raise in years due to the economy, and since I was laid off from my part time job over a year ago, I still can't find any work. There is no way we can afford a raise in insurance. What this country needs to do, is start going after all these people who have children, don't get married, so they can have free health insurance and let the government take care of them. Or people who lie to the government to get free insurance. Us hard working middle class people are the ones who get screwed with health insurance premiums, and paying for people who lie to the government to get things for free. If the rate goes up, the government better find a way to help us hard working middle class people pay for it, because we won't be able to!

I lost my Oxford policy due to OBAMACARE. I have had this Fidelis NYS Catholic Health Plan since 5/1/2014 and already there is talk of a premium increase. I selected this policy based on the premium. I do not think it is fair and will cause my family hardship

Fidelis Care

NYS Dept of Financial Services: Health Bureau - Premium Rate Adjustments,

I recently enrolled in Fidelis Care on June 1, 2014 through the NYS of Health website.

On June 11, 2014, my doctor submitted a prior-authorization for a non-formulary drug which was subsequently approved by Fidelis Care.

However, on June 13, 2014 I received a letter stating Fidelis Care had submitted a proposed 2015 rate increase of \$34.18. My current premium, with my tax credit is \$35.00. This is more than a 100% increase. If my tax credit is adjusted or removed, it is a 650% increase.

My question is: When did Fidelis Care submit the proposed rate increase and is the proposal for all members or just me? Also, is the increase a result of my prior-authorization request?

The name of my plan is ██████████. Under Fidelis Care, I have individual coverage, and my HIOS ID number is ██████████.

I look forward to your response.

Thank you,
██████████

I have rec'd and review your proposed Premium Rate Change. I have selected Fidelis Care because of its cost. I am concerned that my monthly charge will go up. **I cannot afford an increase in my premium.**
